Laws of Human Behavior Donald Pfaff, Sandra Sherman, 2025-03-04 How scientific studies of human behavior can be replicated with the consistency and rigor characteristic of the physical sciences yielding scientific laws In *Laws of Human Behavior* Donald Pfaff and Sandra Sherman argue that many behavioral and neural discoveries verified over the years through precise reliable measurement are tantamount to laws comparable in rigor and replicability to physical laws such as gravity and the second law of thermodynamics Drawing on research in areas including psychophysics various types of conditioning and habit formation and even social behaviors they show how important aspects of the behavioral sciences contribute to laws that should be celebrated now Responding to what some commentators have called a crisis in reliability the authors make a compelling case for the progress that experimental work in areas formerly labeled as soft science has achieved The book is international in scope References range from the early nineteenth century work of Weber to papers published in 2023 In particular the authors cite important accomplishments in the behavioral and neural sciences of the past few decades that support the characterization of these sciences as exact Each chapter of the book has three parts examples of the law's manifestations in everyday life examples of the laboratory science that supports the law and neurobiological results that further support the validity of the law The book also offers clues for understanding where the field of behavioral science is headed The authors intend for the book to be accessible to interested nonscientists

Contingent Lives Caroline H. Bledsoe, 2010-11-15 Most women in the West use contraceptives in order to avoid having children But in rural Gambia and other parts of sub Saharan Africa many women use contraceptives for the opposite reason to have as many children as possible Using ethnographic and demographic data from a three year study in rural Gambia Contingent Lives explains this seemingly counterintuitive fact by juxtaposing two very different understandings of the life course one is a linear Western model that equates aging and the ability to reproduce with the passage of time the other a Gambian model that views aging as contingent on the cumulative physical social and spiritual hardships of personal history especially obstetric trauma Viewing each of these two models from the perspective of the other Caroline Bledsoe produces fresh understandings of the classical anthropological subjects of reproduction time and aging as culturally shaped within women s conjugal lives Her insights will be welcomed by scholars of anthropology and demography as well as by those working in public health development studies gerontology and the history of medicine

Punished by His Love Suzie, She was a destitute woman whose life was dependent on others She was forced to be a scapegoat and traded herself which resulted in her pregnancy He considered that she was the ultimate embodiment of evil as she was greedy and deceitful She tried all her efforts to win his heart but failed Her departure made him so furious that he searched through the ends of the world and managed to recapture her The whole city knew that she would be shredded into a million pieces She asked him in desperation I left our marriage with nothing so why won t you let me go In a domineering tone he answered You ve stolen my heart and given birth to my child and you wish to escape from me

Box Set: Until Proven Innocent and The Unsolved Murder of Adam Walsh Books One and Two Arthur Jay Harris, 2016-06-08 UNTIL PROVEN INNOCENT The prosecutor was no longer sure both murder defendants were guilty So

he asked his dad the real life Kojak A mother s dying gasping call to 911 My husband My baby In her secluded ranch house she d been stabbed with a kitchen knife Her husband infant and elderly father in law had all been shot in the head point blank For three years police had two suspects under surveillance then arrest Both faced the death penalty But prosecutor Brian Cavanagh began to doubt that the defendants were partners So he consulted with his father a retired NYPD cop whose reputation for savvy sleuthing had inspired the creation of one of the most beloved characters in television history Now the question was Could Dad help solve the case THE UNSOLVED MURDER OF ADAM WALSH The famous missing child case of Adam Walsh a 6 year old last seen at a Sears in a shopping mall in Hollywood Florida in July 1981 was the worst nightmare imaginable Two weeks later a child s severed head was found and identified as Adam No one has ever been arrested for the crime For the most part the case s narration has been told by the victims Adam s parents Reve and John Walsh However there has been another voice independent investigative journalist and author of five True Crime books about Florida Arthur Jay Harris who has continued to write about it for two decades and has worked on it with ABC News The Miami Herald and others The deeply researched story he tells disputes almost everything that everyone in the public has been led to believe IN BOOK ONE Harris shows that the taker of Adam was most likely not the drifter Ottis Toole as police now say but rather the serial killer Jeffrey Dahmer who was arrested ten years later with eleven severed heads in his apartment Harris documented him by a police report living near Hollywood as a transient about when Adam disappeared That report had him supposedly finding a dead body in an alley behind where he worked The report referred to a meter and storage room steps away where Harris and ABC News found blood droplets rising up a wall next to a lumberman s axe and a sledgehammer Was this Dahmer s doing Further Dahmer was identified by seven police witnesses who said they saw him at the mall with or near Adam when he was taken One of those witnesses said he saw him throw Adam into a blue van and get away Where Dahmer worked there was a blue van easily and often taken for personal use without permission Early on a blue getaway van was Hollywood s first best clue IN BOOK TWO Harris shows that all the official files are incredibly missing the most customary documents that would prove the ID of the found child who was said to be Adam Among the documents missing are the autopsy report a forensic dental report considering that the ID was strictly based on a tooth comparison and Adam s dental chart and dental X rays An investigation by the Florida Department of Law Enforcement confirmed his finding In fact the ID was not only shoddy and inadequate but is overwhelmingly likely wrong In Adam s last photo he was clearly missing both his top front teeth A police crime scene photo never before published shows the found child had a mostly in buck tooth a top left front tooth Harris consulted a number of pediatric and forensic dental and medical examiner experts who confirmed the obvious there wasn t enough time for Adam to have grown it in that far All that would have been exposed at a court trial but more than 30 years after Adam s disappearance there has never been one Did police end the search for Adam too soon Could Adam still be alive In fact not so impossible Harris found
