Chaudhari,2009-07-30 Wireless sensor networks are set to play a key role in a wide range of civilian and military applications with tiny sensors connected through wireless links performing various sensing computing communication and control tasks in highly distributed systems This book presents a critical element in the deployment of wireless sensor networks the process of synchronization It summarizes the most important clock synchronization protocols proposed for wireless sensor networks with special emphasis placed on deriving efficient clock offset estimation schemes and performance benchmarks Graduate students of electrical and computer engineering and computer science will find this a valuable resource as will engineers who are interested in designing efficient clock synchronization algorithms and improving the performance of existing synchronization protocols

Counter-Terrorism for Emergency Responders Robert A. Burke,2017-10-31 Using the authors many years of experience in emergency services and his skills as a hazardous materials consultant prepares the first responder to handle everything from re establishing control and on scene triage to investigating the crime Including information on pre incident and avoidance tactics the author also discusses monitoring and detection techniques protective equipment and decontamination and an extensive list of resource organizations and training opportunities This up to date 3rd edition is written to provide

concise information for emergency responders who might be called upon to confront explosive chemical nuclear biological or incendiary acts of terrorism **Tennessee Highway Patrol** ,2005 **Bodies in the Making** Nancy N. Chen,2006 In the twenty first century the body is experienced less as a fixed entity than it is as a protean product and a project of technological medical and artistic invention The essays in **Bodies in the Making** Transgressions and Transformations address the proliferation of such transformative practices as tattooing piercing self cutting cosmetic and transsexual surgery prosthetics organ transplants and life extension technologies Establishing links among these varied practices the contributors illuminate the dramatic and widespread changes that have taken place across generations in attitudes towards the relation of the body to the mind to agency and to subjectivity **Bodies in the Making** also addresses a paradox that has shaped recent body modification debates Although physical transformations are usually experienced as self expressive and liberatory they are frequently understood to be socially determined economically driven and culturally enmeshed Contributors to the volume engage this contradiction directly exploring ways in which diverse body practices are capable of subverting power while also at times re inscribing it
