Society's Final Solution A History And Discussion Of The Death Penalty:

Society's Final Solution Laura E. Randa, 1997-08-29 This book offers an in depth examination of the historical perspective on the death penalty discusses the process involved in the sentencing and administration of justice and clarifies facets of an issue which is riddled with inequities and ambiguities that reflect gender bias and racial and economic disparity For example of the 3028 people on death row as of August 1995 only 15% were women Of those who are on death row today virtually all are poor a significant number are mentally retarded or otherwise mentally disabled more than 40% are African American and a disproportionate number are Native American Latino and Asian These facts need to be carefully weighed against the grief pain and anguish caused by the untimely death of a murder victim with regard to the family members as well as the related legal costs to society

When the State No Longer Kills Sangmin Bae, 2008-06-05 Why some countries comply with international norms against the death penalty while others do not

Public Executions Christopher S. Kudlac, 2007-08-30 The death penalty is one of the country's most controversial issues The fairness of its application is debated in coffeehouses classrooms political arenas and the media However despite its representation in the media most death cases receive surprisingly little national media attention In fact of the 1000 people executed in the United States since 1977 and the 3 500 inmates currently awaiting execution only a handful of cases can be recalled by the public Those that are memorable are so because only a few are dramatically represented in the media Why is it that those that receive the most serious penalty are virtually nameless while the death penalty in general is one of the most discussed aspects of the criminal justice system What makes some executions more newsworthy than others What are the implications of this coverage for the public's understanding of this significant issue This book looks at those death row cases that received the most intensive media coverage from the 1970s through the present and why At the same time it focuses on changes in public opinion about the death penalty and how newspaper coverage and evolving mass sentiment relate to one another Kudlac covers such celebrated cases as Karla Faye Tucker Timothy McVeigh Aileen Wuornos John Wayne Gacy and others that captured the attention of the American public and affected public opinion about the death penalty through the help of the media He considers issues such as religion politics race gender and class as he reveals the reasons for our attention to certain cases above others The book concludes with a consideration of where we go from here With new investigative techniques that have helped to exonerate some death row inmates and various other considerations that have come into play in recent cases the future of the death penalty will continue to be shaped by the media and the public

Palmer, Jr., 2013-10-17 The death penalty landscape has changed considerably since the 1998 first edition of this book For example six states that had the death penalty Connecticut Illinois Maryland New Jersey New Mexico and New York no longer impose the punishment Some of the changes set out in this second edition involve discussions of all of the significant cases decided by the United States Supreme Court after 1998 including *Roper v Simmons* 543 U S 551 2005 *Atkins v Virginia* 536 U S 304 2002 *Schriro v Smith* 126 S Ct 7 2005 *Harbison v Bell* 129 S Ct 1481 2009 *Holmes v South Carolina* 126 S Ct 1727 2006 *Kansas v Marsh* 126 S Ct 2516 2006 *Ring v Arizona* 536 U S 584 2002 *Sattazahn v Pennsylvania* 537 U S 101 2003 This new edition includes 13 new chapters They cover such topics as capital felon's defense team habeas corpus coram nobis and section 1983 proceedings the Innocence protection act and post conviction DNA testing challenging the death sentence under racial justice acts inhabited American territories and the costs of capital punishment *The Death Penalty's Denial of Fundamental Human Rights* John Bessler, 2022-12-15 The Death Penalty's Denial of Fundamental Human

Rights details how capital punishment violates universal human rights to life to be free from torture and other forms of cruelty to be treated in a non arbitrary non discriminatory manner and to dignity In tracing the evolution of the world s understanding of torture which now absolutely prohibits physical and psychological torture the book argues that an immutable characteristic of capital punishment already outlawed in many countries and American states is that it makes use of death threats Mock executions and other credible death threats in fact have long been treated as torturous acts When crime victims are threatened with death and are helpless to prevent their deaths for example courts routinely find such threats inflict psychological torture With simulated executions and non lethal corporal punishments already prohibited as torturous acts death sentences and real executions the book contends must be classified as torturous acts too **Exile and Embrace** Anthony Santoro,2013-07-09 Examining the religious debates and dimensions of the death penalty in America

Apologies from Death Row Judy Eaton,2023-10-31 Apologies from Death Row explores the notion of remorse apologies and forgiveness within the context of capital punishment in the United States through the final words of offenders on death row and the covictims responses to them in their statements to the press after witnessing the execution The book demonstrates that there is evidence that some offenders on death row are truly remorseful and that some of the family members of their victims could benefit from this remorse but that this is unlikely in the current system of capital punishment Drawing from the fields of criminology psychology and sociology the book begins with a theoretically informed introduction to the concepts of remorse and forgiveness followed by an exploration of apology and forgiveness specifically in the context of capital punishment It discusses how some initiatives within the criminal justice system such as apology laws and restorative justice programmes are being used to make it easier for offenders to apologize to their victims Offenders on death row are considered addressing why they might or might not apologize and whether they are even capable of showing true remorse The book then considers the family members of their victims covictims addressing whether they benefit from hearing the offender express remorse and witnessing the execution and whether forgiveness is possible in this context Evidence to support the arguments presented in the book come from the offenders final words and the covictims responses to them in their statements to the press The book dispels two common myths about the death penalty First it shows that offenders on death row are not simply monsters who are incapable of understanding the severity of their crimes Second it provides evidence that despite the popular belief that the death penalty is necessary in order to provide closure for the victims family members it may actually have the opposite effect The family members statements to the press after witnessing the execution contain more negative themes like anger and disappointment than positive themes like closure and peace The book concludes with a discussion of the implications this has for systems of justice in general and how a better understanding of the emotional state of offenders can help both victims and offenders Apologies from Death Row will be of great interest to students and scholars of Criminology Psychology and Sociology *The Problem with Capital Punishment and Why It Should*

Be Abolished in America Vincent R. Jones Sr.,2023-11-06 One of the most controversial subjects in criminal law is whether or not we should continue to use capital punishment as the ultimate punitive sanction The intended focus of *The Problem with Capital Punishment and Why It Should Be Abolished in America* is to take a harsh critical look at theories in support of the use of this form of punishment and expose the truth about capital punishment it is extremely costly it is arbitrarily applied there have been too many innocent persons exonerated from death row and the only consistency with execution seems to be that of the mentally ill the poor and those without adequate legal representation and by using methods that are inhumane and cruel and unusual This book shows that our current system of capital punishment is fraught with error insanely expensive and administered in such a manner that the possibility of executing a completely innocent person is not only possible but likely if we continue upon our present course After reading this book the reader will be left with no reasonable doubt that the time has come to abolish capital punishment in America

When the Guillotine Fell Jeremy Mercer,2008-06-24 How long did the guillotine s blade hang over the heads of French criminals Was it abandoned in the late 1800s Did French citizens of the early days of the twentieth century decry its brutality No The blade was allowed to do its work well into our own time In 1974 Hamida Djandoubi brutally tortured 22 year old Elisabeth Bousquet in an apartment in Marseille putting cigarettes out on her body and lighting her on fire finally strangling her to death in the Provencal countryside where he left her body to rot In 1977 he became the last person executed by guillotine in France in a multifaceted case as mesmerizing for its senseless violence as it is though provoking for its depiction of a France both in love with and afraid of The Foreigner In a thrilling and enlightening account of a horrendous murder paired with the history of the guillotine and the history of capital punishment Jeremy Mercer a writer well known for his view of the underbelly of French life considers the case of Hamida Djandoubi in the vast flow of blood that France s guillotine has produced In his hands France never looked so bloody

Cliff, 2003 The issue of capital punishment is a continually debated issue because it calls

into question the values and direction of society How is a civilisation supposed to handle lawbreakers Are some crimes so heinous and some people so dangerous that the death penalty is the only appropriate response The United States Constitution prohibits cruel and unusual punishment but opinions on whether that includes capital punishment are vehement on both sides Many states have some form of death penalty and public opinion seems to indicate support of it in principle

However many firestorms have erupted recently over the application of the penalty including the topics of its use on minors and those with mental disabilities There are also questions raised about how much of a factor race plays in a capital sentence Internationally several countries have foresworn the death penalty with certain countries in Europe and the Americas refusing to extradite criminal suspects including suspected terrorists to the US if capital punishment is a possible sentence With such politically flammable and ethically challenging issues hanging over it capital punishment is a vitally important issue to understand To help facilitate that study this book assembles a carefully selected and substantial listing of literature focussing on the death penalty Anyone researching this area of criminal justice will find this book an important tool as it offers easy access to the most relevant works about capital punishment Following the bibliography further access is provided with author title and subject indexes
