Crimes against History Antoon De Baets, 2018-12-13 Crimes against History takes a global approach to the extreme forms of censorship to which history and historians have been subjected through the ages The book opens by considering the varieties of censorship from suppression dismissal and defamation to persecution and murder Part I Kill switch tells the tragic story of how the censorship of history has sometimes turned into deadly crimes against history with chapters looking at topics such as historians and archivists being killed for political reasons attacks by political leaders on historians iconoclastic breaks with the past and fake news Part II Fragile freedom reverses the perspective and examines how the censorship of history has backfired Chapters consider the subversive power of historical analogies and resistance to the censorship of history The book also contains a Provisional memorial for history producers killed for political reasons from ancient times until 2017 It is a double tribute to the history producers who were killed and to those who mustered the courage to resist the blows of censorship

History, 1928 *The Arnoldian*, 1986 Religion and the Rise of History Leonard S. Smith, 2009-04-01 As a historical inquiry and synthesis this intellectual history is the first study to apply the ideal type or model building

methodology of Otto Hintze 1861 1940 to Western historical thought or to what R G Collingwood called The Idea of History for it contains succinct and useful models for seeing and teaching classical Christian and modern professional historiography Religion and the Rise of History is also the first work to suggest that in addition to his well known paradoxical simul and or at the same time way of thinking and viewing life Martin Luther also held to a way that was deeply incarnational dynamic and or in with and under This dual vision and a Lutheran ethos strongly influenced Leibniz Hamann and Herder and was therefore a matter of considerable significance for the rise of a distinctly modern form of historical consciousness commonly called historicism in Protestant Germany Smith s essay suggests a new time period for the formative age of modern German thought culture and education The Cultural Revolution in Germany This age began in the early 1760s and culminated in 1810 with the founding of the University of Berlin the first fully modern and modernizing university This university first became the recognized center for the study of history however through the work of Leopold von Ranke 1795 1886 Here the story shows how a young Ranke derived his individualizing way of thinking and viewing life mainly from Luther how his life work is the best example in Western literature of the rise of history from a calling to a profession and how the three way discussion between Troeltsch Meinecke and Hintze concerning the nature of modern historical thought was of central importance for the reorientation of Western social historical thought in the twentieth century Heroines and History Colin MacMillan

Coates,Cecilia Louise Morgan,2002-01-01 This is a fascinating comparison of the histories of Ontario and Quebec as seen through the handling of their best known heroines Most Canadians are familiar with stories of Madeleine de Vercheres defending Montreal against the Iroquois in 1692 and of Laura Secord and her cow bravely crossing the American lines to warn the British during the War of 1812 **Shaping the Canons of Ancient Greek Historiography** Ivan

Matijašić,2018-08-06 The main focus of this book is the ancient formation and development of the canons of Greek historiography It takes a fresh look on the modern debate on canonical literature and deals with Greek historiographical traditions in the works of ancient rhetors and literary critics Writings on historiography by Cicero Quintilian and Dionysius of Halicarnassus are chiefly taken into account to explore the canons of Greek historians in Hellenistic and Roman Imperial Ages Essential in canon formation was the concept of classicism which took shape in the Age of Augustus but whose earlier developments can be traced back to Isocrates a model rhetor according to Dionysius at the end of the 1st century BC The analysis explores also late antique authors of school treatises and progymnasmata a field where historiography had a pedagogical function Previous studies on canonical literature have rarely considered historiography This book examines not only the works of ancient historians and their legacy but also the relationship between historiography literary criticism and the rhetorical tradition **A History of the Christian Church During the First Six Centuries** Samuel Cheetham,1894
