administration of criminal justice ranging from innocent people on death row in the United States to misuse of statistics leading to wrongful convictions in The Netherlands and elsewhere inquiries into the logic of evidence and proof have taken on a new urgency both in an academic and practical sense This study presents a broad perspective on logic by focusing on inference not just in isolation but as embedded in contexts of procedure and investigation With special attention being paid to recent developments in Artificial Intelligence and the Law specifically related to evidentiary reasoning this book provides clarification of problems of logic and argumentation in relation to evidence and proof As the vast majority of legal conflicts relate to contested facts rather than contested law this volume concerning facts as prime determinants of legal decisions presents an important contribution to the field for both scholars and practitioners *Experiments in Mystical Atheism* Brook Ziporyn, 2024-10-30 A new approach to the theism scientism divide rooted in a deeper form of atheism Western philosophy is stuck in an irresolvable conflict between two approaches to the spiritual malaise of our times either we need more God the turn to religion or less religion the New Atheism In this book Brook Ziporyn proposes an alternative that avoids both totalizing theomania and atomizing reductionism What we need he argues is a deeper more thoroughgoing even religious rejection of God an affirmative atheism without either a creator to provide meaning or finite creatures in need of it a mystical atheism In the legacies of Daoism and Buddhism as well as Spinoza Nietzsche and Bataille Ziporyn discovers a critique of theism that develops into a new positive sensibility at once deeply atheist and richly religious *Experiments in Mystical Atheism* argues that these godless epiphanies hold the key to renewing philosophy today **Facts, Words and Beliefs** Timothy L.S. Sprigge, 2022-04-29 First published in 1970 *Facts Words and Beliefs* is concerned primarily with formulating the following question and suggesting the right way of answering it how can a few stray images or muttered words running through our mind constitute our envisagement of situation perhaps remote in time and place from our present position From a practical point of view the moments when we envisage the nature of some situation which we believe to exist may not be of any great importance It would seem that our belief in the existence of such situations lies in some sort of adjustment of our behaviour to them which will be useful if the situations really exist from the point of view of survival and comfort The author suggests that these moments of conscious envisagement of such absent situations may be rather a sign of such successful adjustment than a factor in bringing it about hence of no practical value in themselves However if knowledge has any sort of intrinsic value it must surely lie in those moments when one does consciously envisage some aspects of the world more or less as it really is and to try to understand the nature of these moments is to try to understand all that is of intrinsic value in knowledge This book is a must read for scholars and researchers of philosophy **American English in Mind Level 3 Teacher's Edition** Brian Hart, Mario Rinvoluceri, Herbert Puchta, 2011-09-19 *American English in Mind* is an integrated four skills course for beginner to advanced teenage learners of American English The *American English in Mind Level 3 Teacher's Edition* provides an overview of course pedagogy teaching tips from Mario Rinvoluceri interleaved step by step lesson plans
