Choice and Morality in Anthropological Perspective

George N. Appell, Triloki N. Madan, 1988-07-08 This book explores choice behavior as constrained by culture biology and psychoanalytic processes in a variety of ethnographic contexts in Southeast Asia Oceania and Africa the arena in which the controversy between Derek Freeman and anthropologist Margaret Mead's ideas of culture first developed It also examines the interface between a nomothetic anthropology and a hermeneutic idiographic anthropology raising the critical question as to how ethnographic knowledge of another culture is achieved and transmitted to others Freeman rejects an exclusive reliance on either culture or biology as key to explaining human behavior proposing instead an interactionist paradigm Fundamental to this paradigm is choice behavior which is intrinsic to our biology and basic to the formation of culture for cultures are the accumulation of socially sanctioned past choices However the greater the freedom to choose the greater the scope for good or bad and the greater the need for ethics rules and laws for defining prohibited alternatives Choice and Morality investigates these themes Its authors examine the emergent nature of social reality as a result of choice behavior and illustrate the complexity of Freeman's theoretical position
