Sex Slang Barry Obama, 2018-02-04 Slang is a specialized vocabulary It's all about inside information About belonging

Everyone knows what the term horny means but what's the difference between a freebie list and a hall pass? That's where knowledge of slang comes in. Slang helps to ascertain who is in the know and who is out of the loop. Sexual slang is rampant in any culture. As a simple thought experiment, think of how many slang terms we have for body parts. How many terms are there for fingers? Digits. Phalanges. That's two. Now think about how many terms there are for penis and vagina. And that's the point: sex is what we talk about. This book is organized into three different sections of questions: easy, medium, and high difficulty. This book is not just about interesting questions but also includes detailed answers on where the slang terms originate. Really, what does Bukkake mean in Japanese and how did it even become a thing? Taking tests can be fun, especially if you can learn from the questions that you get wrong. Just like life, so have some fun and learn something.

Sexual Slang Alan Richter, 1995. Provocative, engaging, and informative, this dictionary is packed with more than 4,000 colorful slang words and phrases that have had sexual meaning at some point during the past 500 years. As entertaining as it is informative, Sexual Slang is packed with surprising facts, meanings, and insights sure to liven up anyone's language.

Shakespeare's Sexual Language Gordon Williams, 2006-07-01. Shakespeare's use of sexual language imagery and erotic themes is extensive, varied, and although this is necessarily hard to establish, probably innovative at times. This glossary provides a first-hand guide to Shakespeare's sexual language, some of which is notoriously difficult to unravel and whose roots go back into earlier literature. Compiled by Gordon Williams, author of the authoritative three-volume *Dictionary of Sexual Language and Imagery in Shakespearean and Stuart Literature*, this is a comprehensive but concise reference guide to sexual language and imagery in Shakespeare. Entries are cross-referenced and include references to textual examples where possible.

Language, Gender and Sexual Identity Heiko Motschenbacher, 2010. This book makes an innovative contribution to the relatively young field of Queer Linguistics. Subscribing to a poststructuralist framework, it presents a critical deconstructionist perspective on the discursive construction of heteronormativity and gender binarism from a linguistic point of view. On the one hand, the book provides an outline of Queer approaches to issues of language, gender, and sexual identity that is of interest to students and scholars new to the field. On the other hand, the empirical analyses of language data represent material that also appeals to experts in the field. The book deals with repercussions of the discursive materialisation of heteronormativity and gender binarism in various kinds of linguistic data. These include stereotypical genderlects, structural linguistic gender categories, especially from a contrastive linguistic point of view, the discursive sedimentation of female and feminine generics, linguistic constructions of the gendered body in advertising, and the usage of personal reference forms to create characters in Queer Cinema. Throughout the book, readers become aware of the wounding potential that gendered linguistic forms may possess in certain contexts.
