Gu, Michael Kho Lim, Justin O'Connor, 2020-11-20 This book responds to the lack of Asian representation in creative cities literature. It aims to use the creative cities paradigm as part of a wider process involving first a rapid de-industrialisation in Asia that has left a void for new development models resulting in a popular uptake of cultural economies in Asian cities and second the congruence and conflicts of traditional and modern cultural values leading to a necessary re-interpretation and re-imagining of cities as places for cultural production and cultural consumption. Focusing on the Asian century it seeks to recognise and highlight the rapid rise of these cities and how they have stepped up to the challenge of transforming and regenerating themselves. The book aims to re-define what it means to be an Asian creative city and generate more dialogue and new debate around different urban issues. *Clinical Parapsychology: Extrasensory Exceptional Experiences, 1st Edition* Dr. Theresa M. Kelly, 2015-05-22 Clinical Parapsychology: Extrasensory Exceptional Experiences is a graduate level textbook designed to facilitate more reliable diagnosis, classification, treatment and research. It is designed for clinicians, educators and researchers challenged with investigating into the nature of distressing extrasensory psychic exceptional experiences. This textbook assists in interpreting extrasensory experiences reported in a wide diversity of context that are often viewed as religious, spiritual, anomalous or transpersonal and that vary greatly in subjective experience. This textbook is a valuable resource for both students and experienced professionals and is designed to be utilized by both individuals and educational institutions. Alan Ehrenhalt, The New York Times. In twenty-first century America, some cities are flourishing and others are struggling, but they all must contend with deteriorating infrastructure, economic inequality and unaffordable housing. Cities have limited tools to address these problems and many must rely on the private market to support the public good. It wasn't always this way. For almost three decades after World War II, even as national policies promoted suburban sprawl, the federal government underwrote renewal efforts for cities that had suffered during the Great Depression and the war and were now bleeding residents into the suburbs. In *Saving America's Cities*, Lizabeth Cohen follows the career of Edward J. Logue, a Yale-trained lawyer, rival of Robert Moses and sometime critic of Jane Jacobs. Logue saw renewing cities as an extension of the liberal New Deal. He worked to revive a declining New Haven, became the architect of the New Boston of the 1960s and later led New York State's Urban Development Corporation, which built entire new towns including Roosevelt Island in New York City. Logue's era of urban renewal has a complicated legacy: neighborhoods were demolished and residents dislocated, but there were also genuine successes and progressive goals. *Saving America's Cities* is a dramatic story of heartbreak and destruction, but also

of human idealism and resourcefulness opening up possibilities for our own time Engrossing The Wall Street Journal Cohen sketches Logue vividly illuminating his forcefulness his passion his masculine confidence The Nation A complex portrait The Boston Globe An essential read Library Journal starred review      **Supervision, Management, and Leadership** John E.
