Social Anthropology in the Arab World Abdullah Alajmi, Daniele Cantini, Irene Maffi, Imed Melliti, 2025-08-01 There are ongoing efforts in anthropology to decolonise its history and give fairer space to marginalised traditions This book examines the history and institutionalisation of anthropology in the Maghreb the Mashreq and the Gulf in an open and

collaborative manner and from various perspectives Its primary focus is two fold first to reorient the anthropological focus towards studies conducted in the region particularly on the conditions conducive to the institutionalisation of anthropological knowledge second to shed light on anthropological studies in languages other than English offering different theoretical and epistemological perspectives *An Introduction to Social Anthropology* Clark Wissler,1929 **Reason and Morality**

Joanna Overing,2003-12-16 First Published in 1985 What is the place of reason and conversely of the unreasonable the contradictory the emotional and the chaotic in social life What is the nature of general human rationality Are there such things as incommensurable world views How efficacious are typologies or modes of thought or cognitive styles These are some of the controversies addressed by the contributors to this volume which draws together papers from the 1984 Malinowski Centennial Conference of the ASA The Voice of Prophecy Edwin Ardener,2017-10 Edwin Ardener a new

expanded edition of the collected works of one of the most important social anthropologists in Britain of his time Ardener worked on social economic demographic and political problems and was particularly influential in his sustained effort to bring together social anthropology and linguistics in a highly original attempt to reconcile scientific and humanistic approaches to the study of society This volume offers a theoretically and conceptually coherent body of work by this innovative and profound thinker which will continue to excite and stimulate new generations of students and researchers as it has in the past **Linguistic Anthropology of Education** Stanton E.F. Wortham,Betsy Rymes,2003 Over the years

linguistic anthropological research has shown how classrooms are socializing institutions and how language functions as one medium through which this socialization is accomplished Early work in the field has captured the immediacy of social practice and language use in educational contexts and has created useful characterizations of variations in communicative competence The present work builds on the strengths of prior work showing how new theoretical concepts and empirical methods developed in linguistic anthropology over the last decade can further illuminate educational settings The authors introduce an updated Linguistic Anthropology of Education which recognizes that in the rapidly changing field of cultural production within which children and teachers operate today the exploration of multiple pre existing forms of communicative competence is not enough This volume elaborates theory and illustrates the tools and practices of the Linguistic Anthropology of Education to account for today s research context in which the multiplicity of identity and the multiple ways language can be used to represent it have important ramifications for how learning and social reproduction emerge within educational contexts **Towards a Social Grammar of Language** Mathew C.
