Socialist Realism And The Modern Literary Process:

Socialist Realism and the Modern Literary Process Aleksandr Ivanovich Ovcharenko, 1978 **Representation and the Twentieth-century Novel** Paul D. Morris, 2005 **Socialist Cultures East and West** Dubravka Juraga, M. Keith Booker, 2002-06-30 Decades of Western Cold War propaganda were designed to depict socialism as inimical to genuine aesthetic achievement. Now in the wake of the Cold War it is becoming possible to reassess the past and present cultural productions of artists with socialist inclinations. The essays in this volume begin such a reassessment, finding that socialist cultural production in the 20th century both as the official culture of the socialist East and as an oppositional culture in the capitalist West has been rich and varied. The volume focuses on socialist culture in the industrialized world, primarily Eastern Europe and the West. An introductory essay overviews socialist cultural productions of the 20th century, while the chapters that follow address a wide range of topics. These include Soviet socialist realist fiction and film, musicals, the socialist drama of Bertolt Brecht, and British and American leftist fiction. The volume demonstrates that propagandistic Cold War depictions of socialism as a threat to artistic expression were inaccurate and misleading. Cold War Literature Andrew Hammond, 2006-11-22 This collection of essays analyzes the literary response to the coups, insurgencies, and invasions that took place around the globe during the Cold War and explores the thematic and stylistic trends in world writing prompted by Cold War hostilities. **The Russian Hero in Modern Chinese Fiction** Mau-sang Ng, 1988 Comprehensive study demonstrates how Chinese writers, in particular the writers of the May Fourth Movement of 1919, guided by Russian authors of the 19th century, created works of art that are both original and Chinese. Glossary of names and terms. This is the Chinese U Press of Hong Kong edition of 1986. Annotation copyrighted by Book News Inc. Portland, OR. *Nation-Building, Propaganda, and Literature in Francophone Africa* Dominic Thomas, 2002-11-19 What characterizes the relationship between literature and the state? Should literature serve the needs of the state by constructing national consciousness, espousing state propaganda, and molding good citizens? Or should it be dedicated to a different kind of creative social endeavor? In this important book about literature and the politics of nation building, Dominic Thomas assesses the contributions of Francophone African writers whose works have played a key role in the recent transition to democracy in the Congo. Exploring the works of Sony Labou Tansi, Henri Lopes, and Emmanuel Dongala, among others, Thomas highlights writers intimately involved with government and politics, whether in support of the state's vision or with the intention of articulating a more open view of citizens and society. Focusing on themes such as collaboration, reconciliation, identity, history, and memory, *Nation-Building, Propaganda, and Literature in Francophone Africa* elaborates a broader understanding of the circumstances of African colonization, modern African nation-state formation, and the complex cultural dynamics at work in Africa since independence. *The Art and Science of Making the New Man in Early 20th-Century Russia* Yvonne Howell, Nikolai Kremmentsov, 2021-12-02 The idea that morally, mentally, and physically superior new men might replace the currently existing

mankind has periodically seized the imagination of intellectuals leaders and reformers throughout history This volume offers a multidisciplinary investigation into how the new man was made in Russia and the early Soviet Union in the first third of the 20th century The traditional narrative of the Soviet new man as a creature forged by propaganda is challenged by the strikingly new and varied case studies presented here The book focuses on the interplay between the rapidly developing experimental life sciences such as biology medicine and psychology and countless cultural products ranging from film and fiction dolls and museum exhibits to pedagogical projects sculptures and exemplary agricultural fairs With contributions from scholars based in the United States Canada the UK Germany and Russia the picture that emerges is emphatically more complex contradictory and suggestive of strong parallels with other new man visions in Europe and elsewhere In contrast to previous interpretations that focused largely on the apparent disconnect between utopian new man rhetoric and the harsh realities of everyday life in the Soviet Union this volume brings to light the surprising historical trajectories of new man visions their often obscure origins acclaimed and forgotten champions unexpected and complicated results and mutual interrelations In short the volume is a timely examination of a recurring theme in modern history when dramatic advancements in science and technology conjoin with anxieties about the future to fuel dreams of a new and improved mankind

Translations from Kommunist, 1963 *Mexican muralist, international Marxist* Curtis Swope, 2024-10-29 David Alfaro Siqueiros was perhaps the most important communist painter of the twentieth century This

book the first sustained engagement with Siqueiros's work in the English language focuses on the artist's late murals which are both aesthetically innovative and politically provocative. It places Siqueiros in an international context revealing that the dogmatism he has been charged with was in reality a complex phenomenon. It provided a foundation for rather than an obstacle to his efforts to create an art embedded in the day to day concerns and theoretical debates of the world wide mass movement he saw himself as a part of.

Russian Village Prose Kathleen F. Parthé, 1992-07-28 Kathleen Parth offers the first comprehensive examination of the controversial literary movement Russian Village Prose. From the 1950s to the decline of the movement in the 1970s Valentin Rasputin Fedor Abramov and other writers drew on luminous memories of their rural childhoods to evoke a thousand year old pattern of life that was disappearing as they wrote. In their lyrical descriptions of a vanishing world they expressed nostalgia for Russia's past and fears for the nation's future they opposed collectivized agriculture and fought to preserve traditional art and architecture and to protect the environment. Assessing the place of Village Prose in the newly revised canon of twentieth century Russian literature Parth maintains that these writers consciously ignored and undermined Socialist Realism and created the most aesthetically coherent and ideologically important body of published writings to appear in the Soviet Union between Stalin's death and Gorbachev's ascendancy. In the 1970s Village Prose was seen as moderately nationalist and conservative in spirit. After 1985 however statements by several of its practitioners caused the movement to be reread as a possible stimulus for chauvinistic anti-Semitic groups like Pamyat. This important development is treated here with a thorough discussion of all the political implications of these rural narratives. Nevertheless the center of Parth's work remains her exploration of the parameters that constitute a code of reading for works of Village Prose. The appendixes contain a translation and analysis of a particularly fine example of Russian Village Prose Aleksei Leonov's *Kondyr*.

New Myth, New World Bernice Glatzer Rosenthal, 2010-11-01 The Nazis use and misuse of Nietzsche is well known. The Superman the will to power Nietzsche's equation of bourgeois democracy and decadence and his denigration of reason were staples of Nazi propaganda. Communists also used and misused Nietzsche but that fact is largely unknown because Soviet propagandists invoked reason and labeled

Nietzsche the philosopher of fascism even while covertly appropriating his ideas In this pioneering book Bernice Glatzer Rosenthal excavates the trail of long obscured Nietzschean ideas that took root in late Imperial Russia intertwining with other elements in the culture to become a vital ingredient of Bolshevism and Stalinism Nietzsche made a difference He furnished intellectual ammunition for a prolonged conflict about culture society and politics that began around the turn of the century His first Russian admirers were poets philosophers and political activists They responded to the changes transforming their society by espousing new values and seeking a new faith by which to live and work This response resulted in new aesthetic and political amalgams such as Symbolism Futurism Nietzschean Christianity and Nietzschean Marxism The ensuing debates between and among their partisans reverberated throughout the wider culture and therefore also into Bolshevism becoming the subject of an uninterrupted polemic between Bolsheviks and non Bolsheviks and among Bolsheviks that continued into the 1930s In Stalin's time unacknowledged Nietzschean ideas were used to mobilize the masses for the great tasks of the first Five Year Plan and the Cultural Revolution which was intended to eradicate bourgeois values and attitudes from Soviet life and to construct a distinctly Socialist culture Nietzsche's belief that people need illusions to shield them from reality underlay Socialist Realism the official Soviet aesthetic from 1934 on In the aftermath of de Stalinization the government cast Nietzsche as the personification of bourgeois nihilism and bourgeois individualism Soviet intellectuals wishing to reappropriate their lost cultural heritage discovered the Nietzsche influenced intellectuals of late Imperial Russia and reopened discussion on the issues they had posed More than an exercise in historical rediscovery *New Myth New World* offers a new interpretation of modern Russian history By uncovering the buried influence of Nietzschean ideas on Soviet culture and politics Rosenthal opens new avenues for understanding Soviet ideology and its influence on the twentieth century

Rotten Foundations Peter W. Sperlich, 2002-11-30 Sperlich examines the ideological foundations of the socialist regime of the former German Democratic Republic He provides a detailed analysis of the nature of the GDR's legitimating ideology and of the reasons why the ideology ultimately failed to legitimate the regime The study uses primary source documents extensively as well as the little existing secondary literature This is part of Sperlich's larger project dealing with the government society economy political participation and administration of the law and the system of courts of the GDR This definitive treatment of the GDR provides the background essential to an understanding of all communist systems of the twentieth century As such it is vital reading for scholars students and other researchers seeking to understand the rise and ultimate collapse of communist systems and in particular the decline of the German Democratic Republic

Lee, 2020-02-24 Founded by Vladimir Lenin in 1919 to instigate a world revolution the Comintern sought to advance not only the proletarian struggle but also a wide variety of radical causes including fighting against imperialism and racism in settings as varied as Ireland India the United States and China Notoriously and from the organization's outset these causes grew ever more subservient to Soviet state interest and Stalinist centralization Comintern Aesthetics shows how the cultural and political networks emerging from the Comintern have persisted even after the Comintern's demise in 1943 Tracing these networks through a multiplicity of artistic forms geared towards advancing a common liberated humanity this volume captures both the failure and the enduring allure of a Soviet centred world revolution The sixteen chapters in this edited volume examine cultural and revolutionary circuits that once connected Moscow to China Southeast Asia India the Near East Eastern Europe Germany Spain and the Americas The Soviet Union of the interwar years provided a template for the convergence of party politics and cultural history but the volume traces how this template was adapted and reworked around the world By emphasizing the shared Soviet routes of these far flung circuits Comintern Aesthetics recaptures a long lost moment in which cultures could not only transform perception but also highlight alternatives to capitalism namely an anti colonial world imaginary foregrounding race class and gender equality **The Modern Russian Theater** Nicholas
