**The Exiles Trilogy** Ben Bova, 1980 **The Ruins of Ambrai** Melanie Rawn, 1995 Fantasy roman Exiles Melanie Rawn, 1995-11-01 The first in a trilogy full of action and romance politics subterfuge and magic as family secrets and intrigue threaten an entire nation. Locus A thousand years ago Mageborns fled prejudice and persecution to colonize the planet Lenfell, a pristine, untouched, a perfect refuge for those whose powers were perceived as a threat by people not gifted with magic. But the greater the magic the greater the peril and Lenfell was soon devastated by a war between rival Mageborn factions that polluted land, sea and air with Wild Magic and unleashed the hideous specters known as Wraithenbeasts. Generations after that terrible war with the land recovered from crippling wounds and the people no longer threatened by genetic damage, Mageborns still practice their craft but under strict constraints. Yet so long as the rivalry between the Mage Guardians and the Lords of Malerris continues, the threat of another war is ever present. And someone has been planning just such a war for many long years, the final strike in a generations old bid for total power.

Exiles Traveling , 2015-06-29 This volume presents for the first time a study of the interface between exile and travel within the context of exile from Nazi Germany. The nineteen essays share the overarching aim to compare the tropes of travel and exile as generators of a critical discourse and as central categories within German exile, in particular literature, music and film. The essays are guided by powerful questions: How does travel compare to exile and how much overlap is there between these two categories? How do exiles travel as practitioners of displacement? Or rather to what extent does the concept of travel apply to the exilic predicament? Do the terms exile and travel still have validity in our postmodern era of cosmopolitanism, ever increasing mobility, the embrace of otherness and tourism? How does exile literature, in which travel is thematized, compare to the traditions of travel writing? And how are the critical moments of leaving, taking root, remembering home and return imagined and narrated? The essays feature numerous German and Austrian authors, musicians and filmmakers and lend fresh insights into German Exile and the field of Exile Studies at large.

*The Exiles* Daria Santini, 2019-09-05 London 1934 Austrian actress Elisabeth Bergner dominated the British theatre scene, poet and director Berthold Viertel shot two successful films for Gaumont, British two great actors from the Weimar era, Conrad Veidt and Fritz Kortner became well known faces in English speaking cinema and the Hungarian journalist Stefan Lorant launched the first ever continental style illustrated magazine for the British newspaper market. Exploring a phase in the history of Anglo-German relations during which the migrants from Hitler's Germany were making their influence felt in Britain, Daria Santini traces their presence in London from around 1933 to 1935 when these characters made their presence truly felt, all while the

C. Crispin, 2009-09      **The Dialectics of Exile** Sophia A. McClennen, 2004 The history of exile literature is as old as the history of writing itself Despite this vast and varied literary tradition criticism of exile writing has tended to analyze these works according to a binary logic where exile either produces creative freedom or it traps the writer in restrictive nostalgia The Dialectics of Exile Nation Time Language and Space in Hispanic Literatures offers a theory of exile writing that accounts for the persistence of these dual impulses and for the ways that they often co exist within the same literary works Focusing on writers working in the latter part of the twentieth century who were exiled during a historical moment of increasing globalization transnational economics and the theoretical shifts of postmodernism Sophia A McClennen proposes that exile literature is best understood as a series of dialectic tensions about cultural identity Through comparative analysis of Juan Goytisolo Spain Ariel Dorfman Chile and Cristina Peri Rossi Uruguay this book explores how these writers represent exile identity Each chapter addresses dilemmas central to debates over cultural identity such as nationalism versus globalization time as historical or cyclical language as representationally accurate or disconnected from reality and social space as utopic or dystopic McClennen demonstrates how the complex writing of these three authors functions as an alternative discourse of cultural identity that not only challenges official versions imposed by authoritarian regimes but also tests the limits of much cultural criticism      **The Nine Realms** Sarah Kozloff, 2024-02-27 This ebundle of The Nine Realms includes A Queen in
