The Concept of Race and Psychotherapy Jefferson M. Fish, 2010-11-05 Is our society color blind Trans racial Post racial And what if anything should this mean to professionals in clinical practice with diverse clients The ambitious volume The Concept of Race and Psychotherapy probes these questions compelling readers to look differently at their clients and themselves and offering a practical framework for more effective therapy By tracing the racial folk taxonomies of eight

cultures in the Americas and the Caribbean the author elegantly defines race as a fluid construct dependent on local social political and historical context for meaning but meaningless in the face of science This innovative perspective informs the rest of the book which addresses commonly held assumptions about problem behavior and the desire to change and presents a social science based therapy model applicable to a wide range of current approaches that emphasizes both cultural patterns and client uniqueness Among the highlights of the coverage Common elements in therapy and healing across cultures The psychological appeal of racial concepts despite scientific evidence to the contrary Lessons psychology can learn from anthropology Three types of therapeutic relationships with strategies for working effectively in each The phenomenon of discontinuous change in brief therapy Solution focused therapy from a cross cultural perspective Thought provoking reading for psychologists psychiatrists clinical social workers and other mental health professionals as well as graduate students in these fields The Concept of Race and Psychotherapy affirms the individuality and the interconnectedness of every client

The Psychological and Social Impact of Disability Robert P. Marinelli, 1999 Marinelli and Dell Orto continue the premise of their earlier editions of this widely adopted text and present a realistic perspective on disability Carefully selected articles and personal narratives capture the unique aspects of the psychological and social effects of disability Formatted to include thought provoking study questions and disability awareness exercises this text is recommended for students in rehabilitation counseling and physical therapy education programs as well as professionals in rehabilitation psychology and social work

Becoming Miracle Workers Gale Miller, 2017-11-30 Brief therapy is a postmodern treatment mode that treats problems as social constructions encouraging those seeking treatment to replace personal troubles negative stories with new problem solving skills positive stories The significant differences discussed in this book do not involve sociologists and brief therapists The differences are between brief therapists on the one hand and practitioners of psychotherapy and family therapy on the other One indicator of these is brief therapists describing the people who seek their services as clients The terminology may be contrasted with the language of patients used by many other therapists At the very least this difference suggests how brief therapy departs from therapy approaches that are based on the medical model *Becoming Miracle Workers* takes the reader inside Northland Clinic one of the most innovative and important centers of brief therapy in the world Based on twelve years of research Miller's book discusses how brief therapy has evolved into its present postmodern form He describes the details of brief therapist client interactions and the behind the scenes discussions among brief therapists about their clients problems This readable account of the workings of brief therapy invites readers to sit in on brief therapy sessions provides them with new understandings of personal troubles as social constructions and shows how brief therapists help their clients develop new untroubled life stories

professionals psychotherapists psychologists psychiatrists psychiatric nurses social workers psychoanalysts and group analysts as well as other healthcare professionals such as general practitioners and paediatricians The text will also be useful to students undertaking doctoral courses or attending other courses related to attachment and John Bowlby An Introduction to Systemic Therapy with Individuals Fran Hedges,2005-03-01 A key book in the Basic Texts in Counselling and Psychotherapy series this is an accessible introduction to the benefits and applications of systemic therapy with individuals It builds upon build the growing interest in this approach which unlike many other therapeutic approaches can effectively be employed as a meta theory whilst practitioners continue to work in another main model such as cognitive behavioural or psychodynamic This popular text book provides counselling and psychotherapy students trainees and practitioners new to this approach with a lively accessible and thoroughly practical introduction to the key theoretical concepts and techniques of systemic therapy with individuals *Principles of Neuropsychological Rehabilitation* George P. Prigatano,1999-07-08 Without guiding principles clinicians can easily get lost in the maze of problems that a brain damaged patient presents This book underlines the importance of patients subjective experience of brain disease or injury and the frustration and confusion they undergo It shows that the symptom picture is a mixture of premorbid cognitive and personal characteristics with the neuropsychological changes directly associated with brain pathology By closely observing the patient s behavior the clinician can teach him or her about the direct and indirect effects of brain damage The book provides guidelines both for the remediation of higher cerebral disturbances and the management of patients interpersonal problems It presents a new perspective on disorders of self awareness and recovery as well as deterioration phenomena after brain injury It will be an invaluable resource for psychologists neurologists and psychiatrists involved in neuropsychological rehabilitation The Therapeutic Relationship Petruska Clarkson,2003-11-07 This text provides coverage of the uses and abuses of the therapeutic relationship in counselling psychology psychotherapy and related fields It provides a framework for integration pluralism or deepening singularity with reference to five kinds of therapeutic relationship potentially available in every kind of counselling or psychodynamic work The work incorporates training and supervision perspectives and examples of course design uses in assessment and applications to group and couples as well as to organizations Dealing with an issue of increasing complexity the book should be of value and significance to psychotherapists psychoanalysts clinical and counselling psychologists and other professionals working in the field of helping human relationships such as doctors social workers teachers and counsellors The New Covenant as a Paradigm for Optimal Relations Pablo Polischuk,2016-10-07 The New Covenant as a Paradigm for Optimal Relations regards the New Covenant primarily as a gracious and merciful redemptive deal springing from God s unilateral unconditional and proactive initiative The New Covenant is adopted as representing both a salvific and an exemplary paradigm that displays God s gracious and merciful ways toward his children Ten discrete yet interwoven principles are extracted from interpreted and abstracted from Scriptures pertaining to the promised New Covenant These

principles apply to those who as dearly beloved children are invited to imitate God's loving ways. God's manner of love defines the foundational basis from which the author derives and elaborates the propositions that guide the considerations pertaining to thoughts, feelings, motivations, and behaviors that enter into play in relational transactions. In terms of style, an architectural design permeates the content of this book, offering and encompassing a metacognitive view of God's covenantal ways, a top-down perspective that applies to bottom-up endeavors of relational nature. The challenges posed by our cultural postmodern trends, devoid of absolute principles and lacking a moral compass, are countered and addressed by the author in insightful fashion, offering theologically based guidelines integrated to sound psychological principles applicable to psychotherapeutic and counseling endeavors as well as to pastoral care.

Decisão: perspectivas interdisciplinares

Carlos Henggeler Antunes, 2007-07-01 Este livro revisita o ciclo de conferências sobre Decisão organizado pelo III UC INESC Coimbra e FEUC cujas sessões tiveram lugar em Outubro e Novembro de 2005 que contaram com a participação de quatro cientistas de mérito internacionalmente reconhecido: os Profs Alexis Tsouki (Paris), John Broome (Oxford), Ralph Keeney (Duke) e Paul Slovic (Oregon). Estes cientistas apresentaram quatro perspetivas diversas acerca do tema do ciclo: as da investigação operacional, da filosofia, da análise de decisões e da psicologia, respetivamente. Cada um dos artigos dos conferencistas convidados foi selecionado pelo seu autor como um dos que melhor representaria a perspetiva apresentada na sua palestra. O texto de Slovic descreve a importância que o afeto tem na determinação de juízos e decisões, defendendo que a confiança depositada nesses sentimentos pode ser caracterizada como uma heurística afetiva. O artigo de Tsouki apresenta uma visão retrospectiva sobre a evolução da teoria da decisão para uma metodologia de ajuda à decisão, considerando o autor que todas as teorias da decisão partilham uma característica comum: a utilização de linguagens formais e abstratas e de um modelo de racionalidade, defendendo uma abordagem científica para a ajuda à decisão em problemas enfrentados por indivíduos e organizações. O texto de Keeney sintetiza algumas das principais ideias que preconiza para intervir em situações de decisão neste caso em situações de definição de políticas públicas, advogando e ilustrando a importância de basear a intervenção na elicitação dos valores do público e na sua modelação através de uma função de utilidade multiatributo. O texto de Broome pretende ilustrar os moldes em que o problema de tomada de decisões pode aparecer no âmbito da Filosofia, debruçando-se sobre um tema de longo debate: entre filósofos pode um raciocínio culminar numa ação ou apenas pode culminar numa crença. Cada um destes artigos traduzido para a língua portuguesa acompanhado por um comentário de um autor português, respetivamente Armando Mónica de Oliveira, Manuel Matos João Cláudio e António Manuel Martins. O livro inclui ainda um capítulo introdutório que oferece uma breve panorâmica das disciplinas que se entrecruzam na palavra Decisão.

Images of Pastoral Care

Robert C Dykstra, 2005-01-01 This book is an edited volume of works that have predominated over the past several decades in contemporary pastoral theology. Through the writings of nineteen leading voices in the history of pastoral care, Dykstra shows how each contributor developed a metaphor for understanding pastoral care. Such metaphors include the solicitous shepherd,

the wounded healer the intimate stranger the midwife and other tangible images Through these works the reader gains a sense of the varied identities of pastoral care professionals their struggles for recognition in this often controversial field and insight into the history of the discipline Includes readings by Anton T Boisen Alastair V Campbell Donald Capps James E Dittes Robert C Dykstra Heije Faber Charles V Gerkin Brita L Gill Austern Karen R Hanson Seward Hiltner Margaret Zipse Kornfeld Bonnie J Miller McLemore Jeanne Stevenson Moessner Henri J M Nouwen Gaylord Noyce Paul W Pruyser Edward P Wimberly
