The Social Impact of Informal Economies in Eastern Europe Manuela Stanculescu, 2018-05-08 This title was first published in 2002 In State socialist societies informal economies were essential for the functioning of the economy as well as for household provision Since the beginning of social transformation they have been flourishing better than ever before They are a main outlet on the market for the newly emerging middle classes stabilize the situation of many workers and pensioners and in countries on the downward slope they are essential for the survival of large impoverished groups Presenting recent research on the social importance of informal economies especially in Bulgaria Hungary Romania and Russia the editors give a short introduction for each country and a common compilation of basic economic and social data follows in the appendix Household strategies in the shadow groups of informal winners and losers informal employment in town and countryside outcomes from informal activities the macro economic importance of informal economies and researching methods are all investigated

Foreign Direct Investment in Central and Eastern Europe Svetla Trifonova Marinova, 2024-11-01 This title was first published in 2003 Covering a diverse range of countries such as Bulgaria the Czech Republic Hungary Poland Slovakia Slovenia and Russia as well as referring to the characteristics of the region as a whole this book examines the inflow and outflow of foreign direct investment from both home and host company and country perspectives By analyzing foreign direct investment in terms of process content and context the book provides a holist approach towards direct foreign investment in the transitional context of Central and Eastern Europe embracing both macro and micro economic perspectives of the process

Enhanced Transition Through Outward Internationalization Andreja Jaklic, Marjan Svetlicic, 2017-11-22 This title was first published in 2003 Among the major challenges transition economies are facing is how to cope with globalization Foreign direct investment FDI has proved the most dynamic defensive and offensive response as an integration and network tool yet outward FDI has so far been overlooked in research The vitality of outward FDI as an entry mode to the global economy is discussed in this authoritative volume from various angles beginning with the context of the development strategy and the transition process The experiences of the Slovene way of internationalization are compared with those of other transition economies Readers will learn about the size geographical distribution trends and sectoral allocation of such outward FDI OFDI as well as the major motives barriers and problems The book also responds to questions about the extent to which outward FDI is instrumental in development transition EU accession and competitiveness strengthening Based on extensive empirical research and focused case studies the volume provides valuable lessons for other EU candidate countries and transition economies while managerial experiences in entering Central and Eastern European markets offer universal internationalization lessons

Small Firms and Economic Development in Developed and Transition Economies David A. Kirby, Anna Watson, 2017-11-22 This title was first published in 2003 Since the late 1970s there has been considerable interest in the role of small firms in economic development in general and employment generation in particular Throughout

the developed world governments have introduced a range of measures to encourage small firm growth and development in an attempt to stimulate economic growth generate employment and foster innovation Though not all measures have been successful many policies have transferred to the transition economies of Central and Eastern Europe where since 1989 small firm growth and development has achieved considerable importance in economic restructuring Accordingly this volume presents the leading research on the role of small firms in economic development and employment generation in both transition and developed countries Setting itself in a wider theoretical context the book also considers the implications for both policy and theory and suggests directions for future research

Facilitating Transition by Internationalization Matija Rojec, 2019-10-28 FDI has proved to be the most dynamic defensive and offensive response to globalization This book provides an in depth evaluation of the rationale as well as theoretical and empirical explanations of the outward internationalization of firms from the Czech Republic Estonia Hungary Poland and Slovenia The authors present the first broader empirical evidence on transition economies OFDI and internationalization evaluate the role of transnational companies from transition economies and development implications of outward internationalization for home economies They put the experience of firms from transition economies into the framework of existing theories study to what extent are the experiences of Austria Portugal and Finland applicable to transition economies illustrate general macro economic trends of the international business practices of firms from transition economies by case studies examine the main determinants and barriers to the outward internationalization process offer a representative set of cases and best business government practices relevant for other transition economies identify specificity in internationalization by firms from transition economies due to transition processes and systemic background and apply network theory as a complementary explanation for such internationalization due to former historical ties and cultural vicinities A pioneering work on outward investment by transition economies this book is the first in the world to present a more systematic analysis of the internationalization of firms from transition economies based on results of the two ACE projects Outward internationalization facilitating transformation and EU Accession The case of Czech Republic Hungary and Slovenia and Networking Through OFDI including also Poland and Estonia

The Role of Informal Economies in the Post-Soviet World Colin C. Williams, John Round, Peter Rodgers, 2013-06-19 Based on extensive ethnographic and quantitative research conducted in Ukraine and Russia between 2004 and 2012 this book's central argument is that for many people the informal economy such as cash in hand work subsistence production and the use of social networks is of great importance to everyday life Formal work is both a facilitator of such processes and is often supported by them as people can only afford to undertake low paid formal work as a result of their informal incomes By looking at the informal nature of formal work and practices informal practices gift giving volunteer work and the economies of the household the book is one of the first to give an overview of the nature of the informal economy in all spheres of everyday practice

Institutional Change in Transition Economies Michael

Cuddy,2019-01-15 This title was first published in 2002 The importance of institutions for transition economies has so far been overlooked Michael Cuddy and Ruvin Gekker bring together leading experts in the field to fill this crucial void in the literature The contributors concentrate on an ongoing tension between informal constraints and mechanisms and the new formal rules and mechanisms that have gradually evolved through the transition period Experiences are primarily drawn from Russia The book consists of three parts the first comprising an analysis synthesis and generalizations of the institutional adaptations as a market economy slowly emerges from a fog of shifting rules and varying interpretations This is followed by the study of business and taxation authorities behavior as they try to minimize or maximize the taxation take The volume also analyzes the challenges facing central and regional governments in delivering equitable levels of public services across regions of vastly different development levels while at the same time trying to stimulate regional economic growth

Informal Economies and Social Transformation in Romania Rainer Neef,2004 Informal economies growing throughout the 1990s make a central determinant of social transformation in Eastern Europe In this book the various patterns of informal economies and the causes of its growth in Romania are explored from quantitative and qualitative research the difficult social transformation informal consumption and labour of households their incomes developments and strategies the impact of informalisation in different branches related to the Romanian economy as a whole in the end comparisons with Eastern European countries are included and methodological procedure is explained **Europe and Central Asia's Great Post-Communist Social Health Insurance Experiment: Impacts on Health Sector and Labor Markets Outcomes** , Activity, Incomes and Social Welfare Manuela Sofia Stanculescu,2017-10-24 This book describes and quantifies the major socioeconomic changes that have occurred in four new member states of the EU Slovenia Hungary Romania and Bulgaria since the early 1990s The period covered was a particularly turbulent one not only because of the transition process which was well underway but because of the stabilization packages and other economic monetary and social policy measures which have had a strong impact at individual and household levels While previous comparable studies have been carried out they cover the period only to the mid 1990s thus this book contains unique and very valuable statistical and micro data Within the broad framework of socioeconomic change a number of topics are explored in greater detail These include changes in activity occupational status and educational attainment household income sources and income inequality and risk of income poverty The analysis is based on household budget surveys and complemented with other statistical sources enabling a coherent analysis of the impact of large changes in social policy at household level The country chapters are all based on common methodological guidelines enabling comparisons to be drawn This will be an invaluable book for researchers in comparative social policy poverty and social stratification and economic sociology and for specialists on Central and Eastern Europe **The Economic History of Central, East and South-East Europe** Matthias

Morys,2020-12-29 The collapse of communism in Central East and South East Europe CESEE led to great hopes for the

region and for Europe A quarter of a century on the picture is mixed in many CESEE countries the transformation process is incomplete and the economic catch up has taken longer than anticipated The current situation has highlighted the need for a better understanding of the long term political and economic implications of the Central East and South East European historical experience This thematically organised text offers a clear and comprehensive guide to the economic history of CESEE from 1800 to the present day Bringing together authors from both East and West the book also draws on the cutting edge research of a new generation of scholars from the CESEE region Presenting a thoroughly modern overview of the history of the region the text will be invaluable to students of economic history and CESEE area studies **Informal**

Economies in Post-Socialist Spaces J. Morris,A. Polese,2015-06-23 Informed by in depth case studies focusing on a wide spectrum of micro and macro post socialist realities this book demonstrates the multi faceted nature of informality and suggests that it is a widely diffused phenomenon used at all levels of a society and by both winners and losers of post socialist transition Handbook of Research on Comparative Economic Development Perspectives on Europe and the MENA Region

Erdoğan, M. Mustafa,Christiansen, Bryan,2016-01-07 The MENA Middle East and North Africa region s economy is experiencing steady growth and is expanding as an active participant in investments with Europe the Americas and Asia Complex deals by transnational corporations TNCs and small and medium sized enterprises SMEs serve to influence European and MENA businesses government technology and society The Handbook of Research on Comparative Economic Development Perspectives on Europe and the MENA Region provides scholarly information about European and MENA economies at a time when these regions are becoming increasingly connected The need to understand their economies has never been more necessary and the research based chapters of this book covering a wide array of information regarding corruption and reform ethics and society and the effects of Western cultures provide scholars business executives practitioners and students with current information on the region s lucrative investments and fast growing economy

Central and South-Eastern Europe 2003 Europa Publications,2002 An in depth survey of the region presenting the latest economic and political developments It includes expert comment on issues of regional importance up to date statistics a directory of institutes and companies and political profiles Social Insurance, Informality, and Labor Markets Markus Frölich,David Kaplan,Carmen Pagés,Jamele Rigolini,David Robalino,2014-12-04 Most countries implement social protection programs to help individuals manage risks such as unemployment disability illness longevity or death In many middle income countries these are often based on a Bismarckian model named after Otto von Bismarck where benefits are financed by contributions levied on salaried employment In countries with a large informal sector however only a fraction of the population is covered by this system and non contributory programs have been added or are planned to increase coverage This can create distortions in the labor market and the book is about policies to expand the coverage of social insurance programs to all workers without reducing incentives to job creation and formal work While few would argue against the need

and social merits of social insurance and social assistance programs there are growing concerns about their unintended consequences on labor markets because of poor design. The programs can distort incentives and individual behaviors in ways that either reduce employment levels and or promote informality ultimately affecting productivity and economic performance. For instance high social security contribution rates can reduce formal employment badly designed unemployment benefits can reduce incentives to keep search and take jobs and fragmented social assistance programs can become a tax on formal labor and encourage informality. The book reviews the evidence regarding the effects of social insurance and social assistance programs on labor market outcomes and discusses options to improve their design and implementation. The book focuses particularly on middle income countries in Latin America and Asia with a large informal sector and suggests ways to reduce these distortions and better manage and finance the subsidies to make coverage universal while creating good jobs. The book compiles expert papers from the joint conferences of the World Bank WB the Institute for the Study of Labor IZA and the Inter American Development Bank IDB on Employment and Development. *Reflections on 1989 in Eastern Europe* Terry Cox, 2013-09-13 This book presents a selection of recent research on the events and developments of 1989 in Eastern Europe. It offers a mix of detailed examinations of the events of 1989 in Eastern Europe thoughtful and considered appraisals of developments and middle range theoretical discussions of patterns of cause and effect. The authors range in their approaches from detailed examinations of government and ruling party papers from the archives some of it originally labelled top secret to personal observations and oral history based on interviews with participants to analysis of survey data and official statistics. In their chosen focus the essays range from explorations of the emerging crisis in the communist regimes that led to the events of 1989 reflections and insights into the events and changing mood during 1989 itself and examinations of some of the consequences and legacies of 1989. This book was published as a special issue of *Europe Asia Studies*.

Record of proceedings, 1992 **Aspects of Independent Romania's Economic History with Particular Reference to Transition for EU Accession** David Turnock, 2016-04-15 After fifteen years of transition in the former communist states of Central and Eastern Europe it has become clear that for a substantial number the objective of reform and restructuring process is a market system in line with membership of the EU. In this study the long term economic transformation of Romania is studied offering a detailed narrative and thematic account of events from the nineteenth to the twenty first centuries. From the first steps towards large scale industrialisation begun prior to the First World War through the accelerated pace set by the communist regime after 1945 and the uncertainty following its subsequent collapse in 1989 the book addresses a wide range of pertinent issues that have shaped Romania's economic development. The study also offers an interpretation of a distinctive phase in the modernisation of post communist Romania supported by economic historical surveys of the preceding century as a context for recent restructuring on the eve of EU accession. This is linked with trends in the region as a whole so that a broad perspective is maintained throughout the book. By highlighting Romania's position as

one of more backward accession states and considering in what ways its experience during transition differs from the more developed states of the region this study offers a valuable insight into both the history of Romania and its future prospects Furthermore it provides a valuable case study that can be compared and contrasted with other countries who are likewise still grappling with the legacy of a centralised economy and in the process of adopting a more market orientated approach in order to gain EU membership As such this study will be of interest not only to historians and economists but anyone with an interest in the expansion of the European Union

Trade Union Strategies in Central and Eastern Europe Dimitrina Dimitrova, Jacques Vilroix, 2005 This publication contains eight essays which explore the changing role of trade unions in ex communist countries during the 15 years of transition from a planned to a market economy It is intended to provide a mechanism to stimulate debate and discussion amongst trade unions in the region as to how they can improve representation of members examine structures and strengthen their influence in public policy It seeks to provide a framework for the process of union strategic planning and also to help guide ILO technical work in this area
