Sinop Landscapes:

Sinop Landscapes Owen P. Rome and the Black Sea Region Tonnes Bekker-Nielsen, 2006-09-01 In 89 BC Roman legionaries intervened in the Black Sea region to curb the ambitions of Mithridates VI of Pontus Over the next two centuries the Roman presence on the Black Sea coast was slowly but steadily increased This volume deals with the Roman impact on

the indigenous population in the Black Sea region and touches on the theme of romanisation of that area Nine different contributors discuss several aspects of Roman identity and the cultural interaction one article even compares the situation to the American presence in Iraq though at the same time it also looks at the resistance to the Roman Empire and the Roman problems of creating peace in the region after the colonisation Romanisation and becoming Roman in a Greek world is a very popular field of discussion about which a lot has already been written This book however encircles three important themes the domination the romanisation and the resistance It covers two different sides of the Roman presence in the area and shows both the perspective of a Roman just arrived Pliny the Younger and a native seeing the Romans coming the historian Memnon of Herakleia Furthermore it describes how multi identity cultures manage to live together because becoming Roman not necessarily means becoming less Greek or less Gaulish less Scythian less Bosporan etc The diversity of the different chapters in this book creates reflection on the cultural change in the traditionalist yet cosmopolitan environment that was the Roman Black Sea Region New Regionalism or No Regionalism? Ruxandra Ivan,2016-04-29 The nation states in the Black Sea area have initiated many co operative policies but the area also sees numerous tensions between neighboring states The conflict co operation paradox along with ethnic fragmentation and shared culture are two of the most salient features of the Black Sea Area These paradoxes are not the only force in the evolution of the region though There are also issues such as ethnic and national identity the failure of democratization energy and resources as well as the influence of other powers such as Russia the EU and the USA The key questions asked by the authors in this book are to what extent is there an emerging regionalism in the Black Sea area Is the Black Sea a region What are the common interests shared by the former USSR states the three EU member states neighboring the Black Sea Bulgaria Greece and Romania and a NATO country Turkey Are the fault lines dividing them more pervasive than the incentives for cooperation Can we speak of a shared identity The first part of the book places the Black Sea problematique in a wider historical and spatial context The authors then take a closer look at the region and examine further the structure of the Black Sea area They offer a perspective on smaller actors with great ambitions such as Azerbaijan and Romania and go on to make a comparison between the emerging regionalism in the Black Sea area and regionalisms in other parts of the world *The Black Sea and the Early Civilizations of Europe, the Near East and Asia* Mariya Ivanova,2013-08-26 The Black Sea lies at the junction of three major cultural areas Europe Central Asia and the Near East It plays a crucial role in enduring discussions about the impact of complex Near Eastern societies on European societies and the repercussions of early urbanization across Eurasia This book presents the first comprehensive overview of the Black Sea region in the prehistoric period It penetrates artificial boundaries imposed by traditions politics and language to encompass both the European and Asiatic coasts and both Eastern European and Western scholarly literature With a critical compilation and synthesis of archaeological data this study situates the prehistoric Black Sea in a global historical context By adopting the perspective of technology and innovation it transcends a purely descriptive

account of material culture and emphasizes society human interaction and engagement with the material world **The Archaeology of Byzantine Anatolia** Philipp Niewohner,2017-03-17 The volume propounds a new understanding of the hitherto enigmatic medievalization of the Roman empire provides English presentations of foreign language research and promises to serve as an essential compendium that may help to establish Anatolian archaeology more widely in academic curricula worldwide *KOINE* Derek Counts,Anthony Tuck,2009-11-23 The Oxford English Dictionary defines koine as a set of cultural or other attributes common to various groups This volume merges an academic career over a half century in breadth and scope with an editorial vision that brings together a chorus of scholarly contributions echoing the core principles of R Ross Holloways own unique perspective on ancient Mediterranean studies Through broadly conceived themes the four individual sections of this volume I A View of Classical Art Iconography in Context II Crossroads of the Mediterranean Cultural Entanglements Across the Connecting Sea III Coins as Culture Art and Coinage from Sicily and IV Discovery and Discourse Archaeology and Interpretation are an attempt to capture the many and varied trajectories of thought that have marked his career and serve as testimony to the significance of his research The twenty four papers plus four introductory essays to the individual sections biographical sketch and main introduction contain recent research on subjects ranging from the Kleophrades Painter to the Black Sea Sicilian Coinage and archaeology in modern Rome The Archaeology of Anatolia, Volume IV Sharon R. Steadman,Gregory McMahon,2021-12-13 This fourth volume in the Archaeology of Anatolia series offers reports on the most recent discoveries from across the Anatolian peninsula Periods covered span the Epipalaeolithic to the Medieval Age and sites and regions range from the western Anatolian coast to Van and on to the southeast The breadth and depth of work reported within these pages testifies to the contributors dedication and love of their work even during a global pandemic period The volume includes reviews of recent work at on going excavations and data retrieved from the last several years of survey projects In addition a State of the Field section offers up to the moment data on specialized fields in Anatolian archaeology **The Empire That Would Not Die** John Haldon,2016-04-29 Introduction Goldilocks in Byzantium 1 The Challenge A Framework for Collapse 2 Beliefs Narratives and the Moral Universe 3 Identities Divisions and Solidarities 4 Elites and Interests 5 Regional Variation and Resistance 6 Some Environmental Factors 7 Organization Cohesion and Survival A Conclusion All Things Ancient Greece James W.
