Schiering,2020-03-24 Preventing School Violence Guidelines for Teaching Civility and School Harmony is an amazing resource that reminds the reader of the importance of establishing and maintaining meaningful relationships among the school community teachers administrators students families and the community at large As educators we are responsible for modeling civility in our schools by creating significant connections with others This book provides the reader with profound scenarios approaches and strategies to promote civility and encourage school harmony and to explore what dignity for all really means Cue-enhancement as a function of task-set Walter C. Cogel,1967 Under flight conditions as well as in other situations judgments of the distances between objects may depend upon a variety of possible cues In this study the hypothesis was tested that the intention to use a particular cue relation would enhance the effectiveness of that particular cue in determining the resulting perception For this purpose a situation was presented in which the apparent depth position of an object in a configuration of objects would differ depending upon which of two possible cue relations size cues were used The results support the conclusion that the perceived depth position of the object differed in the expected directions as a function of the task set The data of the study are discussed with respect to the adjacency principle which states that cue efficiency is determined by the relative adjacency of objects between which the cues occur Although the effect of cue set upon the perception seems to be small compared with that of adjacency it cannot completely be ignored Author *Multitasking: Executive Functioning in Dual-Task and Task Switching Situations* Tilo Strobach, Mike Wendt, Markus Janczyk,2018-03-27 Multitasking refers to performance of multiple tasks The most prominent types of multitasking are situations including either temporal overlap of the execution of multiple tasks i e dual tasking or executing multiple tasks in varying sequences i e task switching In the literature numerous attempts have aimed at theorizing about the specific characteristics of executive functions that control interference between simultaneously and or sequentially active component of task sets in these situations However these approaches have been rather vague regarding explanatory concepts e g task set inhibition preparation shielding capacity limitation widely lacking theories on detailed mechanisms and or empirical evidence for specific subcomponents The present research topic aims at providing a selection of contributions on the details of executive functioning in dual task and task switching situations The contributions specify these executive functions by focusing on 1 fractionating assumed mechanisms into constituent subcomponents 2 their variations by age or in clinical subpopulations and or 3 their plasticity as a response to practice and training **The Design**

of Instruction and Evaluation Mitchell Rabinowitz, Fran C. Blumberg, Howard T. Everson, 2004-09-22 This book is about empirically tested knowledge and principles that inform the design of instructional and evaluation systems and the use and promise of media and technology within such systems Historically psychology has informed the design of instructional and evaluation systems in different ways A behavioral perspective emphasizes the role of the environment in determining behavior a factor external to the learner A cognitive perspective focuses on the role of cognitive processing and constraints in determining learning factors that are internal to the learner This volume presents the affordances approach which addresses how the environment and the affordances within it interact with cognitive processes to determine learning Insights into this interaction are presented It is the book's contention that the affordance approach represents an advancement over the behavioral and cognitive perspectives it is an evolution within the cognitive approach not an alternative to it The Design of Instruction and Evaluation Affordances of Using Media and Technology is intended for education practitioners responsible for the implementation of media and technology in classrooms for researchers and faculty and for use as a text in courses on media and technology use in educational settings instructional design and psychology of learning **Teaching**
