Society State Schools A Case For Structural And Confessional Pluralism:

Society, State & Schools Rockne McCarthy, Calvin Center for Christian Scholarship, 1981 *Political Order and the Plural Structure of Society* James W. Skillen, Rockne M. McCarthy, 1991 This excellent volume explores three forms of pluralist theory those based on historical doctrines of custom and tradition Catholic doctrines of natural law and subsidiarity and Calvinist doctrines of sphere sovereignty and creation and compares and evaluates each of these forms of pluralism within the context of American thought **Fundamentalism and Evangelicals** Harriet A. Harris, 1998-06-11

Fundamentalism is a label used often pejoratively of religious conservatism Evangelicals are growing in number and power around the world and are frequently regarded as fundamentalist This volume examines fundamentalism as a mentality which has greatly affected evangelicalism but which some evangelicals now wish to leave behind *The Outrageous Idea of Christian Scholarship* George M. Marsden, 1997-03-13 At the end of his 1994 book *The Soul of the American University* George Marsden advanced a modest proposal for an enhanced role for religious faith in today's scholarship This unscientific postscript helped spark a heated debate that spilled out of the pages of academic journals and *The Chronicle of Higher Education* into mainstream media such as *The New York Times* and marked Marsden as one of the leading participants in the debates concerning religion and public life Marsden now gives his proposal a fuller treatment in *The Outrageous Idea of Christian Scholarship* a thoughtful and thought provoking book on the relationship of religious faith and intellectual scholarship More than a response to Marsden's critics *The Outrageous Idea of Christian Scholarship* takes the next step towards demonstrating what the ancient relationship of faith and learning might mean for the academy today Marsden argues forcefully that mainstream American higher education needs to be more open to explicit expressions of faith and to accept what faith means in an intellectual context While other defining elements of a scholar's identity such as race or gender are routinely taken into consideration and welcomed as providing new perspectives Marsden points out the perspective of the believing Christian is dismissed as irrelevant or worse antithetical to the scholarly enterprise Marsden begins by examining why Christian perspectives are not welcome in the academy He rebuts the various arguments commonly given for excluding religious viewpoints such as the argument that faith is insufficiently empirical for scholarly pursuits although the idea of complete scientific objectivity is considered naive in most fields today the fear that traditional Christianity will reassert its historical role as oppressor of divergent views and the received dogma of the separation of church and state which stretches far beyond the actual law in the popular imagination Marsden insists that scholars have both a religious and an intellectual obligation not to leave their deeply held religious beliefs at the gate of the academy Such beliefs he contends can make a significant difference in scholarship in campus life and in countless other ways Perhaps most importantly Christian scholars have both the responsibility and the intellectual ammunition to argue against some of the prevailing ideologies held uncritically by many in the academy such as naturalistic reductionism or unthinking moral relativism

Contemporary university culture is hollow at its core Marsden writes Not only does it lack a spiritual center but it is without any real alternative He argues that a religiously diverse culture will be an intellectually richer one and it is time that scholars and institutions who take the intellectual dimensions of their faith seriously become active participants in the highest level of academic discourse Whether the reader agrees or disagrees with this conclusion Marsden's thoughtful well argued book is necessary reading for all sides of the debate on religion's role in education and culture **Discipleship of the Mind** James W. Sire, 1990-04-04 Discussing worldview thinking the foundations of knowledge and the relationship between knowing and doing James W Sire shows Christians how to honor God with their minds **God's Economy** Lew Daly, E. J. Dionne, Jr., 2010-10 President Obama has signaled a sharp break from many Bush Administration policies but he remains committed to federal support for religious social service providers Like George W Bush's faith based initiative though Obama's version of the policy has generated loud criticism from both sides of the aisle even as the communities that stand **Political Visions & Illusions** David T. Koyzis, 2019-05-07 In this freshly updated comprehensive study political scientist David Koyzis surveys the key political ideologies of our era unpacking the worldview issues inherent to each and pointing out essential strengths and weaknesses Writing with broad international perspective Koyzis is a sensible guide for Christians working in the public square culture watchers and all students of modern political thought **The World's Constitution** Adam K. Webb, 2025-01-02 Global governance is tightening and foreshadows that world state formation will become a live political issue in this century Some observers treat it as inevitable amid the urgency of global issues They foresee a technocratic scaling up of the model of state authority that has prevailed at the national level for over two hundred years Many critics and members of the public around the world look askance at that prospect They rightly fear a moral vacuum of authority disconnected from the world's traditions and a concentration of power that would be damaging to liberty or even dystopian in its upshot Still they often merely aim to stand athwart the scaling up of political institutions rather than actively trying to shape an alternative that can seize the global horizon The World's Constitution Spheres of Liberty in the Future Global Order offers a radically different vision of future world order that could work in a global space while shifting the balance of power from state back to society It draws on older resources in political thought both Western and non Western to upend mainstream notions of statehood and sovereignty that have been taken for granted for too long in the modern era It offers an original sphere pluralist framework that can reconcile liberty tradition and cosmopolitanism As a book rooted in the past but mindful of future constitutional and policy challenges it bridges ideas and real world implications with insights that cut across a wide range of topics from migration and social welfare to personal law systems and channels of representation It opens an exciting debate about global constitutional futures that is likely to become more salient over the next couple of generations The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license *The Oxford Handbook of*

Church and State in the United States Derek Davis, 2010-11-18 21 essays present a scholarly look at the intricacies and past and current debates that frame the American system of church and state within 5 main areas history politics sociology theology philosophy and law Reformational Theology Gordon J. Spykman, 1992 Following the Biblical story line of creation fall redemption consummation Spykman's new paradigm systematics represents a notable revision of the traditional loci method Spykman has reordered the basic Christian dogmas in a bold attempt to overcome the rationalist scholastic influences inherent in the older method Christian Librarianship Gregory A. Smith, 2002-09-25 Much of the current library literature assumes that professional library service is necessarily neutral detached from the librarian's philosophical or religious views By contrast contributors to this collection assert that librarianship is best practiced as an outworking of spiritual conviction Accordingly they discuss principles for integrating Christian faith and librarianship within various contexts and reflect on professional issues from biblical and theological perspectives This text will prove beneficial to Christians working in all types of libraries whether religious or secular This compilation of 16 essays is divided into two main parts the first on theory and the second on practice The first part includes chapters such as A Rationale for Integrating Christian Faith and Librarianship The Master We Serve The Call of the Christian Librarian to the Secular Workplace and The Impact of the Christian Faith on Library Service Chapters in the second part include Library Encounters Culture A Christian Approach to Intellectual Freedom in Libraries and Keeping Sunday Special in the Contemporary Workplace Culture Contributors include William Fraher Abernathy Rod Badams Donald G Davis Jr John Allen Delivuk Kenneth D Gill Graham Hedges D Elizabeth Irish James R Johnson Roger W Phillips Gregory A Smith Stanford Terhune John B Trotti John Mark Tucker and Geoff Warren *Religious Schools in America (1986)* Thomas C. Hunt, James Carper, Charles R. Kniker, 2018-06-15 Published in 1986 this selected bibliography considers private schools that are religiously affiliated Divided into several sections the book opens with chapters covering the most influential general books on religion and schooling and offers summaries and analysis of court decisions and commentaries on the issues of government aid and regulation The book goes on to provide entries of the schools operating in the United States by seventeen religious groups entries are annotated by experts from the field The final section of the book considers statements on religious schools made by both public school educators and religious school advocates formal and informal interactions between the public and religious schools and the concept of the education of the public by religious and public schools This work pulls together a wealth of reference material mainly on religious schools and provides a much needed resource for those interested in religious schooling whether researcher scholar student or policy maker **Society, State & Schools** Rockne McCarthy, Calvin Center for Christian Scholarship, 1981 **Conscience and Belief: The Supreme Court and Religion** Kermit L. Hall, 2018-12-07 Available as a single volume or as part of the 10 volume set *Supreme Court in American Society* **School Choice** Herbert J. Walberg, 2007 *School Choice The Findings* is the most comprehensive and up to date survey

available summarizing the research on charter schools vouchers and public versus private school effectiveness The focus is on rigorous studies those using randomized control groups as in medical research those that monitor achievement changes over time and those based on large numbers of students The findings reviewed here go beyond academic achievement covering students civic engagement cost comparisons across school types and public and parental opinion about schools and school choice The consensus of this research overwhelmingly favors competition and parental choice in education

Judicial Review and American Conservatism Robert Daniel Rubin,2017-03-20 Majoritarian Justices The Great Debate The Imperial Judiciary Notes Index *Globalisation, Ideology and Education Reforms* Joseph Zajda,2020-06-17 This book analyses the nexus between ideology the state and education reforms worldwide The research evinces the neo liberal ideological imperatives of current education and policy reforms and illustrates the way these shifts in the relationship between the state and education policy are affecting current trends in education reforms and schooling around the globe With this as its focus the chapters represent hand picked scholarly research on major discourses in the field of global education reforms Offering a compendium of the very latest thought on the subject this book is like the others in the series a state of the art sourcebook for researchers practitioners and policymakers alike Not only do the chapters offer a timely analysis of current issues shaping education policy research the work also contains ideas about future directions that education and policy reforms could take By doing so it provides a comprehensive view of the diverse and intersecting discourses on globalisation and policy driven reforms in education The book draws on recent studies in the areas of globalisation education reforms and the role of the state Respective chapters critically assess the dominant discourses and debates on education and policy reforms Using diverse comparative education paradigms ranging from critical theory to historical comparative research they focus on globalisation ideology and democracy and examine both the reasons for and outcomes of education reforms and policy change Between Memory and Vision Steven C. Vryhof,2004 By closely examining a variety of Protestant schools education expert Steven Vryhof uncovers the complexities subtleties and nuances of faith based education that often elude those concerned only with producing higher test scores a moral environment or a competitive workforce Through candid interviews with parents of children in faith based schools Vryhof also answers questions that other interested parents may have about the benefits of faith based education for their own children Jacket

Rethinking Rights Bruce P. Frohnen,Kenneth L. Grasso,2008-12-24 As reports of genocide terrorism and political violence fill today s newscasts more attention has been given to issues of human rights but all too often the sound bites seem overly simplistic Many Westerners presume that non Western peoples yearn for democratic rights while liberal values of toleration give way to xenophobia This book shows that the identification of rights with contemporary liberal democracy is inaccurate and questions the assumptions of many politicians and scholars that rights are self evident in all circumstances and will overcome any conflicts of thought or interest Rethinking Rights offers a radical reconsideration of the origins nature

and role of rights in public life interweaving perspectives of leading scholars in history political science philosophy and law to emphasize rights as a natural outgrowth of a social understanding of human nature and dignity The authors argue that every person comes to consciousness in a historical and cultural milieu that must be taken into account in understanding human rights and they describe the omnipresence of concrete practical rights in their historical political and philosophical contexts By rooting our understanding of rights in both history and the order of existence they show that it is possible to understand rights as essential to our lives as social beings but also open to refinement within communities An initial group of essays retraces the origins and historical development of rights in the West assessing the influence of such thinkers as Locke Burke and the authors of the Declaration of Independence to clarify the experience of rights within the Western tradition A second group addresses the need to rethink our understanding of the nature of existence if we are to understand rights and their place in any decent life examining the ontological basis of rights the influence of custom on rights the social nature of the human person and the importance of institutional rights Steering a middle course between radical individualist and extreme egalitarian views Rethinking Rights proposes a new philosophy of rights appropriate to today s world showing that rights need to be rethought in a manner that brings them back into accord with human nature and experience so that they may again truly serve the human good By engaging both the history of rights in the West and the multicultural challenge of rights in an international context Rethinking Rights offers a provocative and coherent new argument to advance the field of rights studies

Religion, Public Life, and the American Polity Luis F. Lugo, 2003-06 Religion Public Life and the American Polity brings together ten essays exploring the continuing vitality of religion in American public life Featuring contributions by leading political scientists and legal scholars the volume locates current debates within the broader contexts of history society and constitutional theory The book opens with an investigation of the contending positions on church state relations in current American thought The next section offers fresh reappraisals of the thinking of the Founders especially the contributions of Madison and Jefferson some important challenges to conventional wisdom including the common view of Jefferson as a strict separationist emerge from this section The essays in the third section examine the relationship between religion and the law showing that the courts decisions in First Amendment cases reveal a tendency toward incoherence and majoritarian bias In the final section the discussion extends to the more indirect and subtle ways in which religion and American liberal culture influence each other for better and for worse Taken together these essays shed a much needed light on how the state can accommodate the multiplicity of faiths held by its citizens especially as those faiths take on public expression beyond the institutional church
