## **Sociological Dilemmas Toward A Dialectic Paradigm:**

*Sociological Dilemmas* Piotr Sztompka, 1979 *Sociological Dilemmas Toward a Dialectic Paradigm* aims to build a new paradigm in sociological theory by using the method of dialectical critique patterned on the approach utilized by Karl Marx. The book explores the sociological heritage with the theoretical works of Karl Marx as the primary basis of exposition and analysis. Chapters are devoted to the discussion of the theoretical crisis of sociology, the division of sociology between two opposing methodologies, dissociation of sociology from the prescientific traditions of social thought, and the conclusion reached by the author after an

**Sociological Dilemmas** Piotr Sztompka, 2013-09-11 *Sociological Dilemmas Toward a Dialectic Paradigm* aims to build a new paradigm in sociological theory by using the method of dialectical critique patterned on the approach utilized by Karl Marx. The book explores the sociological heritage with the theoretical works of Karl Marx as the primary basis of exposition and analysis. Chapters are devoted to the discussion of the theoretical crisis of sociology, the division of sociology between two opposing methodologies, dissociation of sociology from the prescientific traditions of social thought, and the conclusion reached by the author after an extensive analysis of sociological theories presented in the book. The book will be of value to sociologists, teachers, and students of the social sciences. Theory of Action (Routledge Revivals)

Richard Münch, 2010-12-01 Modern sociology owes its existence and the progress it has made to the integration of differing kinds of orientations. In this work first published 1987, Professor Richard Münch sets out to reformulate the theory of action, a notion central to sociology and one to which all schools of thought within sociology have contributed. He gives an exposition of the voluntaristic theory of action as found in Talcott Parsons's work, reconstructing and extending Parsons's theory from the perspective of the present-day level of development. In this way, he both integrates opposing orientations to action theory and presents the voluntaristic theory of action in a readable and teachable form. Gramsci and the History of Dialectical Thought

Maurice A. Finocchiaro, 2002-04-18 A critical reappraisal of Gramsci as a thinker and of the dialectical approach as a mode of inquiry. **Theoretical Integration in the Study of Deviance and Crime** Steven F.

Messner, Marvin D. Krohn, Allen E. Liska, 1989-07-01 How to best generate theoretical growth in the contemporary study of deviance and crime has been the source of much debate. This book represents a diverse range of viewpoints concerned about theoretical integration and its benefits. The chapters encompass both discussion of the requisites for integrating theories and examinations of methodological strategies to test these theories. By providing a source for those grappling with the issue of theoretical integration, the book is sure to stimulate further theoretical development in the sociology of deviance and in criminology. **Individualism, Holism and the Central Dilemma of Sociological Theory** Jiří Šubrt, 2019-05-13

This book examines individualism and holism, the two interpretive perspectives that have divided sociological theory into two camps. It examines attempts to overcome this antinomy and sets out a new approach to resolving this dilemma via critical reconfigurationism.

A Critical Introduction to Contemporary Social Theory Piotr Sztompka, 2025-02-24 Examining the core

sociological theories that have emerged in the first two decades of the current century A Critical Introduction to Contemporary Social Theory outlines their attempts to answer the most fundamental questions of the discipline from the nature of social order to the mechanisms of social change Through a careful exploration of the history of modern social theory Piotr Sztompka lays the critical groundwork for investigating the development of contemporary social theory from its founding fathers in the 19th century through the rich contributions of the 20th century known as the golden age of theory up to the most recent developments and illuminates how it is both anchored in and a critique of previous attempts to theorize foundational questions to social being and action Contemporary theory the book argues is now moving toward analysis of action interpersonal relations social and epistemological realism and multivalent mechanisms at the root of social phenomenon Major social theoretical thinkers like Anthony Giddens Pierre Bourdieu Jeffrey Alexander Randall Collins Jonathan Turner Hans Joas Ulrich Beck Erving Goffman and others are presented and evaluated as significant contributors to contemporary social theory while pointing toward future possibilities for social theory in the current century This will be a key resource for undergraduate and graduate students in sociology social theory and contemporary cultural studies

Social Theory Today Anthony Giddens,1987 Social theory has undergone dramatic changes over the past fifteen years The aim of this book is to provide a comprehensive survey of those changes and an authoritative statement on current trends of development in social thought The contents of the book range in a systematic way across the major traditions of social theory prominent today Among the topics covered are the relationships between modern social theory and the classics of the late eighteenth and nineteenth centuries the connections between social theory and mathematical social science and the logical status of generalizations in the social sciences Traditions of thought discussed include behaviourism symbolic interactionism Parsonian theory analytical theory structuralism and post structuralism ethnomethodology structuration theory world systems theory Marxism and critical theory      **Beyond Equilibrium Theory** M. Ross DeWitt,2000 Beyond Equilibrium Theory is a fundamentally new interpretation of social reality that introduces theories of social formation and transformation for micro and macro analysis of action systems and social movements Equilibrium and conflict are viewed as societal variants rather than as ideal or natural states Classical theorists are placed within a common theoretical framework in an analysis of social order and social change as separate continua Multiple path models trace changing patterns of partnering and power sharing Hypotheses are tested with field collected survey data regression analysis of higher order interactions and comparisons of means adjusted for other effects Researchers are provided with detailed methods of integrating theory and research including nonlinear models and new logics of causality      **Totalitarian Experience and Knowledge Production** Svetla Koleva,2017-11-20 Totalitarian Experience and Knowledge Production examines in a comparative perspective sociology as practiced in six European Communist countries marked by various forms of totalitarianism in the period 1945 1989 In contrast to normative sociology s view that such coexistence is essentially

impossible the author argues that sociology could function in these undemocratic societies insofar as sociologists succeeded in establishing relatively autonomous institutional and cognitive zones Based on the self reflection of scholars who had practiced their profession during that period the book reveals the tribulations of the scientific identity of sociology under the specific social political conditions of totalitarian societies It becomes evident that the basic principle that made sociological knowledge possible was freedom of thought in search for scientific truth despite the truth imposed by political authority

*Agency and Structure (RLE Social Theory)* Piotr Sztompka, 2014-08-21 A striking feature of the human condition is its dual contradictory inherently split character on the one hand autonomy and freedom on the other constraint and dependence on social structure This volume addresses this central problem of the linkage between human action and social structure in sociological and social science theory Contributions cover several different approaches to the agency structure problematic and represent the work of a number of leading international sociologists Their efforts point to a reorientation of social theory both on philosophical and methodological levels

*The Routledge Handbook of Critical Public Relations* Jacquie L'Etang, David McKie, Nancy Snow, Jordi Xifra, 2015-08-11 Critical theory has a long history but a relatively recent intersection with public relations This ground breaking collection engages with commonalities and differences in the traditions whilst encouraging plural perspectives in the contemporary public relations field Compiled by a high profile and widely respected team of academics and bringing together other key scholars from this field and beyond this unique international collection marks a major stage in the evolution of critical public relations It will increasingly influence how critical theory informs public relations and communication The collection takes stock of the emergence of critical public relations alongside diverse theoretical traditions critiques and actions methodologies and future implications This makes it an essential reference for public relations researchers educators and students around a world that is becoming more critical in the face of growing inequality and environmental challenges The volume is also of interest to scholars in advertising branding communication consumer studies cultural studies marketing media studies political communication and sociology

**Self, Social Structure, and Beliefs** Jeffrey C. Alexander, Gary T. Marx, Christine L. Williams, 2004-09-20 Annotation This is an exploration of the creative work done by leading sociologists who were inspired by the scholarship of Neil Smelser

*Cultures of Inquiry* John R. Hall, 1999-06-28 An overview of research methodologies in social science historical and cultural studies which proposes transdisciplinary approach

**Logic, Methodology and Philosophy of Science VI** J.J. Cohen, J. Los, H. Pfeiffer, K.-P. Podewski, 2011-10-10 Logic Methodology and Philosophy of Science VI presents the results of recent research into the foundations of science The volume contains invited papers presented at the Congress covering the areas of Logic Mathematics Physical Sciences Biological Sciences and the Humanities

**Analytical Planning** Thomas L. Saaty, Kevin P. Kearns, 2014-05-17 Analytical Planning The Organization of Systems deals with systems and planning and suggests a methodological tool for integrating the two This book presents the basic ideas behind complexity systems

hierarchies and prioritization and describes planning as a unique form of decision making with illustrations of some prominent philosophical and methodological approaches It highlights some shortcomings of traditional approaches to planning and shows how these can be addressed by the systems approach This monograph consists of seven chapters and opens with a discussion on the nature of complexity and describes an approach that facilitates the use of creativity and experience to structure complex problems The next chapter explains the rationale for systems thinking and how reductionism works The Analytic Hierarchy Process is then considered along with its relationship to some of the properties of systems The remaining chapters focus on ways of thinking about planning and philosophies of planning strategic planning and the applicability of the Analytic Hierarchy Process to benefit cost analysis and resource allocation This book is intended for managers decision makers and planners as well as researchers and practitioners in applied mathematics and computer science

The Perspective of Historical Sociology Jiří Šubrt, 2017-11-09 This book provides a comprehensive overview of the themes that make up the field of Historical Sociology At its centre is the human individual as related to social and historical development The key question it raises is who or what is responsible for the process of human history society or the individual

Social Science Theories in Adult Education Research Agnieszka Bron, Michael Schemmann, 2002 The relationship between adult education research and theory is one of tension On the one hand there are several empirical studies carried out without any theoretical guidance On the other hand there is theorizing and theory building taking place without any empirical support Social Science Theories in Adult Education Research the third volume of the Bochum Studies in International Adult Education series pleads for the importance of the combination of empirical and theoretical work in a symbiotic way Good empirical studies need theoretical guidance and good theory building needs a solid empirical basis thus the book explores and displays the most often used theories and theoretical perspectives in adult education research in the last decade within the European discourse and analyzes their potentials for adult education research The chapters presented in this volume have a more or less similar underlying structure They display the most important contours of the theory or perspective in question they analyze and discuss the relation to adult education research focusing on examples of other researcher s work and they give an outlook on what can be expected of the respective paradigm s in the future

**National Human Rights Action Planning** Azadeh Chalabi, 2018-07-19 This book deals with human rights action planning as a largely under researched area from theoretical doctrinal empirical and practical perspectives and as such provides the most comprehensive studies of human rights planning to date At the theoretical level by advancing a novel general theory of human rights planning it offers an alternative to the traditional state centric model of planning This new theory contains four sub theories contextual substantive procedural and analytical ones At the doctrinal level by conducting a textual analysis of core human rights conventions it reveals the scope and nature of the states obligation to adopt a plan of action for implementing human rights At the empirical level a cross case analysis of national human rights action plans of 53 countries

is conducted exploring the major problems of these plans in different phases of planning and uncovering the underlying causes of these problems At the practical level this volume sets out how these plans should be developed and implemented how they can be best monitored by international human rights bodies and how to maximize their effectiveness With discussions bridging human rights theory and practice and development discourse this book will be a useful resource for a wide range of audiences from academics of different disciplines law human rights social policy political science political philosophy legal philosophy development studies planning studies socio legal studies to governments human rights practitioners and the UN human rights bodies
