The Arab Spring Edward A. Lynch, 2021-06-18 This title provides a succinct readable and comprehensive treatment of how the Obama administration reacted to what was arguably the most difficult foreign policy challenge of its eight years in office the Arab Spring As a prelude to examining how the United States reacted to the first wave of the Arab Spring in the 21st century this book begins with an examination of how the U S reacted to revolution in the 19th and 20th centuries and a summary of how foreign policy is made Each revolution in the Arab Spring in Tunisia Egypt Libya Syria Bahrain and Yemen and the Obama administration s action or inaction in response is carefully analyzed The U S role is compared to that of regional powers such as Turkey Israel and Iran The impact of U S abdication in the face of pivotal events in the region is the subject of the book s conclusion While other treatments have addressed how the Arab Spring revolutions have affected the individual countries where these revolutions took place U S foreign policy toward the Middle East and President Barack Obama s overall foreign policy this is the only work that provides a comprehensive examination of both the Arab Spring revolutions themselves and the reaction of the U S government to those revolutions

Arab Spring I. William Zartman, 2015 Beginning in January 2011 the Arab world exploded in a vibrant demand for dignity liberty and achievable purpose in life rising up against an image and tradition of arrogant corrupt unresponsive authoritarian rule These previously unpublished countryspecific case studies of the uprisings and their still unfolding political aftermaths identify patterns and courses of negotiation and explain why and how they occur The contributors argue that in uprisings like the Arab Spring negotiation is not just a nice practice or a diplomatic exercise Rather it is a dynamically multilevel process involving individuals groups and states with continually shifting priorities and with the prospect of violence always near From that perspective the essays analyze a range of issues and events including civil disobedience and strikes mass demonstrations and nonviolent protest and peaceful negotiation and armed rebellion and contextualize their findings within previous struggles both within and outside the Middle East The Arab countries discussed include Algeria Bahrain Egypt Libya Morocco Syria Tunisia and Yemen The Arab Spring uprisings are discussed in the context of rebellions in countries like South Africa and Serbia while the Libyan uprising is also viewed in terms of the negotiations it provoked within NATO Collectively the essays analyze the challenges of uprisers and emerging governments in building a new state on the ruins of a liberated state the negotiations that lead either to sustainable democracy or sectarian violence and coalition building between former political and military adversaries Contributors Samir Aita Monde Diplomatique Alice Alunni Durham University Marc Anstey Nelson Mandela University Abdelwahab ben Hafaiedh MERC
