Volume 2 (2011) Patrick Michel, Enzo Pace, 2011-08-26 Over the past thirty years religion has increasingly played a relevant role both on a national level and in international affairs The attempt made by politicians to reframe the policy of social cohesion in a neo nationalist light one land one language one religion one political community demising any kind of multiculturalism facilitating instead a return to assimilation shaped by fear of the other culture religion language and so on is very often associated with a restoration of the primacy of religious discourse in the public sphere It is not just a return of religion in the public sphere but the exploitation of religion by politics to reconstruct a social cohesion in the absence of ideological resources *Social Capitalism in Theory and Practice: Emergence of the new majority* Robert Corfe, 2008 The opening volume in a trilogy describes the new heterogeneous middle middle majority who have climbed from proletarian origins as well as those from the upper middle classes whose confidence and affluence have been broken on the wheel of egalitarian forces **MATHEMATICS IN SOCIOLOGY** Dr. Nivetha Martin, Dr. G. scholars see science and politics as mutually exclusive realms where the latter's influence contaminates former's purity Karl Marx's critics often interpret him within this framework where his value laden judgments render his analysis of capitalism moot Though defenders argue that Marx rejects an objective/subjective dichotomy this book offers a different interpretation Through the method of critique Marx examines problems and biases in putatively neutral forms of scientific knowledge specifically models that fail to capture the relations of power and knowledge dominant in capitalist society By incorporating these relations into his abstractions and tracing their historical movement Marx's corrective to malformed approaches to scientific knowledge more readily lays bare capitalist society's exploitative and distortive nature This book demonstrates these principles and applies them to conventional sociological methods theories of religion and class analysis
