Springfield 350 Years A Pictorial History:

Springfield--350 Years Donald J. D'Amato, 1985 Lost Springfield, Massachusetts Derek Strahan, 2017 At the end of the nineteenth century the U S Armory opened in Springfield spurring rapid growth With that golden age of progress came iconic buildings and landmarks that are now lost to time Railroads brought workers eager to fill Springfield s factories and enterprises like Smith Wesson Merriam Webster and Indian Motorcycles The Massasoit House Hotel the Church of the Unity and the Daniel B Wesson mansion once served as symbols of the city s grandeur Forest Park grew into an upscale residential neighborhood of Victorian mansions Join local historian Derek Strahan as he returns Springfield to its former glory examining the people events and most importantly places that helped shape the City of Firsts *Springfield* G. Michael Dobbs, 2008 Springfield is a city rich with history and a tradition of innovation Dubbed the City of Firsts it has been influencing change since 1786 when the city was the site of Shays Rebellion the revolutionary uprising that prompted early Americans to form the Constitutional Convention The city is the birthplace of the first American gas powered car and the American motorcycle In the 1930s the pioneering Granville Brothers manufactured the airplanes that tore up the skies over Springfield during the golden age of air racing Springfield is also the home of Dr Seuss the counter culture hero Timothy Leary and the Merriam Webster dictionary **Springfield** Ginger Cruickshank, 1999-10 Situated at the crossroads of New England Springfield Massachusetts was founded in 1636 by twelve families led by William Pynchon who named the settlement after his birthplace in England This book the first of a two volume set is a collection of many never before seen photographs that tell the story of this city s history Springfield is a city of firsts The first successful gasoline powered engine was built by the Duryea brothers here the first U S musket was made at the Springfield Armory and in 1891 resident Dr James Naismith invented the game of basketball The city s ties to the U S military are illustrated here as are its many religious and ethnic communities Within these pages we can see images of a very different Springfield including buildings much changed or long gone and people remembered now in family albums **The Boundaryless Career** Michael Bernard Arthur, Denise M. Rousseau, 2001 This book explores the ways in which people s work careers are changing as the organizations in which they work change The old concept of the firm as a self contained entity interacting with its customers has been replaced by the reality of firms whose boundaries have given way to new alliances with suppliers and other outside organizations *Metal Fatigue* Robert Forrant, Charles Levenstein, John Wooding, 2017-03-02 On February 4 1986 the lives of thousands of workers changed in ways they could only begin to imagine On that day United Technologies Corporation ordered the closure of the 76 year old American Bosch manufacturing plant in Springfield Massachusetts capping a nearly 32 year history of job loss and work relocation from the sprawling factory The author a former Bosch worker and the business agent for the union representing nearly 1 200 Bosch employees when the plant closed interjects his personal recollections into the story For more than 150 years Springfield stood at the center of a prosperous 200 mile industrial corridor along the

Connecticut River between Bridgeport Connecticut and Springfield Vermont populated with hundreds of machine tool and metalworking plants and thousands of workers This book is a historical account of the profound economic collapse of the Connecticut River Valley region with a particular focus on Bosch its workers and its union The shutdown is placed in the context of the wider region s deindustrialization The closure marked the watershed for large firm metalworking and metalworking unions in the Connecticut River Valley The book also describes how the United States in a ten year period from the mid 1970s to the mid 1980s went from being the world s leading exporter of machine tools to its leading importer and how that sharp decline affected the region s leading city Springfield Massachusetts which by 2005 was in danger of bankruptcy
