Mann Wall,2005 In Unlikely Entrepreneurs Barbra Mann Wall looks at the development of religious hospitals in the late
nineteenth and early twentieth centuries and the entrepreneurial influence Catholic sisters held in this process When
immigrant nuns came to the United States in the late nineteenth century they encountered a market economy that structured
the way they developed their hospitals Sisters enthusiastically engaged in the market as entrepreneurs but they used a set of
tools and understanding that were counter to the market Their entrepreneurship was not to expand earnings but rather to
advance Catholic spirituality Wall places the development of Catholic hospital systems located in Illinois Indiana Minnesota
Texas and Utah owned and operated by Catholic sisters within the larger social economic and medical history of the time In
the modern health care climate with the influences of corporations federal laws spiraling costs managed care and medical
practices that rely less on human judgments and more on technological innovations the modern hospital reflects a dim
memory of the past This book will inform future debates on who will provide health care as the sisters depart how costs will
be met who will receive care and who will be denied access to health services *The Official Catholic Directory and Clergy
List*,1906 *Maternal Death and Pregnancy-Related Morbidity Among Indigenous Women of Mexico and Central America*

an interdisciplinary approach to analyze the multiple barriers for access and care to indigenous women that had been
complicated by longstanding gender inequities poverty stigmatization lack of education war obstetrical violence and
differences in language and customs all of which contribute to unnecessary maternal morbidity and mortality Emphasis is
placed on indigenous cultures and folkways from traditional midwives and birth attendants to indigenous botanical
medication and traditional healing and spiritual practices and how they may effectively coexist with modern biomedical care
Throughout these chapters the main theme is clear the rights of indigenous women to culturally respective reproductive
health care and a successful pregnancy leading to the birth of healthy children A sampling of the topics Motherhood and
modernization in a Yucatec village Maternal morbidity and mortality in Honduran Miskito communities Solitary birth and
maternal mortality among the Rarámuri of Northern Mexico Maternal morbidity and mortality in the rural Trifino region of
