worship pilgrimage and governance A major theme of the book is that of replication pointing to the ways in which cathedrals echo each other materially and ritually in processes of mutual borrowing and competition while a cathedral can also provide a reference point for smaller constituencies of religious practice such as a diocese or parish As this volume demonstrates the contemporary resurgence of interest in pilgrimage the impact of Caminoisation and the re presentation of cathedrals as cultural heritage further add to the attractions popularity and complexities of cathedrals in the 21st century The chapters in this book were originally published as a special issue of the journal Religion
