Clement Brown, 2013-07-04 First published in 1998 This is Volume VII the final of seven in the Sociology of Mental Health series Written in 1953 this book is about individuals who choose and are chosen for psychiatric social work the use that they make of training and the shaping of their careers when they enter employment **New Developments in Casework** Eileen Younghusband, 2021-11-07 Originally published in 1966 this book gives examples of the most advanced thought about casework by well known writers in England and the United States at the time The ground covered includes the use of some current sociological theory in casework analysis of the interpersonal relationships in casework new thought about the appropriate use of authority with people whose own internal controls are weak and unreliable and recent advances in understanding and working with people who respond to action more easily than to words These articles by well known authorities illustrate the increased range of insight and skill required of modern caseworkers and at the same time are highly readable conveying complex ideas in language refreshingly free from jargon *Social and Moral Theory in Casework (Routledge Revivals)* Raymond Plant, 2009-07-15 First published in 1970 the aim of the book is to map the logical geography of an important set of concepts which enter into the theory of social casework those concerning the individual and society Concepts examined include the individually orientated values of self direction and acceptance and those of role adjustment and integration which express the individual's relation to society The author's main concern is to see whether a coherent theory of the relationship between individual and society can be given in terms of these concepts and to argue that such a theory is fundamental to casework discussion Mr Plant also discusses what if any social or political commitments the activity of casework presupposes and evaluates the view that casework is apolitical *Social Casework*, 1974 The Social Worker Speaks David Burnham, 2016-02-24 The Social Worker Speaks charts the motivations work activities and attitudes of social workers across the country from 1904 to 1989 The book is about workers in the public sector from Poor Law to Social Services Departments probation and workers in the voluntary field including early century philanthropic visiting societies as well as specialist societies such as the Children's Society and the NSPCC Where possible accounts by and the words and thoughts of social workers themselves are used Since the war histories of social work have concentrated on practice theory and methods developments instigated by legislation university training and professional status but there has been little attention paid to who social workers were what they believed what they actually did and what they thought of what they did Also individual social workers appearing in nearly all histories have been leaders managers teachers or academics with people who did the job on the front line accorded barely a mention If part of the aim of this book is to remedy this partial coverage another aim is to offer a more human history of social workers There is too little celebration or humour in what has been published about the history of social workers The Social Worker Speaks deliberately includes stories of how social workers behaved their frustrations and triumphs passions and occasional sins So this is deliberately not a history of social

work but a history of social workers the first of its kind      *Library of Congress Subject Headings* Library of Congress,2009
