STRUCTURE AND CHOICE Chen Binggong,2021-04-05 This book employs the methods of philosophical anthropology to examine the question of what the noumenon of human life is which has been debated for thousands of years This work elaborates upon the noumenon of human life that is man s structure and choice The noumenon of human life differs essentially from the animals in bringing about the unity of structure and choice The noumenon of human life or rather man s structure and choice provides the motive force for the survival and development of individuals and groups families organizations and states as well as the basic ways in which human values can be possible of realization It is only through the instrumentality of man s structure and choice that humans can attain their goals and grasp the laws of development and change of things In passing criticism upon structuralism and existentialism the author tries to reconstruct the ontology of human life whereby his theory provides an ontological foundation for the humanities and social sciences a theoretical framework for an idealistic anthropological commitment to self transcendence a scientific philosophy of life for us and a good deal of enlightenment about many theoretical prerequisites **The Essence of Human Life** John A. thinking anew about the world and its meaning must necessarily mean thinking anew about all of our religious beliefs but this time in dialogue

Heidegger's Black Notebooks and the Future of Theology Mårten Björk, Jayne Svenungsson, 2017-12-14 This book probes the relationship between Martin Heidegger and theology in light of the discovery of his Black Notebooks which reveal that his privately held Antisemitism and anti Christian sentiments were profoundly intertwined with his philosophical ideas Heidegger himself was deeply influenced by both Catholic and Protestant theology This prompts the question as to what extent Christian anti Jewish motifs shaped Heidegger s own thinking in the first place A second question concerns modern theology s intellectual indebtedness to Heidegger In this volume an array of renowned Heidegger scholars both philosophers and theologians investigate Heidegger s animosity toward the biblical legacy in both its Jewish and Christian interpretations and what it means for the future task and identity of theology

Studies of the Paris Manuscripts Lixin Han, 2020-02-22 This book is devoted to the studies of Karl Marx s Paris Manuscripts and presents a new interpretation of early Marx arguing that his transition to maturity can be found in these manuscripts and specifically in Comments on James Mill which was drafted between the First Manuscript and the Second Manuscript In Comments on James Mill Marx succeeds in transferring his theoretical framework from the isolated individual to the society and establishes his basic goal i e to explicate the nature of humans and society from the perspective of external economic relations marking the advent of historical materialism This study reopens the possibility of interpreting the Paris Manuscripts from the perspective of Hegel According to the author it was during the Paris Manuscripts period that Marx shifted his theoretical foundations from Feuerbach to Hegel On the basis of Hegel s alienation concept Marx constructs a new form of alienation theory with alienation of intercourse at its core The theoretical challenge tackled by this book is to restore the authority of alienation theory and strengthen the position of the Paris Manuscripts in the history of Marx thought so as to rearrange the traditional landscape of research on early Marx thought This interpretation proposed and published for the first time in the world could compete with the theses of Louis Althusser and Hiromatsu Wataru which consider Die deutsche Ideologie to be the turning point of Marx Further it represents a significant contribution by a Chinese scholar to the international research on Marx

Introduction to a Phenomenology of Life Renaud Barbaras, 2022-01-04 In Introduction to a Phenomenology of Life renowned French philosopher Renaud Barbaras aims to construct the basis for a

phenomenology of life Called an introduction because it has to deal with philosophical limits and presuppositions it is much more as Barbaras investigates life in its phenomenological senses approached through the duality of its intransitive and transitive senses Originally published in French Introduction une ph nom nologie de la vie Introduction to a Phenomenology of Life first defines the problem of life phenomenologically then studies the failures of the phenomenological movement to adequately think about life and finally elaborates a new original and productive approach to the problem Combining original interpretations and expert readings of philosophers such as Heidegger Henry Bergson and Merleau Ponty Barbaras offers a powerful and important contribution to phenomenology and continental thought **The New Yearbook for**

Phenomenology and Phenomenological Philosophy Burt Hopkins,Steven Crowell,2015-03-24 The New Yearbook for Phenomenology and Phenomenological Philosophy provides an annual international forum for phenomenological research in the spirit of Husserl s groundbreaking work and the extension of this work by such figures as Scheler Heidegger Sartre Levinas Merleau Ponty and Gadamer *The Concept of the Individual in the Thought of Karl Marx* Zhi Li,2023-04-08 This book reconstructs the concept of the individual in Marx as the key to a fresh interpretation of Marxian philosophy Marx moved from an examination of the contingency and indeterminacy of individual consciousness in his early years to a critique of the atomistic individual and materialised social relations in his later years His thought proposes that real individuals are the basis for an understanding of human society that promotes the emancipation of humankind Marx s philosophy has often been misunderstood as lacking a concept of the individual In China this misunderstanding not only relates to cultural and linguistic particularities the word individual is seldom used in Chinese but also relates to a misleading view of socialism and communism This book helps remedy this misunderstanding and draws important comparisons and contrasts between Marx s concept of the individual with that of liberalism and between Western and Eastern Marxism On the Advantages and

Disadvantages of Ethics and Politics Charles E. Scott,1996-10-22 remarkable account of the impact of postmodern philosophy on the question of ethics and politics commendable also for its balanced view of Heidegger s relationship to politics and ethics an excellent account of Heidegger s philosophical understanding of technology Choice This book takes as its point of departure the question of ethics that values and their pursuit in the West often perpetuate their own worst enemies At issue are the dangers in the structures and movements of images values and ways of knowing that are most intimately a part of our lives **Mystics After Modernism** Rudolf Steiner,2000 The mystics Steiner writes about in this book were early giants in the modern art of illumined self knowledge Their ways of seeing the world God and themselves foreshadowed all that we practice now in the best of meditation both East and West Here you can read about their essential passion for unity their practice of intensification of perception and their ever fresh insights into the process of knowing itself Contents Foreword by Christopher Bamford Preface to the 1923 Edition Introduction Mystics Natural Science and the Modern World by Rudolf Steiner Meister Eckhart The Friendship with God Johannes Tauler Cardinal Nicolas of Cusa Agrippa of Nettesheim

Theophrastus Paracelsus Valentin Weigel Jacob Boehme Giordano Bruno Angelus Silesius Epilogue Afterword About the Author the People and the Background of This Book by Paul M Allen Preface to First Edition 1901 Steiner immerses us in the evolving stream of these eleven mystics who appeared in central Europe between the thirteenth and seventeenth centuries They managed to resolve the conflict between inner perceptions and the new seeds of modern science and human individuality Based on the lives of those mystics and on his own spiritual insight Steiner shows how their ideas can illuminate and preserve our true human nature today Rudolf Steiner ends his book with a quotation from the Cherubic Wanderer a collection of sayings gathered by Angelus Silesius Dear Friend this is enough for now If you wish to read more go and become the writing and the essence yourself A previous edition was titled *Mysticism at the dawn of the Modern Age* **The Art of Human Living** Michael H. Mitias, 2025-09-05 How should I live How should I love How should I die These three questions stream into human consciousness from the womb of a more urgent question What makes my life worth living or justifiable What if one stands at the last frontier of their life and casts a look at the way they lived it Can they leave the world with a feeling of inner peace and pride in the way they lived it The author of this book argues that a life worth living should originate from the depth of the human essence from the power that makes us human How This question demands an urgent answer because first human life is a thrust into the future which we cannot predict and second it is short Should we not care about the way we live since it is the most valuable possession we have in this world How many people regret the way they lived when they reach the end of their lives Should we not wonder why we exist and how we should live our lives An inquiry into his question is an inquiry into the foundation of a life worth living What are the building blocks of this foundation The author further argues that living this kind of life is an art He draws a parallel between artistic creation and self creation An authentic or fulfilled life is an art of human living In what sense is the human being a self created being Under what conditions can one learn this art
