Social Origins of the Irish Land War Samuel Clark, 1979 *Nationalism and Popular Protest in Ireland* Charles H. E. Philpin, 2002-08-08 Essays on Irish nationalism some on particular protest movement others on more general themes

Ireland, Sweden, and the Great European Migration, 1815-1914 Donald Harman Akenson, 2011-08-23 This book is the product of Donald Akenson's decades of research and writing on Irish social history and its relationship to the Irish diaspora it is also the product of a lifetime of trying to figure out where Swedish America actually came from and why These two matters Akenson shows are intimately related Ireland and Sweden each provide a tight case study of a larger phenomenon one that for better or worse shaped the modern world the Great European Diaspora of the true nineteenth century Akenson's book parts company with the great bulk of recent emigration research by employing sharp transnational comparisons and by situating the two case studies in the larger context of the Great European Migration and of what determines the physics of a diaspora no small matter as the concept of diaspora has become central to twenty first century transnational studies He argues against the increasing refusal of mainstream historians to use empirical databases that the history community still has a lot to learn from economic historians and simultaneously that despite the self confidence of their proponents narrow economically based explanations of the Great European Migration leave out many of the most important aspects of the whole complex transaction Akenson believes that culture and economic matters both count and that leaving either one on the margins of explanation yields no valid explanation at all

Politics and the Irish Working Class, 1830-1945 Donal Ó Drisceoil, F. Lane, 2005-09-30 This book is the first ever collection of scholarly essays on the history of the Irish working class It provides a comprehensive introduction to the involvement of Irish workers in political life and movements between 1830 and 1945 Fourteen leading Irish and international historians and political scientists trace the politicization of Irish workers during a period of considerable social and political turmoil The contributions include both surveys covering the entire period and case studies that provide new perspectives on crucial historical movements and moments This volume is a milestone in Irish labour and political historiography and an important contribution to the international literature on politics and the working class *Ireland, Radicalism, and the Scottish Highlands, c.1870-1912* Andrew Newby, 2019-08-06 No detailed description available for Ireland Radicalism and the Scottish Highlands c 1870 1912

The Oxford Handbook of Modern Irish History Alvin Jackson, 2014-03-27 The study of Irish history once riven and constricted has recently enjoyed a resurgence with new practitioners new approaches and new methods of investigation The Oxford Handbook of Modern Irish History represents the diversity of this emerging talent and achievement by bringing together 36 leading scholars of modern Ireland and embracing 400 years of Irish history uniting early and late modernists as well as contemporary historians The Handbook offers a set of scholarly perspectives drawn from numerous disciplines including history political science literature geography and the Irish language It looks at the Irish at home as well as in their migrant and diasporic communities The

Handbook combines sets of wide thematic and interpretative essays with more detailed investigations of particular periods Each of the contributors offers a summation of the state of scholarship within their subject area linking their own research insights with assessments of future directions within the discipline In its breadth and depth and diversity The Oxford Handbook of Modern Irish History offers an authoritative and vibrant portrayal of the history of modern Ireland The Agrarian History of England and Wales Edward John T. Collins,Joan Thirsk,2000 The unifying theme of this volume is the changing role of the countryside in national life and the impact upon it of the social and economic forces unleashed by industrialisation and the growth of towns *John Bull's Other Homes* Murray Fraser,1996-01-01 State housing became an integral part of the relationship between Ireland and Great Britain from the 1880s until the early 1990s Using research from both Irish and Westminster sources this book shows that there was recurrent pressure for the state to intervene in housing in Ireland in a period when the Irish Question was the major domestic political issue The result was that the model of subsidized state housing subsequently introduced in Britain was first developed in Ireland as a product of the tensions of British rule An important corollary of innovative Irish housing policy was its influence even in a negative sense on developments in mainland Britain This book also examines the cultural impact of imperialism and in particular the way in which British ideas of garden suburb housing and town planning design came significantly to reshape the Irish urban environment Fraser not only presents hitherto unknown material but does so in a unique interdisciplinary blend of architectural planning urban and socio economic history Durkheim and National Identity in Ireland J. Dingley,2015-03-05 This book examines the development of opposed Nationalist and Unionists identities as products of different economies symbolically represented in religious differences that impelled conflicting cultures and ideals of best interest that were fundamentally incompatible within a single identity

Land questions in modern Ireland Fergus Campbell,Tony Varley,2016-05-16 This collection of essays explores the nature and dynamics of Ireland's land questions during the nineteenth and twentieth centuries and also the ways in which the Irish land question has been written about by historians The book makes a vital contribution to the study of historiography by including for the first time the reflections of a group of prominent historians on their earlier work These historians consider their influences and how their views have changed since the publication of their books so that these essays provide an ethnographic study of historians' thoughts on the shelf life of books exploring the way history is made The book will be of interest to historians of modern Ireland and those interested in the revisionist debate in Ireland as well as to sociologists and anthropologists studying Ireland or rural societies **A Companion to Nineteenth-Century Britain** Chris Williams,2008-04-15 A Companion to Nineteenth Century Britain presents 33 essays by expert scholars on all the major aspects of the political social economic and cultural history of Britain during the late Georgian and Victorian eras Truly British rather than English in scope Pays attention to the experiences of women as well as of men Illustrated with maps and charts Includes guides to further reading Dwelling(s) in Nineteenth-Century Ireland Heather Laird,Jay R.

Roszman,2023-10-15 What did it mean to have an Irish dwelling in the nineteenth century How did Irish people write about think about visually represent or imagine what constituted home Showcasing research from scholars based in Ireland the United Kingdom and further afield this interdisciplinary volume seeks to answer these questions by exploring the physicality and symbolism of Irish dwellings and the home as a place of repose exercise and work Using a range of methodological approaches including history folklore and literature this volume offers new perspectives on the material culture of home fictionalized homes social housing schemes suburban living spaces home and social mobility institutional living migration and memories of the home house and gender and eviction Rather than focus on the Big House which has already received considerable scholarly attention this volume foregrounds dwelling spaces that were especially vulnerable to economic forces the homes of the urban and rural poor Additionally the book acknowledges the importance to nineteenth century Ireland of a class that has arguably received even less attention in Irish scholarship than the poor a rising urban suburban middle class exploring their impact on housing and on cultural and leisure activities An Open Access version of Christopher Cusack s chapter Back into the old homestead The Irish Cottage in Irish American Fiction 861 1910 will be made available on publication *Landownership & Power Mod Eur* Martin Blinkhorn,Ralph Gibson,2002-06 First Published in 1991 Routledge is an imprint of Taylor Francis an informa company Melancholy Accidents Carolyn Conley,1999-01-01 While most scholarly attention on violence in post famine Ireland has focused on political crimes this book examines non political violence which made up the vast majority of incidents in that period Ireland s overall crime rate was below that of England and Wales but the proportion of violent offenses to non violent ones was significantly higher in Ireland In Melancholy Accidents Carolyn Conley decries the commonly held belief that recreational and domestic violence was generally the result of understandable emotions Conley demonstrates that the meaning of violence in post famine Ireland was complex personal and often deeply traditional and idiosyncratic This unique book will be valuable to a wide variety of scholars including those who study women s history European history and social problems Encyclopedia of Historians and Historical Writing Kelly Boyd,2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like J rgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies
