Social Conceptions of Time

Structure and Process in
Work and Everyday Life

Edited by
Graham Crow and Sue Heath

Social Conceptions Of Time

**William Bowden, Adam
Gutteridge, Carlos Machado**

Social Conceptions Of Time:

Social Conceptions of Time G. Crow, S. Heath, 2002-08-05 This book is concerned with the significance of time in work and everyday life The contributors are among the foremost authorities in the field and their up to date contributions consider the changing social meanings that time has in work leisure and everyday routines Together they provide a combination of theoretical and empirically based approaches that reveal the social significance of time in all aspects of everyday lives

The Forgotten God Paul J. Achtemeier, A. Andrew Das, Frank J. Matera, 2002-01-01 This volume provides a comprehensive survey of the unity and diversity behind biblical conceptions of God This is accomplished by respecting the distinctive theology of each canonical book and by placing reflection about God in conversation with major themes of biblical theology Christology pneumatology anthropology Four essays examine the Old Testament images of God while ten essays address the way in which God is presented in the New Testament The volume is rounded off with an essay exploring biblical preaching about God

Social and Political Life in Late Antiquity - Volume 3.1 William Bowden, Adam Gutteridge, Carlos Machado, 2006-12-31 This book examines a number of themes relating to social and political life in Late Antiquity The first part of the book considers how the powers of the emperor state and civic authorities were expressed in the physical environment and how coinage and material culture were caught up in the political life of the period The second part investigates the middle classes and the poor who are often less visible in archaeological textual and epigraphic records Other articles consider such topics as long term social evolution and the definition of time in Late Antiquity Two extensive bibliographic essays provide an overview of published literature relating to social and political life

Time, Memory, and the Processual Approach in Historical Sociology Jiří Šubrt, 2024-02-01 Within this publication which is published to commemorate a milestone in Ji ubrt s life the editor Lucy C sa Brown has organised selected contributions by the author into four thematic areas a historical sociology its development content and professional focus b sociological issues of time temporality and collective memory c theoretical discussions concerning conceptual problems and dilemmas in contemporary social sciences d developmental trends affecting the shape of contemporary societies and their historical development What connects these thematic areas into one whole giving the book a unified character is ubrt s approach to sociology which emphasises the historical and processual perspective

Conceptualising the Social World John Scott, 2011-06-23 This comprehensive and authoritative statement of fundamental principles of sociological analysis integrates approaches that are often seen as mutually exclusive John Scott argues that theorising in sociology and other social sciences is characterised by the application of eight key principles of sociological analysis culture nature system structure action space time mind and development He considers the principal contributions to the study of each of these dimensions in their historical sequence in order to bring out the cumulative character of knowledge Showing that the various principles can be combined in a single disciplinary framework Scott argues that sociologists can work most productively within an intellectual division of labour that

transcends artificial theoretical and disciplinary differences Sociology provides the central ideas for conceptualising the social but it must co exist productively with other social science disciplines and disciplinary areas **Complexity Theory and the Social Sciences** David Byrne,Gillian Callaghan,2013-09-11 For the past two decades complexity has informed a range of work across the social sciences There are diverse schools of complexity thinking and authors have used these ideas in a multiplicity of ways from health inequalities to the organization of large scale firms Some understand complexity as emergence from the rule based interactions of simple agents and explore it through agent based modelling Others argue against such restricted complexity and for the development of case based narratives deploying a much wider set of approaches and techniques Major social theorists have been reinterpreted through a complexity lens and the whole methodological programme of the social sciences has been recast in complexity terms In four parts this book seeks to establish the state of the art of complexity informed social science as it stands now examining the key issues in complexity theory the implications of complexity theory for social theory the methodology and methods of complexity theory complexity within disciplines and fields It also points ways forward towards a complexity informed social science for the twenty first century investigating the argument for a post disciplinary open social science Byrne and Callaghan consider how this might be developed as a programme of teaching and research within social science This book will be particularly relevant for and interesting to students and scholars of social research methods social theory business and organization studies health education urban studies and development studies **Explaining Social Processes** Jiří Šubrt,Alemayehu

Kumsa,Massimiliano Ruzzeddu,2020-08-18 This textbook considers understanding social processes to be the main task of sociology From this perspective its authors demonstrate and explain problems which they consider to be crucial for contemporary social science These are topics of a theoretical and epistemological nature which are nevertheless closely connected with social development and issues arising from it The book moves from the more general theoretical questions and dilemmas raised by key social thinkers such as those connected with the concepts of actor agency institutions structures and systems It then leads to theoretical reflections on long term developmental processes associated with the phenomena of power and life in current societies including globalization identities migration etc It provides a comprehensive approach to the essential questions of sociology Lucidly written and including the latest sociological perspectives this book will find wide appeal among social science students and researchers and is also for the socially aware general reader **Congress of Arts**

and Science: Economics. Politics. Jurisprudence. Social Science Howard Jason Rogers,1906 Social Experience and Anthropological Knowledge Kirsten Hastrup,Peter Hervik,2003-12-16 Anthropology poses an explicit challenge to standard notions of scientific knowledge It claims to produce genuine insights into the workings of culture in general on the basis of individual social experience in the field Social Experience and Anthropological Knowledge traces the process from the ethnographic experience to the analytical results showing how fieldwork enables the ethnographer to arrive at an

understanding not only of culture and society but also of the processes by which cultures and societies are transformed. The contributors challenge the distinction between subjectivity and objectivity, redefine what we should mean by empirical and demonstrate the complexity of present day epistemological problems through concrete examples. By demystifying subjectivity in the ethnographic process and re-emphasizing the vital position of fieldwork, they do much to renew confidence in the anthropological project of comprehending the world.

Decent Working Time International Labour Office, 2006. Including international comparative analysis alongside national case studies, this volume offers a wealth of information on the new trends which have emerged over the past decades, all of which were discussed at the recent 9th International Symposium on Working Time, Paris 2004. It looks at the increasing use of results-based employment relationships for managers and professionals and the increasing fragmentation of time to more closely tailor staffing needs to customer requirements, e.g. short hours, part-time work. Moreover, as operating opening hours rapidly expand toward a 24-hour and 7-day economy, the book considers how this has resulted in a growing diversification, decentralization, and individualization of working hours, as well as an increasing tension between enterprises' business requirements and workers' needs and preferences regarding their hours. This new reality has raised some other challenging issues as well, and the volume addresses those such as increasing employment insecurity and instability, time-related social inequalities, particularly in relation to gender, workers' ability to balance their paid work with their personal lives, and even the synchronization of working hours with social times such as community activities.

Rethinking Marketing Douglas Brownlie, 1999-03-23. This is an important text. It brings together critical reflections on the discipline's contribution in terms of theory, practice, and pedagogy, and as such is equally as insightful and challenging as some of its recent predecessors, e.g. Brown et al. 1996, Brown and Turley 1997, Brown 1998. The book represents a useful point of departure for those setting off on their own critical journeys, and thus it should be included on the reading lists of all those carrying out masters or doctoral research in marketing. *Journal of Marketing Management*. This book provides a challenging and stimulating coverage of a broad range of key issues in contemporary marketing, such as marketing philosophy, marketing ethics, the market.

Handbook of Aging and the Social Sciences Robert H. Binstock, Linda K. George, Stephen J. Cutler, Jon Hendricks, James H. Schulz, 2011-05-05. The *Handbook of Aging and the Social Sciences*, Sixth Edition, provides a comprehensive summary and evaluation of recent research on the social aspects of aging. The 25 chapters are divided into four sections: Aging and Time, Aging and Social Structure, Social Factors, and Social Institutions. Within this context, aging is examined from the perspectives of many disciplines and professions, including anthropology, bioethics, demography, economics, epidemiology, law, political science, psychology, and sociology. The Sixth Edition of the *Handbook* is virtually 100% new material. Seventeen chapters are on subjects not carried in the previous edition. Seven topics were carried over from the previous edition but written by new authors with fresh perspectives and brought up to date. Some of the exciting new topics include social relationships in late life, technological change, and aging.

religion and aging lifestyle and aging perceived quality of life economic security in retirement and aging and the law There is also a greater emphasis on international perspectives particularly in chapters on aging and politics diversity and aging and immigration The Handbook will be of use to researchers and professional practitioners working with the aged It is also suitable for use as a course text for graduate and advanced undergraduate courses on aging and the social sciences

Time, Capitalism and Alienation Jonathan Martineau, 2015-05-12 In *Time Capitalism and Alienation A Socio Historical Inquiry into the Making of Modern Time* Jonathan Martineau offers an account of the histories of social time in Europe from the innovation of the clock around 1300 to the making of World Standard Time around the turn of the twentieth century Approaching time as a social phenomenon traversed by various power and property relations this work provides a socio theoretical and historical analysis of the relationship between clock time and capitalist social relations problematizing the rise to hegemony of a clock time regime harnessing various social temporalities to the purpose of capitalist development This book sheds light on the alienating tendencies of the modern temporal regime and the relationship between time and modern economic development

Interpretive Archaeology Julian Thomas, 2001-01-01 New forms of archaeology are emerging which position the discipline firmly within the social and cultural sciences These approaches have been described as post processual or interpretive archaeology and draw on a range of traditions of enquiry in the humanities from Marxism and critical theory to hermeneutics feminism queer theory phenomenology and post colonial thinking This volume gathers together a series of the canonical statements which have defined an interpretive archaeology Many of these have been unavailable for some while and others are drawn from inaccessible publications In addition a number of key articles are included which are drawn from other disciplines but which have been influential and widely cited within archaeology The collection is put into context by an editorial introduction and thematic notes for each section

Philosophy and Temporality from Kant to Critical Theory Espen Hammer, 2011-03-31 This book is a critical analysis of how key philosophers in the European tradition have responded to the emergence of a modern conception of temporality Espen Hammer suggests that it is a feature of Western modernity that time has been forcibly separated from the natural cycles and processes with which it used to be associated In a discussion that ranges over Kant Hegel Schopenhauer Nietzsche Heidegger and Adorno he examines the forms of dissatisfaction which result from this together with narrative modes of configuring time the relationship between agency and temporality and possible challenges to the modern world's linear and homogenous experience of time His study is a rich exploration of an enduring philosophical theme the role of temporality in shaping and reshaping modern human affairs

Space and Social Theory Andrzej J L Zieleniec, 2007-10-29 The importance of the spatial dimension of the structure organization and experience of social relations is fundamental for sociological analysis and understanding Space and Social Theory is an essential primer on the theories of space and inherent spatiality guiding readers through the contributions of key and influential theorists Marx Simmel Lefebvre Harvey and

Foucault Giving an essential and accessible overview of social theories of space this book shows why it matters to understand these theorists spatially It will be of interest to upper level students and researchers of social theory urban sociology urban studies human geography and urban politics

Pitirim A. Sorokin Barry V. Johnston, 1995 Pitirim A. Sorokin 1889-1968 was one of the most original important and controversial figures in American sociology His spectacular rise from a peasant childhood in Czarist Russia to the Olympian heights of Harvard University provides an unlikely and fascinating lens for examining the history of an entire discipline And as Barry Johnston shows his equally dramatic fall from favor and unexpected resurrection illuminate both Sorokin's life and the tempestuous world of academic politics An outspoken revolutionary and secretary to Alexander Kerensky Sorokin was imprisoned and ordered executed by Lenin then reprieved and exiled During the 1920s he flourished as a teacher and scholar at the University of Minnesota where he published several pioneering books on the Russian Revolution social mobility sociological theory and rural sociology Harvard president A. Lawrence Lowell was so impressed that he recruited Sorokin to chair the university's first department of sociology From 1930 to 1944 the department prospered under Sorokin's leadership attracting an entire generation of young scholars who in their own right would have a profound impact on the discipline In this period Sorokin published several volumes of his magnum opus *Social and Cultural Dynamics* and became embroiled in a bitter battle with rival Talcott Parsons for control of the department Parsons ultimately deposed Sorokin and transformed sociology into the Department of Social Relations Sorokin nevertheless stayed on at Harvard where he established the Center for Creative Altruism but otherwise continued to work in relative obscurity Finally in 1963 after years in eclipse Sorokin was recognized for his accomplishments when he was elected president of the American Sociological Association During a long and distinguished career Sorokin amassed an amazingly diverse and substantial body of work much of which set the standard for the field At the same time he broke with the conventions of sociology frequently ridiculing and taunting his less adventurous colleagues For his heresy the flamboyant Sorokin was condemned and driven to the periphery of a profession anxious for legitimacy as a science As a result Sorokin's ideas have been consistently ignored and misunderstood for more than a quarter century Based on exhaustive research in Sorokin's papers and the Harvard archives as well as interviews with Sorokin's surviving family members former students and colleagues this biography restores Sorokin to his rightful place in the pantheon of American intellectuals

Qualitative Analysis for Social Scientists Anselm L. Strauss, 1987-06-26 The teaching of qualitative analysis in the social sciences is rarely undertaken in a structured way This handbook is designed to remedy that and to present students and researchers with a systematic method for interpreting qualitative data whether derived from interviews field notes or documentary materials The special emphasis of the book is on how to develop theory through qualitative analysis The reader is provided with the tools for doing qualitative analysis such as codes memos memo sequences theoretical sampling and comparative analysis and diagrams all of which are abundantly illustrated by actual examples drawn from the

author's own varied qualitative research and research consultations as well as from his research seminars. Many of the procedural discussions are concluded with rules of thumb that can usefully guide the researchers' analytic operations. The difficulties that beginners encounter when doing qualitative analysis and the kinds of persistent questions they raise are also discussed, as is the problem of how to integrate analyses. In addition, there is a chapter on the teaching of qualitative analysis and the giving of useful advice during research consultations, and there is a discussion of the preparation of material for publication. The book has been written not only for sociologists but for all researchers in the social sciences and in such fields as education, public health, nursing, and administration who employ qualitative methods in their work. Design

Anthropology in Context Adam Drazin, 2020-12-29 This book explores the broad territory of design anthropology, covering key approaches, ways of working, and areas of debate and tension. It understands design as fundamentally human-centred and argues for a design anthropology based primarily on collaboration and communication. Adam Drazin suggests the most important collaborative knowledges which design anthropology develops are heuristic, emerging as engagements between fieldwork sites and design studios. The chapters draw on material culture literature and include a wide range of examples of different projects and outputs. Highlighting the importance of design as a topic in the study of contemporary culture, this is valuable reading for students and scholars of anthropology and design, as well as practitioners. **Karl Marx, Historian of**

Social Times and Spaces George García-Quesada, 2021-10-25 Through a discussion with current perspectives in philosophy of history, especially with a critical approach to Paul Ricœur's work and a rigorous reading of Karl Marx's oeuvre, Karl Marx: Historian of Social Times and Spaces proposes an interpretation of Marx's concept and method of historical knowledge. In this sense, the examination of Marx's concepts of social space and social time serve to highlight the possibilities of his work in terms of the explanation of the dynamics of complex, multilinear development of human societies and of capitalism in particular.
