The Global 1970s Duco Hellema,2018-09-03 No other decade evokes such contradictory images as the 1970s reform and emancipation on the one hand crisis and malaise on the other In The Global 1970s Radicalism Reform and Crisis Duco Hellema portrays the 1970s as a period of global transition Across the world the early and mid 1970s were still years of political mobilization with everything seemingly an object of public controversy and conflict including economic development education and family matters Social movements called for the reduction of social inequalities for participation and the emancipation of various groups at the same time as the rise of ambitious and reform oriented governments Ten years later a different world was emerging with the call for state controlled social and economic changes in decline and new economic policies centred on liberation and deregulation taking their place This book examines a range of explanations for this radical transformation highlighting how economic problems such as the oil crisis political battles and dramatic confrontations resulted in a free market oriented conservatism by the end of the period Divided into nine broadly chronological chapters and taking a global approach that allows the reader to see the familiar themes of the decade examined on an international scale The Global 1970s is essential reading for all students and scholars of twentieth century global history

The Rise and Fall of Corporate Social Responsibility Douglas M. Eichar,2017-05-25 Corporate social responsibility was one of the most consequential business trends of the twentieth century Having spent decades burnishing reputations as both great places to work and generous philanthropists large corporations suddenly abandoned their commitment to their communities and employees during the 1980s and 1990s indicated by declining job security health insurance and corporate giving Douglas M

Eichar argues that for most of the twentieth century the benevolence of large corporations functioned to stave off government regulations and unions as corporations voluntarily adopted more progressive workplace practices or made philanthropic contributions Eichar contends that as governmental and union threats to managerial prerogatives withered toward the century's end so did corporate social responsibility Today with shareholder value as their beacon large corporations have shredded their social contract with their employees decimated unions avoided taxes and engaged in all manner of risky practices and corrupt politics This book is the first to cover the entire history of twentieth century corporate social responsibility It provides a valuable perspective from which to revisit the debate concerning the public purpose of large corporations It also offers new ideas that may transform the public debate about regulating larger corporations

The Milbank Quarterly, 1923 **Making Peace with the 60s** David Burner, 2021-07-13 David Burner's panoramic history of the 1960s conveys the ferocity of debate and the testing of visionary hopes that still require us to make sense of the decade He begins with the civil rights and black power movements and then turns to nuanced descriptions of Kennedy and the Cold War the counterculture and its antecedents in the Beat Generation the student rebellion the poverty wars and the liberals war in Vietnam As he considers each topic Burner advances a provocative argument about how liberalism self-destructed in the 1960s In his view the civil rights movement took a wrong turn as it gradually came to emphasize the identity politics of race and ethnicity at the expense of the vastly more important politics of class and distribution of wealth The expansion of the Vietnam War did force radicals to confront the most terrible mistake of American liberalism but that they also turned against the social goals of the New Deal was destructive to all concerned Liberals seemed to rule in politics and in the media Burner points out yet they failed to make adequate use of their power to advance the purposes that both liberalism and the left endorsed And forces for social amelioration splintered into pairs of enemies such as integrationists and black separatists the social left and mainline liberalism and advocates of peace and supporters of a totalitarian Hanoi Making Peace with the 60s will fascinate baby boomers and their elders who either joined denounced or tried to ignore the counterculture It will also inform a broad audience of younger people about the famous political and literary figures of the time the salient moments and above all the powerful ideas that spawned events from the civil rights era to the Vietnam War Finally it will help to explain why Americans failed to make full use of the energies unleashed by one of the most remarkable decades of our history *A Transnational History of the Australian Animal Movement, 1970-2015* Gonzalo

Villanueva, 2017-10-20 This book offers the first transnational historical study of the creation contention and consequences of the Australian animal movement Largely inspired by Peter Singer and his 1975 book *Animal Liberation* a new wave of animal activism emerged in Australia and across the world In an effort to draw public and media attention to the plight of animals such as the rearing of pigs and poultry in factory farms and the export of live animals to the Middle East and South East Asia Australian activists were often innovative and provocative in how they made their claims Through lobbying disruptive

methods and vegan activism the animal movement consistently contested the politics and culture of how animals were used and exploited Australians not only observed and learnt from people and events overseas but also played significant international roles This book examines the complex and conflicting consequences of the animal movement for Australian politics as well as its influence on broader social change
