just go out and that's that Or will some part of my personality my me ness persist This work seeks answers from a varied crew of modern and historical soul searchers scientists schemers engineers mediums all trying to prove or disprove that life goes on after we die **The Spiritual Anatomy of Emotion** Michael A. Jawer, 2009-05-21 A cutting edge examination of

feelings not thoughts as the gateway to understanding consciousness Contends that emotion is the greatest influence on

personality development Offers a new perspective on immunity stress and psychosomatic conditions Explains how emotion is key to understanding out of body experience apparitions and other anomalous perceptions Contemporary science holds that the brain rules the body and generates all our feelings and perceptions Michael Jawer and Dr Marc Micozzi disagree They contend that it is our feelings that underlie our conscious selves and determine what we think and how we conduct our lives The less consciousness we have of our emotional being the more physical disturbances we are likely to have from ailments such as migraines fibromyalgia chronic fatigue and post traumatic stress to anomalous perceptions such as apparitions and involuntary out of body experiences Using the latest scientific research on immunity sensation stress cognition and emotional expression the authors demonstrate that the way we process our feelings provides a key to who is most likely to experience these phenomena and why They explain that emotion is a portal into the world of extraordinary perception and they provide the studies that validate the science behind telepathic dreams poltergeists and ESP The Spiritual Anatomy of Emotion challenges the prevailing belief that the brain must necessarily rule the body Far from being by products of neurochemistry the authors show that emotions are the key vehicle by which we can understand ourselves and our interactions with the world around us as well as our most intriguing and perennially baffling experiences **Tell My Mother I'm Not Dead**

Trevor Hamilton,2012-10-08 This book divides into two parts The first is a personal narrative of the impact of the death of the author's son Ralph on him and his family and his efforts to see if there was any evidence for his continued existence generated largely through visits to mediums that a thinking person could take seriously The second is an attempt to evaluate that evidence objectively based on an extensive survey of current and past scientific research in the UK and the USA The title reflects the inevitable tension between emotion and intellect in such an enquiry *Opening Heaven's Door* Patricia

Pearson,2015-05-19 Nearing Death Awareness is a phenomenon rarely discussed by those who have experienced it and often dismissed by our culture because it defies science or logic Yet roughly half of bereaved people as well as nurses and others who constantly observe the dying have stories of coincidental visions at the exact moment of a loved one's death comforting visits from a departed friend in an hour of need and observations of the uncanny precision with which the dying predict their own deaths even when they appear to the trained eye to be on the brink of recovery These surprisingly common occurrences point toward a larger spiritual reality and the reality of life or something else after death They also have the power to console and comfort us and to transform our understanding of mortality Prompted by her own family's experiences surrounding the deaths of her father and sister journalist Patricia Pearson examines the scientific and anecdotal evidence to challenge current assumptions regarding what we know and what we are still unable to explain about what happens to us at the threshold of death Adapted from publisher description *Religion as Art Form* Carl L.
