The Falklandsmalvinas Conflict A Spur To Arms Buildups:

The Falklands/Malvinas Conflict Jozef Goldblat, Víctor Millán, 1983 *Falklands/malvinas Conflict-a Spur to Arms Build -ups* Jozef Goldblat, 1983 The Falklands War Daniel K. Gibran, 2015-08-01 The Falklands War is an ideal showcase for how British policy evolved in the 1970s and 1980s The background of the dispute over the island group in the remote South Atlantic called Las Malvinas by the Argentines is given first then the events that precipitated the 1982 conflict and extensive examination of the military aspects of the war are provided An overview follows of the many hypotheses offered for the British motivation to recapture the Falklands showing that only those theories pertaining to the British perception of their national honor and the defense of democratic principles are significant The Falklands War did not result in a dramatic shift in British defense policy but did show the importance of external developments and political realism in policy formation and these considerations are fully detailed here **The Falklands, Politics and War** G.M. Dillon, 1989-01-27 A comprehensive analysis of the relationship between political judgement bureaucratic advice and military intelligence in the mismanagement of Britain s Falklands policy The author argues that the Junta s responsibility for the invasion does not exonerate British decision makers *Arms and Warfare* Michael Brzoska, Frederic S. Pearson, 1994 Arms and Warfare considers the impact of arms shipments on a conflict once it has begun Using case studies the authors pinpoint the timing of arms transfers and then assess the influence of these deliveries The Dynamics of Deterrence Frank C. Zagare, 1987 The value of a theory of deterrence lies in its ability to reconstruct and predict strategic behavior accurately and consistently Contemporary scholarship on deterrence has drawn upon decision models and classical game theory with some success to explain how deterrence works But the field is marked by unconnected and sometimes contradictory hypotheses that may explain one type of situation while being inapplicable to another The Dynamics of Deterrence is the first comprehensive treatment of deterrence theory since the mid 1960s Frank C Zagare introduces a new theoretical framework for deterrence that is rigorous consistent and illuminating By placing the deterrence relationship in a theory of moves framework Zagare is able to remedy the defects of other models His approach is illustrated by and applied to a number of complex deterrence situations the Berlin crisis of 1948 the Middle East crises of 1967 and 1973 and The Falkland Malvinas crisis of 1980 He also examines the strategic relationship between the United States and the Soviet Union from 1945 to the present Zagare studies the dynamics of both mutual and unilateral deterrence games in nuclear and non nuclear situations and the impact of credibility capability and power asymmetries on deterrence stability He shows that his theory is applicable for analyzing deterrence situations between allies as well as between hostile states One of the additional strengths of his model however is its general usefulness for other levels and settings such as deterrence games played by husband and wife parent and child employer and employee and the state and its citizens With its lucid prose and illustrative examples The Dynamics of Deterrence will be of interest to a wide audience in international relations peace studies and political science British

Foreign Policy, National Identity, and Neoclassical Realism Amelia Hadfield-Amkhan, 2010-10-16 This groundbreaking study offers a genuinely multidisciplinary exploration of cultural influences on foreign policy Through an innovative blend of historical analysis neoclassical realist theory and cultural studies Amelia Hadfield Amkhan shows how national identity has been a catalyst for British foreign policy decisions helping the state to both define and defend itself Representing key points of crisis from the past two centuries her case studies include the 1882 attempt to construct a channel tunnel to France the frantic 1909 Dreadnought race with Germany the 1982 Falklands War with Argentina and the 2003 decision to remain outside the Eurozone The author argues that these events marking the decline of a great power have forced Britain's society and government into periods of deep self reflection that are carved into its culture and etched into its policy stances on central issues of sovereignty territorial integrity international recognition and even monetary policy
