James Caldwell, 2017-08-09 In 2012 the Episcopal Diocese of South Carolina declared its independence from the Episcopal Church. It was the fifth of the 111 dioceses of the Church to do so since 2007. A History of the Episcopal Church Schism in South Carolina is the sweeping story of how one diocese moved from the mainstream of the Episcopal Church to separate from the church. It examines the underlying issues, the immediate causes and the initiating events as well as the nature and results of the schism. The book traces the escalating conflict between the diocese and the church that led up to the schism. It also examines the legal war between the two post schism dioceses, the majority in the independent Diocese of South Carolina and the minority in the Episcopal Church in South Carolina. This is the first scholarly history of a diocesan schism from the Episcopal Church. It is extensively researched from original and secondary sources and documented in over 2 000 notes citing nearly 900 works. This story stands as a cautionary tale of what happens in a major Christian denomination when majority and minority factions increasingly differentiate themselves and what impact that can have for both parties.

Davidson, 2011 New Zealand's first Anglican bishop George Selwyn was a towering figure in the young colony. Denounced as a turbulent priest for speaking out against Crown practices that dispossessed Maori, he brought a vigorous approach to episcopal leadership. His wife Sarah Selwyn supported all her husband's activities in a life characterised as one of hardship and anxiety; she expressed independently her sense of outrage over the Waitara dispute. Selwyn promoted participatory church government, founded the innovative Melanesian Mission and developed a distinctive style of colonial church architecture. More controversially, he battled with the Church Missionary Society and was caught up in the bitter maelstrom of settler and Maori politics. His personal links with colonial and ecclesiastical networks gave him access to the heart of empire. These essays offer new insights into Selwyn's role in developing pan-Anglicanism, strengthening links between the Church of England and the Episcopal and Anglican Churches in North America and his time as Bishop of Lichfield 1868-78. His place in Treaty history as a political commentator and source of historical information is recognised. George Selwyn left a large imprint on New Zealand church and society. This collection both honours and critiques a controversial bishop. **Guide to Microforms in Print**, 2009 *Journal of the General*
