Six Existentialist Thinkers Harold John Blackham, 1952 Søren Kierkegaard Friedrich Nietzsche Karl Jaspers Gabriel Marcel Martin Heidegger Jean Paul Sartre **Six Existentialist Thinkers** Harold John Blackham, 2012-11-12 Includes summary but substantial accounts of the thought of Kierkegaard Nietzsche Jaspers Marcel Heidegger and Sartre and a concluding essay that attempts to interpret the whole Existentialist movement *Six Existentialist Thinkers. (Søren Kierkegaard. - Friedrich Nietzsche. - Karl Jaspers. - Gabriel Marcel. - Martin Heidegger. - Jean-Paul Sartre.).* Harold John Blackham, 1951 **Six Existentialist Thinkers** Harold John Blackham, 1961 **Six Existentialist Thinkers, by H. J. Blackham** H. J. Blackham, 1956 *Six Existentialist Thinkers. (With an Enlarged Bibliography.).* Harold John BLACKHAM, 1961 *Existential Theology* Hue Woodson, 2020-09-29 *Existential Theology* An Introduction offers a formalized and comprehensive examination of the field of existential theology in order to distinguish it as a unique field of study and view it as a measured synthesis of the concerns of Christian existentialism Christian humanism and Christian philosophy with the preoccupations of proper existentialism and a series of unfolding themes from Augustine to Kierkegaard To do this *Existential Theology* attends to the field through the exploration of genres the European traditions in French Russian and German schools of thought counter traditions in liberation feminist and womanist approaches and postmodern traditions located in anthropological political and ethical approaches While the cultural contexts inform how each of the selected philosopher theologians present genres of existential theology other unique genres are examined in theoretical and philosophical contexts particularly through a selected set of theologians philosophers thinkers and theorists that are not generally categorized theologically By assessing existential theology through how it manifests itself in genres this book brings together lesser known figures well known thinkers and figures that are not generally viewed as existential theologians to form a focused understanding of the question of the meaning of existential theology and what existential theology looks like in its varying forms *The Two Horizons* Anthony C. Thiselton, 1980 **Muriel Spark, Existentialism and The Art of Death** Cairns Craig, 2019-02-20 Proposes that Christian existentialism and in particular the work of Søren Kierkegaard helped shape Spark's religious commitments and her artistic innovations Because of the prominence after the Second World War of the atheistic existentialism of Jean Paul Sartre it is often forgotten that existentialism was originally a Christian philosophy shaped by followers of Kierkegaard such as Karl Jaspers and Gabriel Marcel The author traces in Spark's writings both the influence of Kierkegaard and of Spark's resistance to Sartre's co-option of existentialism to an atheistic agenda Kierkegaard's analysis of the nature of the aesthetic as a false mode of existence that has to be transcended by the ethical and then by the religious provides a fundamental structure for Spark's satirical analyses of the failings of the modern world *The Bloomsbury Companion to Existentialism* Felicity Joseph, Jack Reynolds, Ashley Woodward, 2014-09-25 The Bloomsbury Companion to Existentialism is the definitive guide to this key area of modern European philosophy Now

available in paperback the book covers the fundamental questions asked by existentialism providing valuable guidance for students and researchers to some of the many important and enduring contributions of existentialist thinkers Chapters from an international team of experts explore existentialism's relationship to philosophical method ontology politics psychoanalysis ethics religion literature emotion feminism and sexuality emotions authenticity and the self its significance in Latin American culture and its contribution to the development of post structuralism and cognitive science In addition five short chapters summarize the status of canonical figures Kierkegaard Nietzsche Heidegger Sartre and de Beauvoir delineating the historical approach to their work while pointing to new directions contemporary research is now taking Featuring a series of indispensable research tools such as an A to Z glossary a timeline of key events texts and thinkers in existentialism a list of resources and an annotated guide to further reading this Companion is an essential resource to help the new reader navigate through the heart of Existentialism and modern European philosophy

Heidegger Thomas Sheehan, 2017-07-12

Many people consider Martin Heidegger the most important German philosopher of the twentieth century He is indisputably controversial and influential Although much has been written about Heidegger this may be the best single volume covering his life career and thought For all its breadth and complexity Heidegger's perspective is quite simple he is concerned with the meaning of Being as disclosure Heidegger's life was almost as simple He was a German professor except for a brief but significant period in which he supported the Nazi regime While that departure from philosophy continues to haunt his name and work one must question whether his thought from 1912 to 1976 should be measured by the yardstick of his politics from May 1933 through February 1934 This anthology addresses his complex but simple thought and his simple but complex life In a real sense Sheehan claims there is no content to Heidegger's topic and legacy only a method But method must not be taken to mean a technique or procedure for philosophical thinking Rather the topic of Heidegger's thought and his pursuit of that topic the what and the how are one and the same thing Heidegger writes Alles ist Weg Everything is way and man's Being is to be on the way in essential movement Heidegger argues in our essence we humans are the topic and the point is not to be led there so much as to come to know what we already know and to become what we already are This brilliant collection confirms this truism and is an excellent introduction to the work of this seminal thinker

Time in the Philosophy of Gabriel Marcel Helen Tattam, 2013 Gabriel Marcel 1889-1973 stands outside the traditional canon of twentieth century French philosophers Where he is not simply forgotten or overlooked he is dismissed as a relentlessly unsystematic thinker or following Jean Paul Sartre s lead labelled a Christian existentialist a label that avoids consideration of Marcel s work on its own terms How is one to appreciate Marcel s contribution especially when his oeuvre appears to be at odds with philosophical convention Helen Tattam proposes a range of readings as opposed to one single interpretation a series of departures or explorations that bring his work into contact with critical partners such as Henri Bergson Paul Ricoeur and Emmanuel Levinas and offer insights into a host of twentieth century philosophical shifts concerning time the subject the other ethics and religion Helen Tattam s ambitious study is an impressively lucid account of Marcel s engagement with the problem of time and lived experience and is her first monograph since the award of her doctorate from the University of Nottingham

Kierkegaard's International Reception Jon Stewart, Jon Bartley Stewart, 2009 Although Kierkegaard's reception was initially more or less limited to Scandinavia it has for a long time now been a highly international affair As his writings were translated into different languages his reputation spread and he became read more and more by people increasingly distant from his native Denmark While in Scandinavia the attack on the Church in the last years of his life became something of a cause célèbre later many different aspects of his work became the object of serious scholarly investigation well beyond the original northern borders As his reputation grew he was co-opted by

a number of different philosophical and religious movements in different contexts throughout the world The three tomes of this volume attempt to record the history of this reception according to national and linguistic categories Tome II covers the reception of Kierkegaard in Southern Central and Eastern Europe The first set of articles under the rubric Southern Europe covers Portugal Spain and Italy A number of common features were shared in these countries reception of Kierkegaard including a Catholic cultural context and a debt to the French reception The next rubric covers the rather heterogeneous group of countries designated here as Central Europe Hungary the Czech Republic Slovakia and Poland These countries are loosely bound in a cultural sense by their former affiliation with the Habsburg Empire and in a religious sense by their shared Catholicism Finally the Orthodox countries of Eastern Europe are represented with articles on Russia Bulgaria Serbia and Montenegro Macedonia and Romania
