The Erotic Impulse In Literature:

Sex in Literature: The erotic impulse in literature John Atkins, 1970 **The Erotic Impulse in Literature** John Atkins, 1970 The Sexual Revolution in Modern English Literature Ch.I. Glicksberg, 2013-03-09 The study of its literature is a useful guide to the degree of sexual security existing in a culture When a future historian comes to treat of the social taboos of the nineteenth and twentieth centuries in a fourteen volume life work his theories of the existence of an enormous secret language of bawdry and an immense oral literature of obscene stories and rhymes known in various degrees of initiation to every man and woman in the country yet never consigned to writing or openly admitted as existing will be treated as a chimerical notion by the enlightened age in which he writes If I were asked to name some characteristics typical of the mid 20th century I would put first the uncritical worship of money the spread of nationalism the tyranny of the orgasm the homosexual protest and the apotheosis of snobbery Money sex and social climbing motivate society The English are on the whole an inhibited people They have a basic prudery and gaucheness in sex matters which sets them apart from almost every other nation in Europe In England the realisation that many of the restraints and taboos of Victorian times are unnatural and even psychologically harmful combined with the decline of organized religion has led to a considerable laxity in sex matters particularly since World War II 1 **The A to Z of Fantasy Literature** Brian Stableford, 2009-08-13 Once upon a time all literature was fantasy set in a mythical past when magic existed animals talked and the gods took an active hand in earthly affairs As the mythical past was displaced in Western estimation by the historical past and novelists became increasingly preoccupied with the present fantasy was temporarily marginalized until the late 20th century when it enjoyed a spectacular resurgence in every stratum of the literary marketplace Stableford provides an invaluable guide to this sequence of events and to the current state of the field The chronology tracks the evolution of fantasy from the origins of literature to the 21st century The introduction explains the nature of the impulses creating and shaping fantasy literature the problems of its definition and the reasons for its changing historical fortunes The dictionary includes cross referenced entries on more than 700 authors ranging across the entire historical spectrum while more than 200 other entries describe the fantasy subgenres key images in fantasy literature technical terms used in fantasy criticism and the intimately convoluted relationship between literary fantasies scholarly fantasies and lifestyle fantasies The book concludes with an extensive bibliography that ranges from general textbooks and specialized accounts of the history and scholarship of fantasy literature through bibliographies and accounts of the fantasy literature of different nations to individual author studies and useful websites *Love, Desire and Transcendence in French Literature* Paul Gifford, 2016-12-05 European literature and theory of the twentieth century have been intensely preoccupied with questions of Desire whereas love has increasingly represented a fractured and strange if not actually suspect proposal this is a prime symptom of an age of deep cultural mutation and uncertainty Paul Gifford's book allows this considerable contemporary phenomenon to be observed steadily and whole with

strategic understanding of its origins nature and meaning Gifford paints a clear and coherent picture of the evolution of erotic ideas and their imaginary and formal expressions in modern French writing He first retraces the formative matrix of French tradition by engaging with five classic sources Plato's Symposium the Song of Songs the myth of Genesis the tension between Greek Eros and Christian Agape and the repercussions of Nietzsche's declaration of the death of God Modern variations on these perennial problematics are then pursued in ten chapters devoted to Proust Valéry Claudel Breton Bataille Duras Barthes Irigaray Emmanuel Kristeva Literary and theoretical perspectives are perfectly blended in his study of these attempts at deciphering Eros The book will appeal not only to students of French literature but to all those interested in the cultural upheavals of the twentieth century

Music and the Queer Body in English Literature at the Fin de Siècle Fraser Riddell, 2022-04-14 The first comprehensive study of music and queer identities in late nineteenth and early twentieth century English literature

Ecofeminist Literary Criticism Greta Claire Gaard, Patrick D. Murphy, 1998 Ecofeminist Literary Criticism is the first collection of its kind a diverse anthology that explores both how ecofeminism can enrich literary criticism and how literary criticism can contribute to ecofeminist theory and activism Ecofeminism is a practical movement for social change that discerns interconnections among all forms of oppression the exploitation of nature the oppression of women class exploitation racism colonialism Against binary divisions such as self/other culture/nature man/woman humans/animals and white/non-white ecofeminist theory asserts that human identity is shaped by more fluid relationships and by an acknowledgment of both connection and difference Once considered the province of philosophy and women's studies ecofeminism in recent years has been incorporated into a broader spectrum of academic discourse Ecofeminist Literary Criticism assembles some of the most insightful advocates of this perspective to illuminate ecofeminism as a valuable component of literary criticism

Chinese Theories of Fiction Ming Dong Gu, 2007-06-01 In this innovative work Ming Dong Gu examines Chinese literature and traditional Chinese criticism to construct a distinctly Chinese theory of fiction and places it within the context of international fiction theory He argues that because Chinese fiction or xiaoshuo was produced in a tradition very different from that of the West it has formed a system of fiction theory that cannot be adequately accounted for by Western fiction theory grounded in mimesis and realism Through an inquiry into the macrocosm of Chinese fiction the art of formative works and theoretical data in fiction commentaries and intellectual thought Gu explores the conceptual and historical conditions of Chinese fiction in relation to European and world fiction In the process Gu critiques and challenges some accepted views of Chinese fiction and provides a theoretical basis for fresh approaches to fiction study in general and Chinese fiction in particular Such masterpieces as the Jin Ping Mei The Plum in the Golden Vase and the Hongloumeng The Story of the Stone are discussed at length to advance his notion of fiction and fiction theory

Epistolarity in a Post-Letter World Sindija

Franzetti, 2024-11-18 The study intervenes in a field hitherto dominated by formal and historical analyses of the literary letter Across the five case studies the method of reading epistolarity as a motif is applied to a selection of American novels published after 1990 Nick Bantock s Griffin Lish and Dunn test the limitations of letters for conveying individual experience to a distant other Robinson and Erdrich envision epistolarity as an address to a future Exploring the employment of epistolarity as a motif the study offers an interpretation of the messages these fictions extend for readers in a post letter world Communication technologies and practices may change but epistolarity as a motif a reprise of a scene of encounter that depends on keeping a distance between addresser and addressee remains a deeply compelling site of inquiry in twenty first century literature

Nature, Sex, and Goodness in a Medieval Literary Tradition Hugh White, 2000 Nature is a highly important term in the ethical discourse of the Middle Ages and as such a leading concept in medieval literature This book examines the moral status of the natural in writings by Alan of Lille Jean de Meun John Gower Geoffrey Chaucer and others showing how particularly in the erotic sphere the influences of nature are not always conceived as wholly benign Though medieval thinkers often affirm an association of nature with reason and therefore with the good there is also an acknowledgement that the animal the pre rational the instinctive within human beings may be validly considered natural In fact human beings may be thought to be urged almost ineluctably by the force of nature within them towards behaviour

hostile to reason and the right **Postcolonial Fiction and Sacred Scripture** Sura Qadiri, 2017-12-02 Francophone writers from North Africa and the Middle East often choose to write within a sacred context sometimes engaging directly with Islamist rhetoric Novelists like Tahar Ben Jelloun Morocco Assia Djebar Algeria and Amin Maalouf Lebanon revisit scripture as a way to convey nuances which they believe have been stamped out by monolithic religious world views For them fiction offers a way to break away from limited exegetical horizons but to remain within the faith Others though would go further moving away from all religious practice not just the excessively political or violent Tunisian writers Abdelwahab Meddeb and Fethi Benslama propose that all literature is of its very nature outside of religion and that its proliferation will ultimately lead to a secular society Qadiri explores this wide spectrum of approaches not only by draw comparison with metropolitan French thought but also to assess its potential impact at a time of radical change in the Islamic world Sura Qadiri is a research associate in the French Department University of Cambridge **Fashioning the Feminine in the Greek Novel** Katharine Haynes, 2003-09-02 The Greek novel occupies a special place in the debate on gender in antiquity forcing us to ask why the female protagonists are such strong and positive characters This book rejects the hypothesis of a largely female readership and also sees a problem in ascribing this pattern to the reflection of a blanket improvement in the status of women Katharine Haynes shows that the strong heroines are best understood not as an undistorted mirror on an improved social reality but as a type of constructed feminine The book offers a wealth of fascinating insights into the kaleidoscopic world of male and female in the Greek novel which will inform and illuminate the reader whatever the text being studied The related issues of ethnicity and self definition also explored will be of interest for all those working on ancient fiction or the culture of the Second Sophistic **Fiction and 'The Woman Question' from 1850 to 1930** W. R. Owens, Alexis Weedon, Nicola Darwood, 2020-07-02 This book is about how The Woman Question was represented in works of fiction published between 1850 and 1930 The essays here offer a wide ranging and original approach to the ways in which literature shaped perceptions of the roles and position of women in society Debates over The Woman Question encompassed not only the struggle for voting rights but gender equality more widely The book reaches beyond the usual canonical texts to focus on writers who have in the main attracted relatively little critical attention in recent years Stella Benson Kate Chopin Marie Corelli Dinah Mulock Craik Clemence Dane Arthur Conan Doyle George Gissing Ouida and William Hale White who wrote under the pseudonym Mark Rutherford These writers dealt imaginatively with issues such as marriage motherhood sexual desire adultery and suffrage and they represented female characters who in varying degrees and with mixed success sought to defy the social sexual and political constraints placed upon them The collection as a whole demonstrates how fiction could contribute in striking and memorable ways to debates over gender equality debates which continue to have relevance in the twenty first century **Medieval Indian Literature: Surveys and selections** Ayyappappanikkar, 1997 This Volume Has Two Parts Surveys Of All The Languages And Selections From Three Languages Assamese Bengali And Dogri *Subject*

Catalog Library of Congress, 1976 **The Telling of the Act** Peter Maxwell Cryle, 2001 This book tells how the diverting array of pleasures in eighteenth century libertine fiction gave way through a process of thematic drift and realignment to a powerfully linear story that actually defined sex and the gender roles pertaining to it Many of the key notions in modern talk about sex are in fact narrative ones climax foreplay and the sex act are all said to lie at the heart of human sexuality But *The Telling of the Act* questions whether these notions deserve to be thought of as timeless and in fact locates their emergence in the second half of the eighteenth century
