

SOCIOLOGICAL PARADIGMS

Sociological paradigms are the broad schools of thought in sociology. The three key sociological paradigms are functionalism, conflict theory, and symbolic interactionism.

1. FUNCTIONALISM

Argues that social stability is a prerequisite for a healthy and strong society. Social institutions contribute towards social stability. Abrupt social change imperils social order.

2. CONFLICT THEORY

Argues that society is built upon enduring inequality on the basis of social class, gender, race etc. Structural social change is required to create an egalitarian society.

3. SYMBOLIC INTERACTIONISM

Argues that we construct society through a range of symbols (e.g., words, gestures) and social interactions. People make up their roles as they interact.

Dialectical Social Theory and Its Critics Tony Smith, 1993-01-01 That there is a Hegelian legacy in Marx s writings is not in dispute There is great controversy however over the extent to which this legacy should be affirmed or rejected In fact the Hegelian orientation toward Marx and toward social theory in general has been largely rejected for at least a decade In *Dialectical Social Theory and Its Critics* Tony Smith challenges this position and thereby reopens a debate of critical importance to Marx Hegel studies that has significant implications for the nature of social theory in general In Part I Smith explores a number of aspects of the Hegelian legacy by means of a systematic dialectical reading limiting himself to themes that have either been

overlooked or dealt with unsatisfactorily in recent scholarship In Part II he examines a number of recent arguments against the Hegelian legacy in Marxism formulated from the neo Kantian analytical Marxist and postmodernist perspectives advanced by Lucio Colletti Jon Elster and John Roemer and Jean Baudrillard respectively Dialectical Social Theory and Its Critics is more than an exercise in the history of ideas Its main aim and most significant accomplishment is to establish that dialectical social theory retains practical importance today and is in fact crucial to interdisciplinary attempts to construct a viable theory of the social world
