Movement 1865-1950 Russell Brooker,2016-12-07 The American Civil Rights Movement 1865 1950 is a history of the African American struggle for freedom and equality from the end of the Civil War to the beginning of the Civil Rights Movement in the 1950s and 1960s It synthesizes the disparate black movements explaining consistent themes and controversies during those years The main focus is on the black activists who led the movement and the white people who supported them The principal theme is that African American agency propelled the progress and that whites often helped Even whites who were not sympathetic to black demands were useful often because it was to their advantage to act as black allies Even white opponents could be coerced into cooperation or at least non opposition White people of good will with shallow understanding were frustrating but they were sometimes useful Even if they did not work for black rights they did not work against them and sometimes helped because they had no better options Until now the history of the African American movement from 1865 to 1950 has not been covered as one coherent story There have been many histories of African Americans that have treated the subject in one chapter or part of a chapter and several excellent books have concentrated on a specific time period such as Reconstruction or World War II Other books have focused on one aspect of the time such as lynching or the nature of Jim Crow This is the first book to synthesize the history of the movement in a coherent whole **Civil Rights Movement** Max Winter,2014-08-01 This great effort to bring about an end to racial segregation and discrimination brought people and political and social change to the forefront that would go down in history From brave people like Rosa Parks and Martin Luther King Jr to events like Brown v Board of Education this title covers it all This title offers primary sources Fast facts and sidebars prompts and activities and more Aligned to Common Core standards and correlated to state standards Core Library is an imprint of Abdo Publishing a division of ABDO

Civil Rights in the USA, 1945-68 Vivienne Sanders,2008 This series is the most popular and trusted series for AS and A level history students The new editions combine all the strengths of this well loved series with a new design and features that allow all students access to the content and study skills needed to achieve exam success *The Civil Rights Movement in American Memory* Renee Christine Romano,Leigh Raiford,2006 The movement for civil rights in America peaked in the 1950s and 1960s however a closely related struggle this time over the movement s legacy has been heatedly engaged over the past two decades How the

civil rights movement is currently being remembered in American politics and culture and why it matters is the common theme of the thirteen essays in this unprecedented collection. Memories of the movement are being created and maintained in ways and for purposes we sometimes only vaguely perceive through memorials, art exhibits, community celebrations, and even street names. At least fifteen civil rights movement museums have opened since 1990. *Mississippi Burning*, *Four Little Girls*, and *The Long Walk Home* only begin to suggest the range of film and television dramatizations of pivotal events. Corporations increasingly employ movement images to sell fast food, telephones, and more, and groups from Christian conservatives to gay rights activists have claimed the civil rights mantle. Contests over the movement's meaning are a crucial part of the continuing fight against racism and inequality. These writings look at how civil rights memories become established as fact through museum exhibits, street naming, and courtroom decisions; how our visual culture transmits the memory of the movement; how certain aspects of the movement have come to be ignored in its official narrative; and how other political struggles have appropriated the memory of the movement. Here is a book for anyone interested in how we collectively recall, claim, understand, and represent the past.
