The New Republic Herbert David Croly,1925      *Political Hypocrisy* David Runciman,2010-08 A critical assesement of the problems of sincerity and truth in politics argues that we should accept hypocrisy as a fact of politics without resigning ourselves to it or embracing it drawing on the lessons of such thinkers as Hobbes Mandeville Jefferson Bentham Sigwick and Orwell      **Syllabus Series** University of California (System),1927      Bernard de Mandeville's Tropology of Paradoxes Edmundo Balsemão Pires,Joaquim Braga,2015-10-05 This book integrates studies on the thought of Bernard de Mandeville and other philosophers and historians of Modern Thought The chapters reflect a rethinking of Mandeville s legacy and together present a comprehensive approach to Mandeville s work The book is published on the occasion of the 300 years that have passed since the publication of the Fable of the Bees Bernard de Mandeville disassembled the dichotomies of traditional moral thinking to show that the outcomes of the social action emerge as new non intentional effects from the combination of moral opposites vice and virtue in such a form that they lose their moral significance The work of this great writer philosopher and physician is interwoven with an awareness of the paradoxical nature of modern society and the challenges that this recognition brings to an adequate perspective on the historical world of modernity      **Inventing the Market** Lisa Herzog,2013-04-25 Inventing the Market Smith Hegel and Political Theory analyses the constructions of the market in the thought of Adam Smith and Georg Wilhelm Friedrich Hegel and discusses their relevance for contemporary political philosophy Combining the history of ideas with systematic analysis it contrasts Smith s view of the market as a benevolently designed contrivance of nature with Hegel s view of the market as a relic of the state of nature The differences in their views of the market are then connected to four central themes of political philosophy identity justice freedom and history The conceptualization of the labour market as an exchange of human capital or as a locus for the development of a professional identity has an impact on how one conceptualizes the relation between individual and community Comparing Smith s and Hegel s views of the market also helps to understand how social justice can be realized through or against markets and under what conditions it makes sense to apply a notion of desert to labour market outcomes For both authors markets are not only spaces of negative liberty but are connected to other aspects of liberty such as individual autonomy and political self government in subtle and complex ways Seeing Smith s and Hegel s account of the market as historical accounts however reminds us that markets are no a historical phenomena but depend on cultural and social preconditions and on the theories that are used to describe them The book as a whole argues for becoming more conscious of the pictures of the market that have shaped our understanding which can open up the possibility of alternative pictures and alternative realities      **Moral Realities** Mark Platts,2005-10-05 First published in 1991 Routledge is an imprint of Taylor Francis an informa company      The Trend of Economic Thinking F.A.
