SIPRI Yearbook 2005 Stockholm International Peace Research Institute, 2005 The 36th edition of the SIPRI Yearbook analyses developments in 2004 in Security and conflictso Military spending and armamentso Non proliferation arms control and disarmament The SIPRI Yearbook contains extensive annexes on the implementation of arms control and disarmament agreements and a chronology of events during the year in the area of security and arms control Studies in this volume Euro Atlantic securityMajor armed conflictsMultilateral peace missionsGoverning the use of force under international auspicesThe greater Middle EastLatin America and the CaribbeanEnvironmental securityFinancing security in a global contextMilitary expenditure Arms productionInternational arms transfersArms control and the non proliferation processNuclear arms control and non proliferationChemical and biological weapon developments and arms control Libya s renunciation of nuclear biological and chemical weapons and longer range missile programmesConventional arms control International non proliferation and disarmament assistanceMultilateral export controlsThe Proliferation Security InitiativeThe annual accounts and analyses are extensively footnoted providing a comprehensive bibliography in each subject area

The International Arms Trade Rachel Stohl, Suzette Grillot, 2013-04-29 The multi billion dollar business of the international conventional arms trade involves virtually every country in the world Around the globe people s lives are being irrevocably changed by the effects of guns tanks and missiles These weapons have the potential to cause a deadly and current threat one responsible for hundreds of thousands of deaths a year This succinct and accessible new book explores the complexities and realities of the global conventional weapons trade The first book on the subject in nearly a decade The International Arms Trade provides an engaging introduction to the trade the effects and the consequences of these weapons The authors trace the history of the arms trade and examine how it has evolved since the end of the Cold War In particular they assess the role of the largest arms exporters and importers the business of selling conventional arms around the world and shed new light on the illicit arms trade and the shadowy dealers who profit from their deadly commerce The book also looks closely at the devastating effect the business can have on countries societies and individuals and concludes with an evaluation of the various existing control strategies and the potential for future control opportunities The International Arms Trade will be invaluable for students and scholars of international relations and security studies and for policymakers and anyone interested in understanding more about the conventional arms trade

Realism versus Global Arms Control and Disarmament Carmen Chas, 2025-07-15 This incisive book explores the limits of international law through arms control and disarmament treaties Carmen Chas critically engages with literature on disarmament and classical realist analysis bridging the divide between international law and international relations scholarship

China-Russia Security Relations : Strategic Parallelism Without Partnership Or Passion? Richard Weitz, 2008

Encyclopedia of Business Ethics and Society Robert W. Kolb, 2008 This encyclopedia spans the relationships among business ethics and society with an emphasis on business ethics

and the role of business in society **The European Union as a Small Power** A. Toje, 2010-06-30 The post Cold War period is coming to an end After a decade of foreign policy integration Europe faces multipolarity internally divided and externally weak Toje argues that due to the lack of a workable decision making mechanism the EU is destined to play the limited but distinct role of a small power in global politics **The Foreign Policies of Arab States** 'Alī al-Dīn Hilāl, 2010 This is an indispensable aid for those studying or teaching the foreign policies of the contemporary Middle East Not only are the elements of foreign policy discussed and presented as a whole region but the editors provide the established analytical framework by which each contributor in their individual chapters has analyzed and evaluated the foreign policies of nine Arab countries Their framework perceives foreign policy in the context of its environment domestic regional and global This edition has new material reflecting the earth shaking events at the end of the Cold War and the continuation of violence and terrorism **U.S. Foreign Policy in Perspective** David Sylvan, Stephen Majeski, 2009-02-05 What is the long term nature of American foreign policy This new book refutes the claim that it has varied considerably across time and space arguing that key policies have been remarkably stable over the last hundred years not in terms of ends but of means Closely examining US foreign policy past and present David Sylvan and Stephen Majeski draw on a wealth of historical and contemporary cases to show how the US has had a client state empire for at least a century They clearly illustrate how much of American policy revolves around acquiring clients maintaining clients and engaging in hostile policies against enemies deemed to threaten them representing a peculiarly American form of imperialism They also reveal how clientilism informs apparently disparate activities in different geographical regions and operates via a specific range of policy instruments showing predictable variation in the use of these instruments With a broad range of cases from US policy in the Caribbean and Central America after the Spanish American War to the origins of the Marshall Plan and NATO to economic bailouts and covert operations and to military interventions in South Vietnam Kosovo and Iraq this important book will be of great interest to students and researchers of US foreign policy security studies history and international relations This book has a dedicated website at www.usforeignpolicyinperspective.org featuring additional case studies and data sets *Understanding China and India* Rollie Lal, 2006-04-30 Key to developing national security strategy is figuring out what other countries want What are their national interests How do they perceive them How do they project them onto the world stage Understanding all of this helps us to predict their behavior In developing a national security strategy for Asia the United States must take into account the desires of two emerging giants of the 21st century China and India We would be mistaken Lal argues if we lumped China and India together in one Asian policy because these two countries differ greatly from one another Based on over 120 in depth interviews with government officials and scholars in Beijing and New Delhi the author's research yields some surprising news about the differences between China and India Chinese leaders define their national interest as preservation of the state and territorial unity whereas Indian decision makers define their national interests in relation to forces beyond India

such as the forces of globalization and their geopolitical status One factor that accounts for these differences among the many explored in this book is the influence of one party rule in China and parliamentary democracy in India Another important finding is that China and India are unlikely to pursue hostility with each other The U S approach to Asia will need to take these differences into account **The Modern Defense Industry** Richard A. Bitzinger, 2009-10-15 Whether it s guns and ammunition or multidimensional anti terrorism systems the defense industry is dynamic complex and ubiquitous It is also mysterious powerful and controversial involving thousands of players worldwide from suppliers and producers to government and military procurers to shadowy figures that trade in the black market This comprehensive two volume reference will explore on a global scale the various issues concepts problems and controversies surrounding the rise of the modern defense industry Unparalleled in its scope and insight The Modern Defense Industry will prove invaluable to the industry s critics and champions alike The phenomenon of a more or less permanent defense industry especially one so wide in scale breadth air sea land and space technology and geography is still relatively new Until now its implications for politics economics and technology have not been adequately discussed in an authoritative accessible format for scholars and researchers business people journalists policymakers and interested laymen The Modern Defense Industry addresses the period from 1945 to the present covering the United States Europe Russia China Israel and other important arms producing and arms procuring countries Including essays by experts from around the world a glossary data on firms and governments laws and policies primary documents case studies and a host of other elements this set will be a unique resource for anyone interested in the arms industry It will also offer penetrating insights into topics like international relations and diplomacy arms proliferation and contemporary politics Volume I comprises chapters by experts in the field on topics like the relationship between the industry military and government how new modes of warfare are changing the industry the implications of globalization on the industry the black and gray areas of the arms trade and much more Volume II features an extensive A Z glossary of terms lists of defense firms and government agencies annotated primary documents lists of leading defense contractors and key weapons systems an analysis of key legislation and professional organizations The Modern Defense Industry sets the standard for state of the art overviews of an industry that has for better or worse come to infuse nearly every aspect of world affairs in the early twenty first century **Civil Wars of the World** Karl DeRouen Jr., Uk Heo, 2007-05-10 This unique two volume reference is the most authoritative up to date resource available for information and data on the most volatile civil wars around the globe since World War II At a time when historians are devoting more and more research to conflicts within nations Civil Wars of the World Major Conflicts since World War II is an invaluable addition to the available resources In two volumes it ranges around the globe to cover the most volatile and deadly civil wars of the past 60 years including the bloody impasses in the Middle East devastating tribal warfare in Africa Cold War fueled conflicts in Eastern Europe and Asia the seemingly unbreakable cycle of rebellion and repression in some regions of Latin America and more Civil Wars of the World

moves country by country to describe the causes course and consequences of internal conflicts within each nation Coverage includes the historical background of each country geographic and economic factors descriptions of rebel groups and governments e g regime type size of military capacity terrorism foreign and or intergovernmental organization IGO

Relations Roland Dannreuther, John Peterson, 2006-09-27 In this much needed study of current strategic thinking on both sides of the Atlantic a diverse collection of leading European and American analysts are assembled to tackle key questions that remain unanswered in the existing literature how much do new security strategies signal convergence or divergence in US and EU foreign and security policy doctrine what tangible political and policy impacts can be attributed to new security strategies what are the implications for US and EU policies towards specific regions what are the prospects for collective transatlantic action The legacy of 9 11 is scrutinized against the backdrop of the strategic thinking that preceded it In the 1990s the US struggled to develop a new doctrine for American foreign policy seeking at various times to promote a New World Order or democratic enlargement For its part the EU had tried to underpin its new Common Foreign and Security Policy with a coherent set of European values multilateralism human rights environmental protection and poverty reduction that were best defended via collective European action Key continuities and changes in these transatlantic efforts since 9 11 are clearly identified and closely examined Capitalism, Democracy and the Prevention of War and Poverty Peter

Graeff, Guido Mehlkop, 2008-11-20 This book seeks to explore and understand the causes of war and poverty drawing on the theory of democratic peace and the theory of capitalistic peace It discusses democracy conflict resolution economic development and industrial modernization **Asia-Pacific Geopolitics** Joseph A. Camilleri, 2007-01-01 Despite significant cultural exchange mutual trust and understanding remains fragile between Asia Pacific countries The community faces complex and seemingly intractable problems violent civil conflicts geopolitical tensions and economic uncertainties proliferation of nuclear weapons and flashpoints that may lead to war The authors of this book argue that common reflection and dialogue is imperative Their achieved aim is to bring together distinguished scholars and experts on public policy social ethics defence human security and sustainability to consider the future of the Asia Pacific region and appropriate responses by both states and civil society **Combating Weapons of Mass Destruction** Nathan E. Busch, Daniel Joyner, 2009-01-01

The spread of weapons of mass destruction poses one of the greatest threats to international peace and security in modern times the specter of nuclear chemical and biological weapons looms over relations among many countries The September 11 tragedy and other terrorist attacks have been painful warnings about gaps in nonproliferation policies and regimes specifically with regard to nonstate actors In this volume experts in nonproliferation studies examine challenges faced by the international community and propose directions for national and international policy making and lawmaking The first group of essays outlines the primary threats posed by WMD proliferation and terrorism Essays in the second section analyze

existing treaties and other normative regimes including the Nuclear Non Proliferation Treaty and the Chemical Weapons and Biological Weapons Conventions and recommend ways to address the challenges to their effectiveness Essays in part three examine the shift some states have made away from nonproliferation treaties and regimes toward more forceful and proactive policies of counterproliferation such as the Proliferation Security Initiative which coordinates efforts to search and seize suspect shipments of WMD related materials

The Companion to Development Studies Vandana Desai, Robert B. Potter, 2008 The Companion to Development Studies is an essential one stop reference for anyone with an interest in development studies Over 100 international experts have been brought together to present a comprehensive overview of the key theoretical and practical issues dominating contemporary development studies Building on the success of the first edition the second edition of the Companion has been thoroughly revised and updated and includes new chapters on a range of topics including ageing culture and development corruption and development and global terrorism Each chapter summarises current debates and provides guidance for further reading and research The Companion to Development Studies is indispensable for students of development studies at all levels from undergraduate to postgraduate and beyond in departments of development studies geography politics international relations sociology social anthropology and economics

Hot Topics in Infection and Immunity in Children III Andrew J. Pollard, Adam Finn, 2006-10-31 This book is based on the course Infection and Immunity in Children 2005 which was held at St Catherine s College Oxford UK in June 2005 This is the third book in this series covering topics in infection and immunity during childhood and based on the Oxford courses These courses and their companion books are aimed at encouraging excellence in clinical practice and raising the profile of paediatric infectious disease with a particular eye on the needs of trainees in the specialty At the time of writing a fourth course is already at an advanced stage of planning for June 2006 with a completely new programme once again You will find in this book a wealth of state of the art information about various aspects of paediatric infectious diseases written by leading authorities in the field We hope this volume will bring new insights into the management of children with infectious diseases and improve the health of children Andrew J Pollard and Adam Finn January 2006 v Acknowledgments We are indebted to all of the contributors to this text who have generously provided their carefully written manuscripts in good time for editing and publication We are also grateful to the staff of St Catherine s College Oxford UK who hosted Infection and Immunity in Children 2005 on which the text is based

The American Way of Strategy Michael Lind, 2008-07-30 In The American Way of Strategy Lind argues that the goal of U S foreign policy has always been the preservation of the American way of life embodied in civilian government checks and balances a commercial economy and individual freedom Lind describes how successive American statesmen from George Washington Thomas Jefferson and Alexander Hamilton to Franklin Roosevelt Dwight Eisenhower and Ronald Reagan have pursued an American way of strategy that minimizes the dangers of empire and anarchy by two means liberal internationalism and realism At its best the American way of strategy is a well thought out and

practical guide designed to preserve a peaceful and demilitarized world by preventing an international system dominated by imperial and militarist states and its disruption by anarchy When American leaders have followed this path they have led our nation from success to success and when they have deviated from it the results have been disastrous Framed in an engaging historical narrative the book makes an important contribution to contemporary debates The American Way of Strategy is certain to change the way that Americans understand U S foreign policy

The Interception of Vessels on the High Seas Efthymios Papastavridis, 2014-08-28 The principal aim of this book is to address the international legal questions arising from the right of visit on the high seas in the twenty first century This right is considered the most significant exception to the fundamental principle of the freedom of the high seas the freedom in peacetime to remain free of interference by ships of another flag It is this freedom that has been challenged by a recent significant increase in interceptions to counter the threats of international terrorism and WMD proliferation or to suppress transnational organised crime at sea particularly the trafficking of narcotics and smuggling of migrants The author questions whether the principle of non interference has been so significantly curtailed as to have lost its relevance in the contemporary legal order of the oceans The book begins with an historical and theoretical examination of the framework underlying interception This historical survey informs the remainder of the work which then looks at the legal framework of the right of visit contemporary challenges to the traditional right interference on the high seas for the maintenance of international peace and security interferences to maintain the bon usage of the oceans navigation and fishing piracy j ure gentium and current counter piracy operations off the coast of Somalia the problems posed by illegal unregulated and unreported fishing interdiction operations to counter drug and people trafficking and recent interception operations in the Mediterranean Sea organised by FRONTEX

Terrorism, Democracy, and Human Security Ronald Crelinsten, 2021-03-15 This book examines the relationship between terrorism and counterterrorism and how it operates within the broader context of communication control power and democratic governance at the national international and transnational level A culmination of decades of research on the challenges that liberal democracies face in dealing with terrorism this work provides an innovative framework that maps out the broader context in which terrorism and counterterrorism interact and co evolve the terrorism counterterrorism nexus In a series of models moving from local to global perspectives the framework places this nexus within the broader context of social cultural political and economic life This framework provides a tool for maintaining situational awareness in a multi tiered networked world where geography and history are splintering into a rainbow of perspectives and locales revealing the contested nature of space and time themselves This book will be of much interest to students of political violence terrorism studies communication studies and international relations as well as security professionals
