**Sir Walter Raleigh and His Readers in the Seventeenth Century** Anna R. Beer, 1997 Sir Walter Raleigh created a powerful public identity in the prose texts he wrote from prison Anna Beer's new study offers a much needed analysis of these neglected political writings which include *The History of the World A Dialog between a Counsellor and a Justice of the Peace* and Raleigh's speech from the scaffold Moving beyond previous analyses which have understood these works primarily in terms of patronage relationships Beer argues that Raleigh's experience of imprisonment encouraged him to seek new audiences outside the court and to explore political stances which confronted the power of the monarch Later chapters chart the ways in which readers modified Raleigh's public identity over the course of the century reforming his work to serve a range of political agendas indeed using his voice to speak for a new notion of the people By focusing on both Raleigh and his interpreters this book contributes to the growing body of work on the politics and practices of writing and reading in early modern England

**Shakespeare's Political Imagination** Philip Goldfarb Styrt, 2021-11-04 Shakespeare's Political Imagination argues that to better understand Shakespeare's plays it is essential to look at the historicism of setting how the places and societies depicted in the plays were understood in the period when they were written This book offers us new readings of neglected critical moments in key plays such as Malcolm's final speech in *Macbeth* and the Duke's inaction in *The Merchant of Venice* by investigating early modern views about each setting and demonstrating how the plays navigate between those contemporary perspectives Divided into three parts this book explores Shakespeare's historicist use of medieval Britain and Scotland in *King John* and *Macbeth* ancient Rome in *Julius Caesar* and *Coriolanus* and Renaissance Europe through Venice and Vienna in *The Merchant of Venice* *Othello* and *Measure for Measure* Philip Goldfarb Styrt argues that settings are a powerful component in Shakespeare's worlds that not only function as physical locations but are a mechanism through which he communicates the political and social orders of the plays Reading the plays in light of these social and political contexts reveals Shakespeare's dramatic method how he used competing cultural narratives about other cultures to situate the action of his plays These fresh insights encourage us to move away from overly localized or universalized readings of the plays and re-discover hidden moments and meanings that have long been obscured

Loxley,1997-10-27

English literary history has long incorporated the category of Cavalier verse and the critical presuppositions that have shaped such a category continue even now to determine the ways in which much civil war writing is read Through a detailed study of both manuscript and printed texts James Loxley arrives at an account of the interaction between poetry and royalist political activity which for the first time presents a sustained and coherent challenge to such presuppositions Catholicism and Anti-Catholicism in Early Modern English Texts A. Responding to recent historical analyses of Post Reformation English Catholicism the essays in this collection by both literary scholars and historians focus on polemical devotional political and literary texts that dramatize the conflicts between context sensitive Catholic and anti Catholic discourses in early modern England They foreground some major literary authors and canonical texts but also examine non canonical literature as well as other writings that embody ideological fantasies connecting the political and religious discourses of the time with their literary manifestations Texts and Cultural Change in Early Modern England Cedric C. James VI Encompassing the period from the early 1560s to the late 1590s this is the first study to link together Scottish Marian and Jacobean court literatures presenting a relatively unknown body of writing newly theorized and contextualized It argues that in this period erotic poetry can only be considered in relation to the figure of the monarch and that the formation of elite lyric culture takes place under the shaping influence of desire for and against the sovereign and her or his passional and symbolic powers
