homing in on who your most profitable customers are to determining what needs they have whether articulated or not that are not currently being addressed Using that information companies can create unique products that are differentiated from their competitors to meet those demands Rather than being forced to compete on price they can trump the competition by competing on value offering the options features products and services that better meet an existing demand As a result companies often can actually charge more for what they produce and improve their margins Diving under the hoods of a score of successful Fortune 500 companies that have made demand strategy central to the way they do business including Gatorade Capital One Sara Lee and Sears Kash details how these companies have used this strategy to re create their businesses Ten years ago Reengineering the Corporation brought about a sea change in the way companies were run Now The New Law of Demand and Supply redefines the ground rules of today s economy and gives managers the tools they need to outperform the competition and achieve dramatic growth and profits From the Hardcover edition *Boating* ,1999-08
