Sistemas Electorales Y Partidos Politicos:

Sistema electoral y partidos políticos José Manuel Bustos Cascante, 2007 **Sistemas electorales y partidos políticos** Dieter Nohlen, 1998 Basándose en las elecciones de los Estados liberales pluralistas el autor analiza en principio el papel que juega en los diferentes modelos de democracia la capacidad de elegir por voto directo a los gobernantes En este sentido se aporta una perspectiva de estudio del derecho electoral y su desarrollo bajo sistemas políticos de diferente signo

Sistema electoral y gobernabilidad en Uruguay Juan Francisco Faig Garicoïts, 1996 Sistema electoral y partidos políticos , 2003 Sistemas electorales en España: caracterización, efectos, rendimientos y propuestas de reforma , 2020-07-31 El libro que el lector tiene en sus manos agrega los análisis de los aspectos más importantes de la composición funcionamiento y posibilidades de reforma de los sistemas electorales utilizados en España en las elecciones del Congreso de los Diputados y el Senado los Parlamentos autonómicos las corporaciones locales alcaldes y concejales y diputados del Parlamento Europeo Se analizan sus elementos funcionamiento y rendimiento en las últimas cuatro décadas desde que la democracia fue reinstaurada en 1977 Los autores son los especialistas más reputados en el panorama académico español en cada uno de los temas tratados Ello convierte a esta obra en la referencia obligada para los interesados en la configuración funcionamiento y posibilidades de reforma de los sistemas electorales en España periódicamente utilizados para transformar los votos de los ciudadanos en una particular distribución de los escaños de las instituciones representativas en una España multinivel El balance positivo que los autores realizan del rendimiento de este elemento del sistema político en las últimas cuatro décadas no oculta disfuncionalidades y vías para reformarlo en aras de mejorar la calidad de la democracia española y su legitimidad entre la ciudadanía El interés de la obra no solo se debe a las aportaciones sustantivas que se realizan en los distintos capítulos sino también a la metodología y técnicas de análisis utilizadas para su tratamiento conformando un ejemplo de rigor y calidad científica de análisis político **Sistema electoral y sistema de partidos en Sinaloa** Ernesto Hernández Norzagaray, 2002 **Gramática de los sistemas electorales** Dieter Nohlen, 2015-04-02 Convertir votos en escaños o en cargos de gobierno es la tarea fundamental de todo sistema democrático en el que la participación sea clave constitutiva del mismo Se trata de una labor compleja que constituye el corazón del sistema electoral del que con frecuencia nadie se acuerda hasta que se encienden las luces rojas de la vida política Si es evidente como hoy más que nunca lo ponen de manifiesto los millones de ciudadanos que integran el grupo de indignados desafectos o simplemente escépticos que la democracia es algo más que un mero procedimiento electoral no es menos cierto que lo electoral se alza como el elemento iniciador de cualquier proceso democrático Manuel Alcántara La presente obra introduce el estudio de los sistemas electorales y de las respectivas opciones para su reforma y rediseño Para ello abarca en base a extensas consideraciones teóricas y experiencias históricas toda la gama de cuestiones vinculadas con la ingeniería política de la representación En el último capítulo se analizan dos tipos de sistema electoral el alemán y el español con el fin de explicar la singularidad del primero y de

Derecho electoral latinoamericano Nohlen, Dieter, Valdés, Leonardo, Zovatto, Daniel, 2023-06-05 La obra presenta un análisis comparativo del derecho electoral en Latinoamérica Se explican sus fundamentos y más adelante se revisan casos de cada país de la región en los que se propone al derecho electoral como fuente de consolidación de la democracia Cada capítulo aborda temas distintos como la tica del proceso electoral los tipos de voto la reelección la representación política y la participación ciudadana las campañas y los resultados y evaluaciones de una elección Se proponen resoluciones prácticas para generar un ambiente democrático más efectivo en Latinoamérica Los partidos políticos y su responsabilidad colectiva en actos ilícitos de los gobernantes Marco Antonio González Mora, 2024-10-28 Qué papel le toca desempeñar a un partido político cuando uno de sus miembros delinque como servidor público Este libro argumenta la necesidad de que los institutos políticos se responsabilicen de los actos ilícitos en que puedan incurrir personas en un cargo de elección popular cuando ellas hayan sido postuladas bajo el auspicio de su emblema Además con sólidas bases jurídicas el autor traza una ruta para procesar legalmente a los partidos en cuestión y abonar así al fortalecimiento del sistema democrático mexicano *El sistema electoral de la Región de Murcia: regulación, balance (1983-2015) y perspectivas*. Javier Sierra Rodríguez, 2017-04-27 El triple objetivo

de este libro es analizar el margen del legislador autonómico para la configuración de su sistema electoral realizar un balance del sistema vigente en la Región de Murcia entre 1983 y 2015 así como examinar el proceso de reforma que adoptó la circunscripción única y rebajó el umbral electoral al 3% La modificación llevada a cabo en 2015 cerró una etapa marcada por la demanda de una mayor proporcionalidad y facilidad de acceso a la representación parlamentaria ante una configuración que combinaba cinco circunscripciones infraprovinciales algunas de ellas de baja magnitud electoral y una barrera electoral autonómica del 5% El análisis en profundidad del marco jurídico permite afirmar que el legislador autonómico tenía un amplio margen de libertad que le hubiese permitido ir más allá de una reforma de mínimos siendo viables otras modificaciones como el desbloqueo de listas o la introducción de elementos mayoritarios como el sistema de doble urna siempre que cumpliera con el requisito de poseer una tendencia proporcional El nuevo sistema elimina las primas a los partidos más votados y hace más permeable a la Asamblea Regional de Murcia facilitando la entrada parlamentaria de fuerzas políticas no representadas hasta el momento lo que puede tener importantes consecuencias en el sistema de partidos de la Región de Murcia como el aumento del número efectivo de partidos y de la fragmentación parlamentaria La edición de este libro ha contado con la colaboración de la Facultad de Derecho de la Universidad de Murcia Javier Sierra Rodríguez es Doctor en Derecho Público y Licenciado en Ciencias Políticas y de la Administración Es politólogo en ejercicio y profesor asociado de la Facultad de Derecho de la Universidad de Murcia Ha participado en proyectos de investigación sobre el régimen jurídico de la jornada electoral y sobre el comportamiento electoral contando con múltiples contribuciones en congresos y publicaciones científicas Entre 2009 y 2015 fue el Decano del Colegio de Ciencias Políticas y Sociología de la Región de Murcia Política Y Partidos Políticos , *Building Democratic Institutions* ,1995 Third the authors investigate the relationship between major parties and the state revealing the extent to which parties are dependent on state resources to maintain power and win votes Fourth the contributions assess the importance of different electoral regimes for shaping broader patterns of party competition Finally and most important the authors characterize the nature of the party system in each country how institutionalized it is and how it can be classified BOOK JACKET
