**John Sugden, Alan Bairner**

## **Sport Sectarianism And Society In Ireland:**

*SPORT, SECTARIANISM AND SOCIETY* John Sugden, Alan Bairner, 1995-01-01 This text examines the political nature of sport and leisure in Northern Ireland as an often overlooked aspect of the divided community The politics of partition are integral to the rivalry between clubs to the support the clubs receive and even to the very choice of games played and watched

**Sport, Sectarianism and Society in a Divided Ireland** John Sugden, 1993 *Power Games* John

Sugden, Alan Tomlinson, 2013-10-11 Critical and radical perspectives have been central to the emergence of the sociology of sport as a discipline in its own right This ground breaking new book is the first to offer a comprehensive theory and method for a critical sociology of sport It argues that class political economy hegemony and other concepts central to the radical tradition are essential for framing understanding and changing social and political relations within sport and between sport and society The book draws upon the disciplines of politics sociology history and philosophy to provide a critical analysis of power relations throughout the world of sport while offering important new case studies from such diverse sporting contexts as the Olympics world football boxing cricket tennis and windsurfing In the process it addresses key topics such as nations and nationalism globalisation race gender political economy *Power Games* can be used as a complete introduction to the study of sport and society And will be essential reading for any serious student of sport At the same time it is a provocative book that by argument and example challenges those who research and write about sport to make their work relevant to social and political reform

**Association Football and Society in Pre-partition Ireland** Neal Garnham, 2004 Association football has consistently been the most popular sport in Ireland at whatever level it is played amateur or professional But the game itself has uncertain roots This book analyzes in detail the evidence of the development of football in Ireland from its origins to the partition of both the country and the game

**Religion, Civil Society, and Peace in Northern Ireland** John D. Brewer, Gareth I. Higgins, Francis Teeney, 2011-12 Religion is traditionally portrayed as nothing but trouble in Ireland but the churches played a key role in Northern Ireland's peace process This study challenges many existing assumptions about the peace process drawing on four years of interviewing with those involved including church leaders politicians and paramilitary members

*Sport, Politics and Society in the Land of Israel* Yair Galily, Amir

Ben-Porat, 2013-10-31 The state of Israel is a home for a widely diverse population from many different ethnic religious cultural and social backgrounds a new society with ancient roots which is still coalescing and developing today Israeli sport maybe more than any other cultural phenomenon has changed radically since the establishment of the state of Israel in 1948 Over the past six decades Israeli sport has evolved from an amateur hobby of a few sports freaks to a passion of the masses The transformation to a major cultural phenomenon is the result of general developments in Israeli and international society

The aim of the book is to shed light on those processes that shaped the Israeli sport arena Following the steps of numerous research perspectives that considers sports as text within a socio historical context this book deals with the development of Israeli sports in Palestine and later the State of Israel as a text or a narrative which was contingent on the socio historical context In seeking to comprehend these processes this book is divided into three parts The Palestine period the early stage of statehood and the matured period which began in and around the early 1980s Each period is narrated by the major participants and the major political economical parameters which as it is argued shaped Israeli sport This book was published as a special issue of the Israeli Affairs

*The Other Saudis* Toby Matthiesen, 2015 This book traces the politics of the Shia in the oil rich Eastern Province of Sunni dominated Saudi Arabia since the nineteenth century

Vain Games of No Value? Terry Morris, 2016-03-03 It should be unthinkable to write the social history of Britain from the late nineteenth century onwards without reference to association football Yet by the time that the Football Association celebrated its centenary year in 1963 no serious academic analysis had been undertaken of the sport and of the various channels by which it had developed in different parts of the country By the time that historians began to tackle that task its complexity and diversity were such that it could only be undertaken in installments Studies emerged that focused upon individual clubs and specific regions or which were limited to narrow time scales No work examined the long century from the 1860s to the 1970s in full This book analyses the growth of British football in all its aspects the developments of the football crowd the status of the professional player womens football the difficult survival of amateurism to mention but a few It also highlights the factors that contributed to diverse developmental paths in different parts of the country The author has used the widest range of source materials to achieve a broader overview of the games history than has previously been attempted

The Origins of Sectarianism in Early Modern Ireland Alan Ford, John McCafferty, John David McCafferty, 2005-12-08 Ireland is riven by sectarian hatred This simple assumption provides a powerful explanation for the bitterness and violence which has so dominated Irish history Most notably the troubles in Northern Ireland have provided fertile ground for scholars from all disciplines to argue about and explore ways in which religious division fueled the descent into hostility and disorder In much of this literature however sectarianism is seen as somehow a given in Irish history an inevitable product of the clash of the Reformation and Counter Reformation something which sprang fully formed into existence in the sixteenth century In this book leading historians provide a detailed analysis of the ways in which rival confessions were developed in early modern Ireland the extent to which the Irish people were indeed divided into two religious camps by the mid seventeenth century and also their surprising ability to transcend such stark divisions
