Smuggling In Kent And Sussex 1700-1840:

The Economy of Kent, 1640-1914 Alan Armstrong, 1995 In recent years historians' interpretations of the economic history of Britain from the seventeenth to the nineteenth century have changed significantly. There is less emphasis on the idea of a cataclysmic industrial revolution pioneered in and confined to the northern and midland counties with increasing amounts of attention devoted to the long neglected economic history of the southern counties. *The Economy of Kent 1640-1914* is the first authoritative survey of the topic. Subjects considered include the population of Kent, its growth, mobility and distribution, agriculture, industry, transport, labour and the importance of the sea to Kent. Its findings suggest that Kent retained its place as an important constituent of the expanding British economy throughout the period and that by its steady economic progress it avoided many of the strains and stresses experienced by counties more directly touched by industrialisation along with the painful processes of readjustment that other regions have faced more recently. ALAN ARMSTRONG is Professor of Economic and Social History at Kent University. The contributors are MARY DOBSON, ALAN ARMSTRONG, GORDON MINGAY, DAVID ORMROD, JAMES PRESTON, THEO BARKER, ROBIN CRAIG, JOHN WHYMAN, CHRISTOPHER CHALKLIN, TOM RICHARDSON, ALAN ARMSTRONG. [Smugglers and Smuggling](#) Trevor May, 2014-08-10 Smuggling was rife in Britain between the seventeenth and mid nineteenth centuries and since then smugglers have come often to be romanticised as cheeky rogues, as highwaymen of the coasts and Robin Hood figures. The reality could be very different. Cut-throat businessmen determined to make a profit, many smugglers were prepared to use excessive force as often as they used cunning and the officers whose job it was to apprehend them were regularly brutally intimidated into inaction. Trevor May explains who the smugglers were, what motivated them, where they operated and how items ranging from barrels of brandy to boxes of tea would surreptitiously be moved inland under the noses of and sometimes even in collusion with the authorities. *Smuggling* Alan L. Karras, 2010 Exploring the history of smuggling around the world, Alan L. Karras traces all aspects of this pervasive and enduring crime. Through a compelling set of cases drawn from a rich array of historical and contemporary sources, Karras shows how smuggling of every conceivable good has shaped the world. [Government and Politics in Kent, 1640-1914](#) H. C. F. Lansberry, 2001 Early modern Kent with emphasis on changes in government from private patronage to a broader commercial and professional power base. This volume, the seventh in the Kent History Project, complements those already published on *The Economy of Kent* and *Religion and Society in Kent between 1640 and 1914*. The volume begins with an important new assessment of the impact of the Civil Wars and Interregnum in Kent which challenges some of the interpretations of previous studies of this period of Kent's history. The major thrust of the volume is, however, the transformation of Kent's government from a system controlled by a small number of landed families into one in which, on the eve of the First World War, a much broader range of people from the commercial, industrial and professional classes was involved. There are also detailed studies of political radicalism in Kent between the late eighteenth and early twentieth

centuries and of the impact of crime and the maintenance of public order The text is supported by appropriate maps tables and contemporary illustrations Contributors BRIAN ATKINSON BRUCE AUBRY JACQUELINE EALES PAUL HASTINGS BRYAN KEITH LUCAS FREDERICK LANSBERRY ELIZABETH MELLING *Protest, Politics and Work in Rural England, 1700-1850* Carl Griffin, 2013-11-28 Rural workers in eighteenth and early nineteenth century England were not passive victims in the face of rapid social change Carl J Griffin shows that they deployed an extensive range of resistances to defend their livelihoods and communities Locating protest in the wider contexts of work poverty and landscape change this new text offers the first critical overview of this growing area of study

Coastal Policing in Eighteenth-Century Britain Hannes Ziegler, 2025-06-10 The first comprehensive study of Britain's coastal policing and administration across the long eighteenth century Throughout Britain's past its coast has presented security concerns Despite this long history of raids smugglers and warfare consistent designated and permanent coastal enforcement bodies were only established in England in the 1690s Initially a reaction to the threats of the Nine Years Wars their creation spoke to a new understanding of The Coast as a politically distinct and liminal space a region neither land nor sea with its own issues and social dynamics that had to be controlled through new more sophisticated methods This study explores the circumstances that both necessitated a formalised policing of coastal areas and influenced the subsequent development of these enforcement bodies showing how their missions and practices fluctuated in relation to key political events and economic policies across the century In doing so the book encompasses a long eighteenth century starting with political developments in the run up to the Glorious Revolution and ending with the overhaul of coastal bureaucracies in the wake of the Napoleonic Wars In conjunction with this larger historical sweep through extensive archival research the book reveals the failures in coastal policing arguing that these

cartographers and legal theorists delimited by state administrators and transgressed by migrants It approaches French and English fishermen smugglers and merchants as transnational actors whose everyday practices were entangled The variation of scales of analysis enriches theoretical and empirical understandings of Anglo French relations and reassesses the question of Britain s deep historical connections with Europe
