have been a catalyst for substantial shifts in fundamental structures within Chinese families This edited collection focuses on
the continuities and changes in gender and inter generational relations of Chinese families in Greater China The Voice of
Violence Joel P. Rhodes,2001-04-30 The tide of 1960s political upheaval while mistaken at the time by some as a unified
assault against America carried out by revolutionaries at home and abroad was actually hundreds of locally constructed

expressions of political discourse reflecting the influences of race class gender and local conditions on each unique group of practitioners This is a comparative study of how radicals at the local level staged displayed and ultimately narrated symbolic acts of performative violence against the symbols of the American system The term performative violence refers to a method of public protest whereby participants create the conditions in which their violent actions become a political text a powerful symbol with a strong historical precedent Recognizing the textuality of history this interdisciplinary examination deconstructs the performative violence within its historically specific and socially constructed contexts using four representative case histories of late 1960s and early 1970s activism These are the African American rioters in Kansas City the Black Panther Party in Detroit campus radicals at Kansas State University and activists at the University of Kansas Rather than focusing on the major clashes of the Vietnam era this book contributes to recent scholarship on the 1960s which has attempted to offer a more textured analysis of the era s activism particularly its political violence based on more local studies *Catalog of Publications* United States.
