The European Community And Eastern Europe Chatham House Papers:

The European Community and Eastern Europe John Pinder, 1991 *The European Union and its eastern neighbourhood* Mike Mannin, Paul Flenley, 2018-01-17 This volume is timely in that it explores key issues which are currently at the forefront of the EU's relations with its eastern neighbours. It considers the impact of a more assertive Russia, the significance of Turkey, the limitations of the Eastern Partnership with Belarus and Moldova, the position of a Ukraine in crisis and pulled between Russia and the EU, security and democracy in the South Caucasus. It looks at the contested nature of European identity in areas such as the Balkans. In addition, it looks at ways in which the EU's interests and values can be tested in sectors such as trade and migration. The interplay between values, identity and interests and their effect on the interpretation of Europeanisation between the EU and its neighbours is a core theme of the volume. *The Reuniting of Europe* José I. Torreblanca, 2017-09-20 This title was first published in 2001. In 1989, central and Eastern European countries broke free from the Soviet Union and looked upon the European Community to support their return to Europe. Some years later, leaders of the European Community meeting in Copenhagen in June 1993 endorsed for the first time the membership aspirations of the recently democratized countries of Central and Eastern Europe. This insightful text examines the negotiations, debates, tensions and contradictions behind the process of approximation between the two halves of Europe, both within the EC itself as well as between the EC and the countries of Central and Eastern Europe. The extensive consultation of unpublished internal documents and a theoretically relevant and well-written analysis ensures that this book is an indispensable resource for students and researchers of EC/EU relations with Central and Eastern Europe. *The European Union and Central and Eastern Europe* Susan Senior, Nello, Karen Elizabeth Smith, 1998 This text sets out to analyse the implications of the process of enlargement in the EU state and examines which criteria is likely to be used in deciding whether countries are ready to join. It also looks at the potential consequences of growth. **A History of Eastern Europe** Robert Bideleux, Ian Jeffries, 2006-04-10 *A History of Eastern Europe: Crisis and Change* is a wide-ranging single-volume history of the lands between the lands which have lain between Germany, Italy and the Tsarist and Soviet empires. Bideleux and Jeffries examine the problems that have bedevilled this troubled region during its imperial past, the interwar period, under fascism, under communism, and since 1989. While mainly focusing on the modern era and on the effects of ethnic nationalism, fascism and communism, the book also offers original, striking and revisionist coverage of ancient and medieval times, the Hussite Revolution, the Renaissance, the Reformation and the Counter Reformation, the legacies of Byzantium, the Ottoman Empire and the Hapsburg Empire, the rise and decline of the Polish-Lithuanian Commonwealth, the impact of the region's powerful Russian and Germanic neighbours, rival concepts of Central and Eastern Europe, the 1920s land reforms and the 1930s Depression. Providing a thematic historical survey and analysis of the formative processes of change which have played the paramount roles in shaping the development of the region, *A History of Eastern Europe* itself will play a

paramount role in the studies of European historians *Hungary on the Road to the European Union* László Andor, 2000-04-30 In November 1997 Hungarians voted in favor of membership in NATO primarily as a step toward membership in the European Union and integration into Western society Andor examines the changes in Hungarian social political and economic life after the collapse of communism in Central Europe He analyzes the difficulties both internal and external to making that transition In the early 1990s public discourse was dominated by the enthusiastic slogans proclaiming Hungary's return to Europe Things can only get better was the prevailing feeling surrounding the dismantling of the state socialist system and the construction of the new parliamentary democracy From the very early years of transition however Hungarians faced large scale and unexpected hardships in their changing lives which made them the most disappointed nation in Eastern Europe by 1993 In the second half of the 1990s the policies of the Socialist Liberal coalition and particularly the positive developments in the enlargement process of NATO and the EU restored the belief in a rapid and successful accession to the major Western economic and security organizations But as Andor indicates the beginnings of negotiations about entry into NATO and EU will be merely the starting point of difficulties arising in both economics and politics A thoughtful and cautious look at a changing Hungary that will be of interest to scholars researchers and policymakers involved with Central Europe and contemporary European politics and economics **Research Handbook on Minority Politics in the European Union** Tove H. Malloy, Balázs Vizi, 2022-11-25 This timely Research Handbook provides a multidisciplinary overview of research on ethno cultural minority issues at the supranational level of the EU It delivers a state of the art review of the EU's approaches to development and institutional implementation of minority policies from the Treaty of Rome until today *Enlargement of the European Union* Allan F. Tatham, 2009-01-26 The development of EU enlargement has raised many thorny issues unanticipated by the framers of the EC Treaty A significant upshot of these issues is that the concept of European identity defined in terms of such factors as culture history and economics has supplanted the long dominant theme of widening and deepening particularly since the Union's expansion has become primarily eastward The major contribution of this important book lies in its analysis of the conceptualization and perception of enlargement from various points of view focusing on the concerns of stakeholders and the identity conflicts and uncertainties incurred by enlargement initiatives In the course of its presentation it details the actual pre accession Europeanization process and its complex history Among the key elements discussed are the following the conflict between widening and deepening and the effect on EU institutional reform institutional requirements on candidate countries pre accession criteria and negotiations administrative capacity judicial capacity and legal approximation in accession states capacity of the EU to absorb new Member States and EC law as part of European identity Also covered are specific historical details of particular pre accession negotiations e.g. Greece Spain Portugal Malta and Cyprus the still inconclusive negotiations with Turkey and the Western Balkan states and political factors involved in the non accession of Norway Iceland and Switzerland Assembling powerful

evidence and applying incisive analysis the author's conclusion shows that absent further and major EU institutional reform it will be difficult for an enlarging Union to continue to deliver the goods. A watershed in the continuing great debate on the fulfilment of the EC Treaty's determination to foster and promote an ever closer union of the peoples of Europe this book will prove invaluable to anybody interested in the European integration project particularly lawyers academics officials and policymakers in the EU Member States

The European Community and the Developing Countries Enzo R. Grilli, 1993 The European Community has long been the largest trading bloc in the world. It is also on the way to becoming the world's largest integrated economic zone. Its trade aid and development cooperation policies are therefore of great importance to developing countries. At the same time the developing countries have continued to be of interest to the Community both as outlets for its exports and capital investments and as sources of raw materials. This 1993 book analyses and evaluates European Community trade aid and industrial policies towards developing countries their origin main features logic evolution and effectiveness in reaching the goals assigned to them. The author sums up the state of Europe's development policies by describing them as regional in scope colonial in geographical emphasis discriminatory in their effects and lacking in overall cogency. This incisive re-evaluation illustrates the different strategies the EC countries might pursue in their relations with the outside world as they progress towards fuller economic integration

The EU in International Negotiations Magdalena Frennhoff Larsén, 2023-02-24 This book which is aimed at scholars practitioners advanced undergraduate and postgraduate students seeks to contribute to the understanding of the EU as an international negotiator by analysing a number of external policy areas where the EU to a great extent engages internationally through negotiations including development trade enlargement and withdrawal

The European Union and its Eastern Neighbours Elena Korosteleva, 2012-05-15 This book explores the EU's relations with its eastern neighbours. Based on extensive original research including surveys focus groups a study of school essays and in depth interviews with key people in Belarus Ukraine Moldova Russia and in Brussels it assesses why the EU's initiatives have received limited legitimacy in the neighbourhood. The European Neighbourhood Policy of 2004 and the subsequent Eastern Partnership of 2009 heralded a new form of relations with the EU's neighbours partnership based on joint ownership and shared values which would complement if not entirely replace the EU's traditional governance framework used for enlargement. These initiatives have however received a mixed response from the EU's eastern neighbours. The book shows how the key elements

of partnership have been forged mainly by the EU rather than jointly and examines the idea and application of external governance and how this has been over prescriptive and confusing New Regionalism and the European Union Alex Warleigh-Lack, Nick Robinson, Ben Rosamond, 2011-06 This book explores regionalism in the European Union in comparative context with Latin American African Asian North American regionalism It also investigates the links between the EU and other regional organisations and assesses the implications for the study of contemporary regionalism both inside and beyond Europe

Turkey and the EU Harun Arian, 2017-03-02 The relationship between Turkey and the European Union is an important issue in European integration With the EU beginning accession talks with Turkey this is a vital moment for the future as the EU deals with a central question that has been on the agenda for over forty years Turkey's membership Since the first edition EU Turkey relations have clearly taken different directions There have been considerable developments in Greek Turkish relations the Cyprus issue the domestic politics of Turkey including human rights and the protection of minorities and the changing security environment post 9 11 Furthermore recent enlargement has been an important turning point for the EU This extended and revised edition addresses these major developments and assesses the implications of Turkish membership for the current EU structures The book is a timely addition to the existing literature for students and academics of European and Middle Eastern Studies Industrial Cooperation between East and West Friedrich Levciak, Jan Stankovsky, 2017-09-08 This title was first published in 1979 A number of valuable and interesting publications have appeared in the last few years on East West cooperation These studies which by means of interviews and direct contacts with the firms concerned have shed some light on a subject that in the past had remained little known also provided us with extremely valuable incentives Most of these studies dealt only with individual aspects of cooperation particularly the legal and microeconomic aspects The quantitative data used however did not easily lend themselves to comparison Eastern European studies more often contained the views of the respective governments than the experiences of enterprises involved in cooperative undertakings In this book the authors have attempted to provide a unified picture of the most important problems of East West cooperation The motivations and goals of those concerned in all their microeconomic macroeconomic commercial and political aspects are brought together with the pertinent legal and institutional factors and are analyzed

European Research Reloaded: Cooperation and Integration among Europeanized States Ronald Holzhaacker, Markus Haverland, 2006-09-01 The Three Waves of European Research European cooperation and integration has continued to progress forward over the past five decades with an ever deepening impact on the member states The first wave of research into these processes concerned European integration the process of institution building and policy developments at the European Union EU level The second wave on Europeanization used integration as an explanatory factor in understanding domestic political change and continuity related to the EU What is now necessary is to link our understanding of these bottom up and top down processes of integration and Europeanization in the EU This book argues

that a third wave of research on the EU is needed to adequately understand the increased interconnectedness between the European and national political levels We posit that this third wave should be sensitive to the temporal dimension of European integration and Europeanization In particular we seek to link the processes of European integration and Europeanization in a new way by asking the question how has Europeanization affected current modes of integration and cooperation in the EU Part I Europeanization of the Member States Preparing the ground for the third wave the first part of the book concerns Europeanization In order to fully understand the feedback of Europeanization on cooperation and integration it is important to analyze how European integration has had an impact on member states in the first place in particular indirectly beyond the direct mechanism of compliance with European policies **Whither Hungary and the European Communities?** Alfred Tovias, Sam Laird, 1991 Hungary stands to gain considerably from an improvement in its standing in the EC pyramid of privileges Membership in the EC could lead to an expansion of Hungarian exports to the Community of some 48 percent with the main gains in meats iron and steel fruit and vegetables textiles and clothing

Product Liability Law in Transition Dr Magdalena Tulibacka, 2013-02-28 This volume examines the evolution of Central European product liability systems with particular reference to the effect of the implementation of the Product Liability Directive in the context of the recent enlargement of the EU This book also provides a comparison of how product liability law has evolved in the socialist states comparing it to developments taking place in the West Using product liability law this study offers a valuable insight into the necessary features and requirements of the harmonization of laws between the EU and post socialist Europe Predominantly legal in scope it also takes account of the importance of extra legal elements in law reform As such this book will be a valuable resource for those interested in European Law as well as those working in the area of Consumer and Product Liability law **Enlarging the EU Eastward** Heather Grabbe, Kirsty Hughes, 1998-05-05 Successful eastward enlargement of the EU will be critical to ensuring stability and prosperity for post Cold War Europe But enlargement raises difficult issues for the EU and the applicant countries of central and eastern Europe Is the EU capable of reforming its institutions and policies to cope with 25 or more members Which central and east Europeans will join and when How can we ensure that enlargement brings the economic and security benefits expected of it This comprehensive study examines in detail the political economic and security implications of eastward enlargement for both East and West The authors present new analyses of the policy issues including the EU budget and pre accession strategy and of the economic integration likely before and after accession Based on an extensive series of interviews with key ministers diplomats policy makers academics and journalists across Europe this study also provides an informed overview of expectations and attitudes towards enlargement within the EU and in the applicant countries
