The Measure Of Amenability To Planetary Vibrations:

The Measure of Amenability to Planetary Vibrations Max Heindel, Augusta Foss Heindel, 2005-12-01 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work **The Message of the Stars** Max Heindel, Augusta Foss Heindel, 1922 *Rosicrucian Fellowship Magazine* , 1916 **The Message Of Stars** Max Heindel, 2020-12-06 It is a matter of common knowledge among mystics that the evolutionary career of mankind is indissolubly bound up with the divine hierarchies who rule the planets and the signs of the Zodiac and that the passage of the Sun and the planets through the twelve signs of the Zodiac marks man s progress in time and in space Therefore it is not to be wondered at that in the course of their investigations into the spiritual development of mankind the writers have also encountered much that deals with the Zodiac which is the boundary of our evolutionary sphere at the present time So much has been perceived in the memory of nature that sheds light upon obscure passages of the Bible that notes have been made from time to time of different points but how to collect and collate these dissociated writings into a united whole has been a great problem for a long time Even now the writers know and feel that what they are bringing forth is only a very very weak attempt to set before the students that great body of facts which have come to them through the memory of nature They feel however that this will give a 3 4 THE MESSAGE OF THE STARS new and more profound meaning to the old symbols and that by passing on what has been found they put themselves in line to receive more light Concerning the future evolution of planets The Rosicrucian Cosmo Conception teaches on page 256 that when the beings upon the planet have evolved to a sufficient degree the planet becomes a Sun the fixed center of the Solar System When the beings there have evolved to a still greater degree and consequently it has reached its maximum of brilliancy it breaks up into a Zodiac and becomes so to speak the womb of a new Solar System Thus the Great hosts of Divine beings who until then were confined upon that Sun gain freedom of action upon a great number of stars whence they can affect in different ways the system which grows up within their sphere of influence The planets or man bearing worlds within the Zodiac are constantly being worked upon by these forces but in various ways according to the stage they have reached in evolution Our Sun could not have become a sun until it set out from itself all the beings who were not sufficiently evolved to endure the high rate of vibration and the great luminosity of the beings who were qualified for that evolution All the beings upon the different planets would have been consumed had they remained in the Sun This visible Sun however though it is a place of evolution for beings vastly above man is not by any means the Father of the other planets as EVOLUTION AS SHOWN IN THE ZODIAC 5 material science supposes On the contrary it is itself an emanation from the central Sun which is the invisible source of all that IS in our solar system The Church Invisible , 1926 **The Rosicrucian Philosophy in**
