Description :

Vivian Grisogono passes on years of experience as a sports participant and physiotherapist, making this book, now completely updated, the most effective guide to coping with injuries and getting back to sport. The first-aid and immediate self-help measures you should take for any injury, before you manage to see a medical practitioner, are described. Following diagnosis, rehabilitation principles for each injury are given, from the very early stages of recovery, through to your return to sport. For tendon and muscle injuries, the progression starts with passive stretching for flexibility, then you re-strengthen the injured muscle group, until the final stage when you
