Shaping Factors for the Business Environment in the Netherlands After 1992 Frans Bletz, Willem Dercksen, 1993

The Challenges of Incorporating the Visegrad Countries Into the European Union Judith A. Wiser, 1994 The fall of communism which swept through Eastern Europe in 1989 brought euphoric energy across the European continent as newspapers splashed moving pictures portraying laughter tears confusion and hope The economic and political landscape was significantly altered and yet it did not seem to matter for change was good Freedom was viewed as opportunity prosperity and finally a chance for peace to mean more than merely the absence of war Five years later the dust has settled the euphoria has waned and the smiles have been replaced by the ever so familiar weathered stone faces of hardship This peaceful revolution removed the daily threat of mutually assured destruction from the European Union's EU 1 door and yet as a community it has been done little to ensure the success of the infant democracies of Eastern Europe EE Recognizing the lack of the EU's initiative to come to their aid Poland Hungary Slovakia and the Czech Republic have each made it a major agenda item for themselves that they become full members of the EU as soon as possible

European Economic Integration as a Challenge to Industry and Government Richard Tilly, Paul J.J. Welfens, 2013-12-14 explicit presentation of some of those stylized facts in the form of a brief chronologically structured narrative In keeping with the broad scope of this volume we begin by going back at least two hundred years to the growth of an integrated national capital market in England in the 18th century see Neal Chapter This starting point has the advantage

of calling attention to a number of important points First the form of integration by which a central market London for a standardized good government bonds or consols came to serve as linkage between two or more hitherto separate regional markets represents a typical and important form of financial and economic integration In Kindleberger's terminology it is the integration via third parties form where say security prices in A and B converge $2 A C B$ instead of $A B$ In the 18th century English context this central market provided a widely available index of the opportunity costs of alternative investments the importance of which should not be underestimated for it contributed to national economic integration in England NEAL 1994 Second this example illustrates an important point of political economy The prerequisite for the development of the central market mentioned was the establishment of sound public finances based on the state's widely accepted power to tax

Germany, Europe and the Persistence of Nations

Stephen Wood, 2018-12-20 Published in 1998 this book is an articulate and densely documented account of political cultural and historical forces and tensions involved in contemporary European integration most especially concerning Germany In doing so it provides an effective fusion of a vast array of material from what are normally separate disciplines The book investigates contemporary resonances of identifications and conceptions of political boundaries that appeared in Europe in the late eighteenth and nineteenth century It argues that within a supranationalising Europe national identity and nationalism have not disappeared as cultural and political phenomena Rather they persist and manifest themselves in variable forms at popular and elite levels This is the basis for Europe's condition of far from completed unity at the centre of which is now a reunited Germany more sure of itself but less sure of the world around it
