

SNOWY EARTH COMES GLIDING

A photograph of a snowy, rocky landscape. The foreground is a dark, textured rock surface. In the middle ground, there are several snow-covered rocks and patches of snow. In the background, a bright, glowing light source, possibly the sun or moon, is visible, creating a strong lens flare and illuminating the scene. The overall color palette is dominated by the white of the snow, the dark tones of the rocks, and the warm, golden light from the background.
