

Sport, Nationalism and Globalization. European and North American Perspectives

By Alan Bairner. Published 2001 by State University of New York Press, Albany, NY. (207 pp., \$18.95)

Reviewed by Mark Falouts, Lecturer in the Sociology of Sport, Chester College, England

Social scientists have long documented the prominent symbolic role of sport in expressions of national identities. *Sport, Nationalism and Globalization* develops such observations by considering the relationship between sport and nation in the context of ongoing globalization processes. In doing so, the author also contributes to a body of literature that has emerged within the sociology of sport in recent years, concerning heightened global interconnectedness. Several recent books have dealt with the range of issues surrounding "global sport" (Maguire, 1999; Miller et al, 2000). Alan Bairner's book makes a contribution by focusing upon one of the paradoxes of heightened worldwide interdependence; that is, the way the apparent "certainty" underpinning national culture and identities can be threatened by the cultural encounters contingent upon globalization. The consequence of the subsequent "dislocation" is, frequently, resistance from those who cling to more intense versions of identity. This has been one of the most volatile features of globalization processes, with sport frequently fulfilling a potent symbolic role in expressions of "nationalisms."

Bairner approaches his topic with two related concerns: to consider the role of sport in the construction, expression and reproduction of national identities and to evaluate the extent to which globalizing tendencies are exerting pressures on the varied manifestations of sporting nationalisms. He addresses these concerns with an introduction that outlines the conceptual complexity associated with the sport-nationalism-globalization juncture. Theoretically, Bairner rejects visions of Americanization and cultural imperialism as linked with uni-directional understandings of cultural flows and influence. In doing so, he aligns himself with those who conceive of globalization as characterized by multi-directional and countervailing flows characterizing both homogeneity and heterogeneity, most notably Maguire (1999).

This groundwork is followed by exploration of a range of specific national contexts. The subtitle: *European and North American Perspectives* delimits the scope of Bairner's ambition in this regard. Two chapters are devoted to Ireland, whilst individual chapters address Scotland, the United States, Canada and Sweden. These case studies are constituted of a range of methodological approaches, incorporating, "direct observation, participant observation and historical study" (p. xviii). Finally, the opening discussion and conceptual debates are revisited within a final chapter, in light of the case studies presented.

The case studies are thorough, drawing upon an impressive range of literature. Each national context is well grounded in historical contextualizing, followed by observations regarding global processes as a feature of the increased complexity of sporting nationalisms. For example, Bairner details the manner in which the 'success' of soccer to take root in the US outside dominant national culture, is also a limiting factor to its future cultural presence. Sport in Films Emma Poulton, Martin Roderick, 2019-05-30 Sport offers everything a good story should have heroes and villains triumph and disaster achievement and despair tension and drama Consequently sport makes for a compelling film narrative and films in turn are a vivid medium for sport Yet despite its regularity as a central theme in motion pictures constructions and representations of sport and athletes have been marginalised in terms of serious analysis within the longstanding academic study of films and documentaries In this collection it is the critical study of film and its connections to sport that are examined The collection is one of the first of its kind to examine the ways in which sport has been used in films as a metaphor for other areas of social life Among the themes and issues explored by the contributors are Morality tales in which good triumphs over evil The representation and ideological framing of social identities including class gender race and nationality The representation of key issues pertinent to sport including globalization politics commodification consumerism and violence The meanings spoken by films and the various readings which audiences make of them This is a timely collection that draws together a diverse range of accessible insightful and ground breaking new essays This book was published as a special issue of Sport in Society

Rooting for the Home Team Daniel A. Nathan, 2013-05-01 Rooting for the Home Team examines how various American communities create and maintain a sense of collective identity through sports Looking at large cities such as Chicago Baltimore and Los Angeles as well as small rural towns suburbs and college towns the contributors consider the idea that rooting for local athletes and home teams often symbolizes a community's preferred understanding of itself and that doing so is an expression of connectedness public pride and pleasure and personal identity Some of the wide ranging essays point out that financial interests also play a significant role in encouraging fan bases and modern media have made every seasonal sport into yearlong obsessions Celebrities show up for big games politicians throw out first pitches and taxpayers pay plenty for new stadiums and arenas The essays in Rooting for the Home Team cover a range of professional and amateur athletics including teams in basketball football baseball and even the phenomenon of no glove softball Contributors are Amy Bass Susan Cahn Mark Dyreson Michael Ezra Elliott J Gorn Christopher Lamberti Allison Lauterbach Catherine M Lewis Shelley Lucas Daniel A Nathan Michael Oriard Carlo Rotella Jaime Schultz Mike Tanier David K Wiggins and David W Zang

Sport, Tourism and National Identities John Harris, 2016-03-23 The role of both sport and tourism in the re creation and re presentation of national identities is well established yet relatively little work has critically explored the inter relationship between sport tourism and the creation and maintenance of national identities Despite the advances of globalization the nation continues to be an important part of both sport and tourism discourse and offers fertile ground for the exploration of identities in postmodern society The chapters in this collection consider the significance of important sports events and how this is

understood in relation to the collective identities of some countries Authors outline some of the ways in which the nation matters and consider how and why national identities are important in contemporary sport tourism This book was originally published as a special issue of the Journal of Sport Tourism
