The Exodus Of Christianity:

Jews and Christians Michael Goldberg, 2001-10-05 This fascinating volume offers bold new insights into what it means to be a Christian or a Jew We are Christians or Jews Michael Goldberg maintains not principally because we embrace different creeds but because we have gained an understanding of the world from one of two distinct master stories for Jews the Exodus for Christians the life death and resurrection of Jesus The author demonstrates what each master story ultimately reveals about who God is what humanity is and how humanity should therefore act in God's world

The Encycloedia of Christianity, Vol. 5 Erwin Fahlbusch, Geoffrey William Bromiley, 1999 Written by leading scholars from around the world the articles in this volume range from sin Sufism and terrorism to theology in the 19th and 20th centuries Vatican I and II and the virgin birth

Atheism in Christianity Ernst Bloch, 2020-05-05 In the twenty first century religion has come under determined attack from secular progressives in documentaries opinion pieces and international bestsellers Combative atheists have denounced faiths of every stripe resulting in a crude intellectual polarization in which religious convictions and heritage must be rejected or accepted wholesale In the long unavailable Atheism in Christianity Ernst Bloch provides a way out from this either/or debate He examines the origins of Christianity in an attempt to find its social roots pursuing a detailed study of the Bible and its fascination for ordinary and unimportant people In the biblical promise of utopia and the scriptures antagonism to authority Bloch locates Christianity's appeal to the oppressed Through a lyrical yet close and nuanced analysis he explores the tensions within the Bible that promote atheism as a counter to the authoritarian metaphysical theism imposed by clerical exegesis At the Bible's heart he finds a heretical core and the concealed message that paradoxically a good Christian must necessarily be a good atheist This new edition includes an introduction by Peter Thompson the Director of the Centre for Ernst Bloch Studies at the University of Sheffield

Christianity in the Twentieth Century Brian Stanley, 2018-06-26 A history of unparalleled scope that charts the global transformation of Christianity during an age of profound political and cultural change Christianity in the Twentieth Century charts the transformation of one of the world's great religions during an age marked by world wars genocide nationalism decolonization and powerful ideological currents many of them hostile to Christianity Written by a leading scholar of world Christianity the book traces how Christianity evolved from a religion defined by the culture and politics of Europe to the expanding polycentric and multicultural faith it is today one whose growing popular support is strongest in sub-Saharan Africa Latin America China and other parts of Asia Brian Stanley sheds critical light on themes of central importance for understanding the global contours of modern Christianity illustrating each one with contrasting case studies usually taken from different parts of the world Unlike other books on world Christianity this one is not a regional survey or chronological narrative nor does it focus on theology or ecclesiastical institutions Rather Stanley provides a history of Christianity as a popular faith experienced and lived by its

adherents telling a compelling and multifaceted story of Christendom's fortunes in Europe North America and across the rest of the globe Transnational in scope and drawing on the latest scholarship Christianity in the Twentieth Century demonstrates how Christianity has had less to fear from the onslaughts of secularism than from the readiness of Christians themselves to accommodate their faith to ideologies that privilege racial identity or radical individualism Post-Christian Interreligious Liberation Theology Hussam S. Timani,Loye Sekihata Ashton,2019-11-29 This book explores the ideals of liberation theology from the perspectives of major religious traditions including Islam Christianity Judaism Buddhism and the neo Vedanta and Advaita Hindu traditions The goal of this volume is not to explain the Christian liberation theology tradition and then assess whether the non Christian liberation theologies meet the Christian standards Rather authors use comparative interreligious methodologies to offer new insights on liberation theology and begin a dialogue on how to build interreligious liberation theologies The goal is to make liberation theology more inclusive of religious diversity beyond traditional Christian categories

Phan,2020-01-13 We are living in the Age of Migration and migration has a profound impact on all aspects of society and on religious institutions While there is significant research on migration in the social sciences little study has been done to understand the impact of migration on Christianity This book investigates this important topic and the ramifications for Christian theology and ethics It begins with anthropological and sociological perspectives on the mutual impact between migration and Christianity followed by a re reading of certain events in the Hebrew Scripture the New Testament and Church history to highlight the central role of migration in the formation of Israel and Christianity Then follow attempts to reinterpret in the light of migration the basic Christian beliefs regarding God Christ and church The next part studies how migration raises new issues for Christian ethics such as human dignity and human rights state rights social justice and solidarity and ecological justice The last part explores what is known as Practical Theology by examining the implications of migration for issues such as liturgy and worship spirituality architecture and education The Oxford Handbook of Early Christian Biblical Interpretation Paul M. Blowers,Peter W Martens,2019-05-21 The Bible was the essence

of virtually every aspect of the life of the early churches The Oxford Handbook of Early Christian Biblical Interpretation explores a wide array of themes related to the reception canonization interpretation uses and legacies of the Bible in early Christianity Each section contains overviews and cutting edge scholarship that expands understanding of the field Part One examines the material text transmitted translated and invested with authority and the very conceptualization of sacred Scripture as God's word for the church Part Two looks at the culture and disciplines or science of interpretation in representative exegetical traditions Part Three addresses the diverse literary and non literary modes of interpretation while Part Four canvasses the communal background and foreground of early Christian interpretation where the Bible was paramount in shaping normative Christian identity Part Five assesses the determinative role of the Bible in major developments and theological controversies in the life of the churches Part Six returns to interpretation proper and samples how certain abiding motifs from within scriptural revelation were treated by major Christian expositors The overall history of biblical interpretation has itself now become the subject of a growing scholarship and the final part skilfully examines how early Christian exegesis was retrieved and critically evaluated in later periods of church history Taken together the chapters provide nuanced paths of introduction for students and scholars from a wide spectrum of academic fields including classics biblical studies the general history of interpretation the social and cultural history of late ancient and early medieval Christianity historical theology and systematic and contextual theology Readers will be oriented to the major resources for and issues in the critical study of early Christian biblical interpretation

The Thinking Christian Gene Wesley Marshall, 2020-04-13 The practice of Christianity is going through a transition that is deeper than the Reformation The Thinking Christian explores two main questions 1 What is religion as a general social process that can link humans to Profound Reality and 2 what is a meaningful and appropriate mode of Christian theologizing communal life and mission to this planet for a viable and vital next Christian practice These are profound probes and they are communal and activist guidelines for general readers Such union of the profound and the practical pertains to the needs of scholars as well
