Problems of Democratic Transition and Consolidation

Juan J. Linz, Alfred Stepan, 1996-08-22. Since their classic volume *The Breakdown of Democratic Regimes* was published in 1978, Juan J. Linz and Alfred Stepan have increasingly focused on the questions of how, in the modern world, nondemocratic regimes can be eroded and democratic regimes crafted. In *Problems of Democratic Transition and Consolidation*, they break new ground in numerous areas. They reconceptualize the major types of modern nondemocratic regimes and point out, for each type, the available paths to democratic transition and the tasks of democratic consolidation. They argue that, although nation-state and democracy often have conflicting logics, multiple and complementary political identities are feasible under a common roof of state-guaranteed rights. They also illustrate how, without an effective state, there can be neither effective citizenship nor successful privatization. Further, they provide criteria and evidence for politicians and scholars alike to distinguish between democratic consolidation and pseudo-democratization, and they present conceptually driven survey data for the fourteen countries studied. *Problems of Democratic Transition and Consolidation* contains the first systematic comparative analysis of the process of democratic consolidation in southern Europe and the southern cone of South America, and it is the first book to ground post-Communist Europe within the literature of comparative politics and democratic theory. This is an important volume by two major scholars on a central topic of broad interest to people in comparative politics, to those interested in democracy, and to regional specialists on Southern Latin America and on Central and Eastern Europe. The book will unquestionably be a major contribution to the literature on constructing democratic governance. Abraham F. Lowenthal, University of Southern California.

Between States, Yossi Shain, Juan J. Linz, Lynn Berat, 1995-05-26. *Between States* is the first book that assesses systematically the broad implications of interim governments in the establishment of democratic regimes and on the existence of states. Based on historical and contemporary democratisation experiences, the book presents four ideal types of interim government: opposition-led, provisional governments, power-sharing interim governments, incumbent-led caretaker governments, and international interim government by the United Nations. The first part explores the theoretical problems of each of these models from a broad comparative perspective. It uses, as illustrations, historical and contemporary cases that present a wide spectrum of contexts for comparison. The second part provides extensive case studies that are intended to illustrate, appraise, amplify, and criticise the analysis in volume one. These include Iran, East Germany, Portugal, Afghanistan, and Yugoslavia.

The Politics of Democratic Consolidation, Richard Gunther, P. Nikiforos Diamandouros, Hans-Jürgen Puhle, 1995-08. With democracy on the rise worldwide, questions about transition are rapidly being replaced by questions about consolidation. How can leaders provide for a stable democracy once a nation has

made its initial commitment to the rule of law and to popularly elected government In *The Politics of Democratic Consolidation* a distinguished group of internationally recognized scholars focus on four nations of Southern Europe Spain Portugal Italy and Greece which have successfully consolidated their democratic regimes Contributors P Nikiforos Diamandouros Richard Gunther Hans Jürgen Puhle Edward Malefakis Juan J Linz Alfred Stepan Felipe Agüero Geoffrey Pridham Sidney Tarrow Leonardo Morlino Jos R Montero Gianfranco Pasquino and Philippe C Schmitter

Arguing Comparative Politics Alfred C. Stepan, 2001 This volume brings together new and classic articles by one of the leading scholars in comparative politics The articles focus in particular on the nature of contemporary democracy and its prospects The volume begins with a personal analysis of the intellectual and often political reasons why and how Stepan chose to engage in certain critical arguments over the last thirty years The volume is then divided into three sections each with a distinctive theme state and society constructing politics and varieties of democracies The introduction and articles ask whether both for intellectual and political reasons there are strong grounds for questioning both Rawls and Huntington on religion and democracy Riker on federalism and Gellner on multinationalism The volume contains articles on civil society political society economic society the military and a usable state The possibility of multiple and complementary political identities is argued for The incentive systems and political practices of the three macro constitutional frameworks for democratic government parliamentarism presidentialism and semi presidentialism are compared and contrasted

From Sheikhs to Sultanism Christopher M. Davidson, 2022-01-15 Muhammad bin Salman Al Saud and Muhammad bin Zayed Al Nahyan the respective princely strongmen of Saudi Arabia and the UAE have torn up the old rules They have spurred game changing economic master plans presided over vast anti corruption crackdowns tackled entrenched religious forces and overseen the mass arrest of critics In parallel they also appear to have replaced the old sheikhly consensus systems of their predecessors with something more autocratic more personalistic and perhaps even analytically distinct These are the two wealthiest and most populous Gulf monarchies and increasingly important global powers Saudi Arabia is a G20 member and the UAE will be the host of the World Expo in 2020 2021 Such sweeping changes to their statecraft and authority structures could well end up having a direct impact for better or worse on policies economies and individual lives all around the world Christopher M Davidson tests the hypothesis that Saudi Arabia and the UAE are now effectively contemporary or even advanced sultanates and situates these influential states within an international model of autocratic authoritarianism Drawing on a range of

primary sources including new interviews and surveys From *Sheikhs to Sultanism* puts forward an original empirically grounded interpretation of the rise of both MBS and MBZ *Faultlines of Conflict in Central Asia and the South Caucasus* Olga Oliker, Thomas S. Szayna, Scott Pace, Peter A. Wilson, 2003-04-02 In the region of Central Asia and South Caucasus what is the potential for armed conflict and how might such outbreaks escalate to a level that could involve U S forces The authors evaluate the key political economic and societal faultlines underlying the likelihood of conflict in the region assessing their implications for regional stability and for U S interests and potential involvement over the next 10 to 15 years *The Arab Uprisings Explained* Marc Lynch, 2014-08-05 Why did Tunisian protests following the self immolation of Mohammed Bouazizi lead to a massive wave of uprisings across the entire Arab world Who participated in those protests and what did they hope to achieve Why did some leaders fall in the face of popular mobilization while others found ways to survive And what have been the lasting results of the contentious politics of 2011 and 2012 The Arab uprisings pose stark challenges to the political science of the Middle East which for decades had focused upon the resilience of entrenched authoritarianism the relative weakness of civil society and what seemed to be the largely contained diffusion of new norms and ideas through new information technologies In this volume leading scholars in the field take a sharp look at the causes dynamics and effects of the Arab uprisings Compiled by one of the foremost experts on Middle East politics and society *The Arab Uprisings Explained* offers a fresh rethinking of established theories and presents a new framework through which scholars and general readers can better grasp the fast developing events remaking the region These essays not only advance the study of political science in the Middle East but also integrate the subject seamlessly into the wider political science literature Deeply committed to the study of this region and working out the kinks of the discipline the contributors to this volume help scholars and policymakers across the world approach this unprecedented historical period smartly and effectively Democratic Revolutions Mark K. Thompson, 2003-11-20 Thompson examines the neglected concept of democratic revolutions spontaneous popular uprisings which topple unyielding dictators and begin a transition process that eventually results in the consolidation of democracy The End of Personal Rule in Indonesia Ayako Masuhara, 2015 Motivated by on the ground experiences during Indonesia s period of political turmoil in the early 2000s following the collapse of the Suharto regime this book systematically explains the structure of the Suharto regime while revealing its political dynamism The primary goal is to account for the transformations that Suharto s personal rule underwent during 30 years in power and explain its end The book focuses on the personal rule system that Suharto employed analyzing its transition and collapse in a groundbreaking thesis that draws on archival materials from major political institutions as well as interviews with some of the key political protagonists The concept co opting type personal rule is proposed to address the following questions What concept can best capture the Suharto regime and the diverse array of personal rule systems and better explain the characteristics of each type How can we analyze personal rule regimes that end in relatively peaceful transitions rather than revolution or violent coup
